ICICI Prudential Life Insurance announces strong financial results for FY2022

VNB growth of 33% y-o-y in FY2022

VNB margin expands to 28% for FY2022

New business sum assured grows 25% y-o-y in FY2022

Ranked #1 in private sector on new business sum assured with market share of 13.4% in 11M-FY2022

**Annuity New Business Premium registers an increase of 29%
FY2022 APE growth of 20% y-o-y**

ICICI Prudential Life Insurance has delivered another strong financial performance leading to a 33% year-on-year growth in the Value of New Business (VNB) for FY2022. The VNB margin, a measure of profitability, expanded to 28% and absolute VNB stood at ₹ 21.63 billion. This was led by a robust growth of 25% in new business sum assured and 20% in Annualised Premium Equivalent for the same period.

During FY2022, Annuity and protection new business premiums grew by 29% and 35% year-on-year respectively. Given that both these segments are significantly under penetrated, they offer tremendous opportunity for growth.

New Business Sum Assured of the Company grew to ₹ 7,731.46 billion for FY2022 making ICICI Prudential Life Insurance the leader in the private sector. A combination of factors such as innovative products coupled with deep and wide distribution network have helped the Company to maintain its position as the market leader in New Business Sum Assured.

The Company's 13th month persistency ratio improved to 85.7% for FY2022, up from 84.8% for FY2021, indicative of the quality of business being underwritten. Assets under Management stood at ₹ 2,404.92 billion at March 31, 2022. This is an outcome of the trust reposed in the Company by customers, growth in new business, strong persistency and robust fund management. The solvency ratio for FY2022 stood at 204.5%, well above the regulatory requirement of 150%.

Despite concerns and challenges posed by the onset of the Omicron variant, the Company's robust technology backbone has enabled continuity in operations, be it onboarding new customers or delivering superior service.

Mr. N S Kannan, MD & CEO, ICICI Prudential Life Insurance said, "Despite the disruptions caused by the third wave of COVID-19, which impacted productivity in January and February, we were able to demonstrate resilience in our operations. In March, we posted the best ever monthly sales by the Company in any year since inception. This helped grow our VNB by 33% year-on-year to ₹ 21.63 billion for FY2022 with a robust VNB

margin of 28.0%.

Through the pandemic-affected period, we focused on putting in place the building blocks for growth. We innovated across product categories with two new funds, Balanced Advantage Fund & Sustainable Equity Fund for our unit linked customers, two new products for customers seeking a regular income, and the return on premium variant of our retail protection product. The contribution of these innovative offerings was more than 25% of the APE in FY2022.

The strong performance was driven in equal measure by over 100 valuable partnerships forged this year. In the agency channel, we added almost 25,000 agents through the year. This enabled us to support our strategy of deepening and widening distribution.

Our revamped customer app has crossed the milestone of 1 million downloads and is one of the best rated in the industry. Today one out of every four service transactions is carried out on our mobile app. Further, I am happy to report that this year is the first year of profitability for our wholly owned subsidiary, ICICI Prudential Pension Fund Management Company Limited.

We are now poised to take advantage of all this good work that has gone into building a growing and sustainable institution with customer centricity at its core."

Company Performance:

Value of New Business (VNB) growth

The VNB for FY2022 grew by 33% year-on-year to ₹ 21.63 billion. The VNB margin for FY2022 stood at 28.0%, up from 25.1% for FY2021.

Progress on our 4P strategy

Premium Growth

Annualised Premium Equivalent (APE) grew by 20% year on year to ₹ 77.33 billion in FY2022. The Annuity business registered a strong growth of 29% year-on-year with ₹ 29.56 billion of New Business Received Premium in FY2022. The Company has a well-diversified product mix with linked savings at 48%, traditional savings at 31%, protection at 17% and the balance of 4% accounted for by group savings products.

Protection

Protection APE grew by 26% year-on-year to ₹ 13.13 billion in FY2022. The protection mix increased from 16.2% of APE in FY2021 to 17.0% of APE in FY2022. Focus on premium growth and expanding the protection business led to New Business Sum Assured growth of 25% year-on-year to ₹ 7.73 trillion in FY2022. With this the market share increased from 12.5% in FY2021 to 13.4% in 11M-FY2022, and the Company continued to be leader in the private sector.

Persistency

The persistency ratios have seen significant improvements. The 13th month persistency ratio improved to 85.7% for FY2022 as compared to 84.8% for FY2021. The AUM grew by 12% year-on-year to ₹ 2,404.92 billion at March 31, 2022.

Productivity

The overall cost ratio i.e. Cost/Total Weighted Received Premium (TWRP) stood at 18.6% in FY2022. The cost ratio for the savings line of business stood at 12.8% in FY2022.

Net worth and capital position

Company's net worth was ₹ 91.63 billion at March 31, 2022. The solvency ratio was 204.5% against regulatory requirement of 150%.

Embedded Value

The Embedded Value grew by 9% and stood at ₹ 316.25 billion as on March 31, 2022 and the Return on Embedded Value was 11.0% for FY2022.

Dividend

The Board has approved a final dividend of ₹ 0.55 per equity share for FY2022.

Definitions, abbreviations and explanatory notes

- **Annual Premium Equivalent (APE):** APE is a measure of new business written by a life insurance company. It is computed as the sum of annualised first year premiums on regular premium policies, and ten percent of single premiums, written by the Company during any period from new retail and group customers.
- **Value of New Business (VNB) and VNB margin:** VNB is used to measure profitability of the new business written in a period. It is present value of all future profits to shareholders measured at the time of writing of the new business contract. Future profits are computed on the basis of long term assumptions which are reviewed annually. VNB is also referred to as NBP (new business profit). VNB margin is computed as VNB for the period/APE for the period. It is similar to profit margin for any other business.

- **Retail Weighted Received Premium (RWRP):** RWRP is a new business measure very similar to APE for the retail (also referred to as individual) business with the only difference being that the regular premiums considered here are first year premiums actually received by the life insurer and not annualised. Secondly, since it is a new business measure for retail business, it includes only Premium received from retail customers. It is the sum of all retail first year premiums and ten percent of retail single premiums received in a period.
- **Persistency:** It is the most common parameter for quality of business representing the percentage of retail policies (where premiums are expected) that continue paying premiums. The method of computation of Persistency has been prescribed by IRDAI vide its circular dated January 23, 2014.
- **Total Weighted Received Premium (TWRP):** TWRP is a measure of total premiums from new and existing retail and group customers received in a period. It is sum of first year and renewal premiums on regular premium policies and ten percent of single premiums received from both retail and group customers by Company during the period.
- **Cost Ratio:** Cost ratio is a measure of the cost efficiency of a Company. Expenses are incurred by the Company on new business as well as renewal premiums. Cost ratio is computed as a ratio of all expenses incurred in a period comprising commission, operating expenses, provision for doubtful debts and bad debts written off to total weighted received Premium (TWRP).

About ICICI Prudential Life Insurance

ICICI Prudential Life is promoted by ICICI Bank Limited and Prudential Corporation Holdings Limited. The Company began operations in fiscal 2001 and has consistently been amongst the top private sector life insurance companies in India on a Retail Weighted Received Premium (RWRP) basis. The Company offers an array of products in the Protection and Savings category which match the different life stage requirements of customers, enabling them to provide a financial safety net to their families as well as achieve their long-term financial goals. The digital platform of the Company provides a paperless on-boarding experience to customers, empowers them to conduct an assortment of self-service transactions, provides a convenient route to make digital payments for purchasing and making renewal premium payments, and facilitates a hassle-free claims settlement process. On March 31, 2022 the Company had an AUM of ₹ 2,404.92 billion and a Total Sum Assured of ₹ 23.50 trillion. ICICI Prudential Life is listed on both the National Stock Exchange (NSE) Limited and the BSE Limited.

Components may not add up to the totals due to rounding off

- **Profitability**

Value of New Business (VNB) for FY2022 was ₹ 21.63 billion, a growth of 33.4% over FY2021. With an APE of ₹ 77.33 billion for FY2022, VNB margin was 28.0% for FY2022 as compared to 25.1% for FY2021.

The Company's profit after tax was ₹ 1.85 billion for Q4-FY2022, a growth of 189.5% as compared to ₹ 0.64 billion for Q4-FY2021. The Company's profit after tax was ₹ 7.54 billion for the year ended March 31, 2022 as compared to ₹ 9.60 billion for the year ended March 31, 2021.

- **Embedded Value**

Our Embedded Value at March 31, 2022 was ₹ 316.25 billion compared to ₹ 291.06 billion at March 31, 2021.

- **New business growth**

APE was ₹ 77.33 billion for FY2022, a growth of 19.7% as compared to ₹ 64.62 billion for FY2021. APE was ₹ 26.08 billion for Q4-FY2022, a growth of 3.9% as compared to ₹ 25.08 billion for Q4-FY2021.

New business premium was ₹ 150.36 billion for FY2022, a growth of 15.4% as compared to ₹ 130.32 billion for FY2021.

- **Product mix**

The Company offers a range of products across protection and savings solutions to meet the specific needs of customers. During FY2022, retail traditional savings APE grew by 20.5% from ₹ 20.08 billion in FY2021 to ₹ 24.20 billion in FY2022. Protection APE grew by 25.5% year on year to ₹ 13.13 billion and the protection mix stood at 17.0% in FY2022.

As a result, new business sum assured was ₹ 2,599.83 billion for Q4-FY2022, a growth of 26.7% as compared to ₹ 2,051.84 billion for Q4-FY2021. The new business sum assured was ₹ 7,731.46 billion for FY2022, a growth of 25.4% as compared to ₹ 6,166.84 billion for FY2021. Based on new business sum assured, the Company continued to maintain a leadership within the private life insurance sector.

- **Persistency**

The Company has strong focus on improving the quality of business and customer retention which is reflected in 13th and 49th month persistency ratios. Our 13th month persistency ratio was stable at 85.7% at March 31, 2022 as compared to 84.8% at March 31, 2021. Our 49th month persistency ratio improved to 63.7% for 11M-FY2022 as compared to 63.0% for 11M-FY2021.

- **Cost efficiency**

The cost to total weighted received premium (TWRP) ratio for the savings business stood higher at 12.8% in FY2022 as compared to 9.6% in FY2021. Our overall cost to TWRP stood at 18.6% in FY2022. The growth in expenses ahead of APE growth was due to higher discretionary expenses in light of the easing of the pandemic as well as investment in capacity for future growth.

- **Assets under management**

The total assets under management of the Company was ₹ 2,404.92 billion at March 31, 2022, a growth of 12.3% over ₹ 2,142.18 billion March 31, 2021. The Company had a debt-equity mix of 53:47 at March 31, 2022. 97.8% of the debt investments were in AAA rated securities and government bonds.

- **Net worth and capital position**

The Company's net worth was ₹ 91.63 billion at March 31, 2022. The solvency ratio was 204.5% at March 31, 2022 against the regulatory requirement of 150%.

1. Net of provision for diminution in value of investments

2. Commission also includes rewards and/or remuneration to agents, brokers or other intermediaries

3. Includes provisions for doubtful debts (including write off) and good and service tax on linked charges

4. Includes movement in funds for future appropriation

Profit after tax decreased from ₹ 9.60 billion in FY2021 to ₹ 7.54 billion in FY2022. The performance highlights for FY2022 are given below:

- Net premium earned (gross premium less reinsurance premium) increased by 3.85% from ₹ 349.73 billion in FY2021 to ₹ 363.21 billion in FY2022.
- Total investment income of ₹ 258.30 billion in FY2022 comprised income of ₹ 197.82 billion (Investment income FY2021: ₹ 421.53 billion) under the unit-linked portfolio and an investment income of ₹ 60.48 billion (FY2021: ₹ 60.04 billion) under the non-unit funds. The investment income under unit-linked portfolio is directly offset by a change in valuation of policyholder liabilities. Unit linked portfolio investment income decreased from ₹ 421.53 billion in FY2021 to ₹ 197.82 billion in FY2022 primarily on account of decrease in market value of the securities held.
- Other income increased from ₹ 0.94 billion in FY2021 to ₹ 1.15 billion in FY2022.
- Total expenses (including commission) increased by 24.8% from ₹ 49.16 billion in FY2021 to ₹ 61.37 billion in FY2022. Commission expense (including rewards) increased by 11.5% from ₹ 15.00 billion in FY2021 to ₹ 16.73 billion in FY2022. New business commission (including single

premium) has increased from ₹ 10.32 billion in FY2021 to ₹ 11.79 billion in FY2022. Renewal commission has increased from ₹ 3.98 billion in FY2021 to ₹ 4.12 billion in FY2022. Operating expenses of ₹ 44.64 billion in FY2022 (FY2021: ₹ 34.16 billion) comprised of unit fund expenses (including goods and service tax on linked charges) amounting to ₹ 7.00 billion (FY2021: ₹ 6.69 billion) under the unit-linked portfolio. The unit fund expenses under unit-linked portfolio is directly offset by a change in valuation of policyholder liabilities. Operating expenses of other than unit linked portfolio increased by 37.0% from ₹ 27.47 billion in FY2021 to ₹ 37.63 billion in FY2022 primarily on account of increase in expenses relating to employee remuneration and welfare benefits, advertisement and business conferences expenses.

- Claims and benefit payouts increased by 29.7% from ₹ 226.41 billion in FY2021 to ₹ 293.59 billion in FY2022 primarily on account of increase in surrenders/withdrawals and death claims. The Company had COVID-19 claims (net of reinsurance) of ₹ 10.17 billion.
- Change in actuarial liability, including funds for future appropriation, decreased from ₹ 544.45 billion in FY2021 to ₹ 258.14 billion in FY2022. Fund reserve, which represents liability carried on account of units held by unit linked policyholders, decreased from ₹ 414.64 billion in FY2021 to ₹ 123.17 billion in FY2022. The decrease in fund reserves is primarily due to lower investment income in the unit linked portfolio. Non-unit reserve increased from ₹ 128.60 billion in FY2021 to ₹ 134.67 billion in FY2022.

Notes:

- Analytical ratios have been calculated as per the definition given in IRDAI Analytical ratios disclosure.
- Calculations are in accordance with the IRDA circular IRDA/ACT/CIR/GEN/21/02/2010 dated February 11, 2010.
 - Persistency ratios for the quarter ended March 31, 2022 have been calculated on March 31, 2022 for the policies issued in December to February period of the relevant years. For example, the 13th month persistency for quarter ended March 31, 2022 is calculated for policies issued from December 1, 2020 to February 28, 2021
 - Persistency ratios for the quarter ended December 31, 2021 have been calculated on January 31, 2022 for the policies issued in October to December period of the relevant years. For example, the 13th month persistency for quarter ended December 31, 2021 is calculated for policies issued from October 1, 2020 to December 31, 2020.
 - Persistency ratios for the quarter ended March 31, 2021 have been calculated on April 30, 2021 for the policies issued in January to March period of the relevant years. For example, the 13th month persistency for quarter ended March 31, 2021 is calculated for policies issued from January 1, 2020 to March 31, 2020.
 - Persistency ratios for the year ended March 31, 2022 have been calculated on March 31, 2022 for the policies issued in March to February period of the relevant years. For example, the 13th month persistency for year ended March 31, 2022 is calculated for policies issued from March 1, 2020 to February 28, 2021
 - Persistency ratios for year ended March 31, 2021 have been calculated on April 30, 2021 for the policies issued in April to March period of the relevant years. For example, the 13th month persistency for year ended March 31, 2021 is calculated for policies issued from April 1, 2019 to March 31, 2020.
 - Group policies and policies under micro insurance products are excluded.

Notes:

- The Asset Cover Ratio computation is in accordance with the SEBI Circular SEBI/HO/MIRSD/CRADT/CIR/P/2020/230 dated November 12, 2020 and net assets are excluding Policyholders funds and Funds for Future Appropriations. Assets Cover ratio is computed as net assets divided by total borrowings. Further, the net assets include Credit/(debit) fair value change and revaluation reserve arising out of Shareholders' investments and Capital work in progress.
- Debt-Equity Ratio is calculated as total borrowings divided by Equity. Equity is calculated as shareholder's funds excluding redeemable preference shares, if any.
- DSCR is calculated as Profit before interest, depreciation and tax divided by interest expenses together with principal payments of long term debt during the period.
- ISCR is calculated as Profit before interest, depreciation and tax divided by interest expenses of long term debt during the period.
- Debenture redemption reserve is not required to be created as per Companies (Share Capital & Debenture) Amendment Rules, 2019 dated August 16, 2019
- Net worth represents shareholder's funds excluding redeemable preference shares, if any.
- Current ratio is computed as current assets divided by current liability.
- Not applicable to insurance companies.
- Current liability ratio is computed as current liability divided by total liability. Total liability includes borrowings, policyholders' liabilities, fund for future appropriation and current liability.
- Total debt to total assets is computed as borrowings divided by total assets.
- Sector specific equivalent ratios are disclosed in Analytical ratios forming part of Standalone audited financial SEBI results.

Notes:

- Analytical ratios have been calculated as per the definition given in IRDAI Analytical ratios disclosure.
- Calculations are in accordance with the IRDA circular IRDA/ACT/CIR/GEN/21/02/2010 dated February 11, 2010.
 - Persistency ratios for the quarter ended March 31, 2022 have been calculated on March 31, 2022 for the policies issued in December to February period of the relevant years. For example, the 13th month persistency for quarter ended March 31, 2022 is calculated for policies issued from December 1, 2020 to February 28, 2021
 - Persistency ratios for the quarter ended December 31, 2021 have been calculated on January 31, 2022 for the policies issued in October to December period of the relevant years. For example, the 13th month persistency for quarter ended December 31, 2021 is calculated for policies issued from October 1, 2020 to December 31, 2020.
 - Persistency ratios for the quarter ended March 31, 2021 have been calculated on April 30, 2021 for the policies issued in January to March period of the relevant years. For example, the 13th month persistency for quarter ended March 31, 2021 is calculated for policies issued from January 1, 2020 to March 31, 2020.
 - Persistency ratios for the year ended March 31, 2022 have been calculated on March 31, 2022 for the policies issued in March to February period of the relevant years. For example, the 13th month persistency for year ended March 31, 2022 is calculated for policies issued from March 1, 2020 to February 28, 2021
 - Persistency ratios for year ended March 31, 2021 have been calculated on April 30, 2021 for the policies issued in April to March period of the relevant years. For example, the 13th month persistency for year ended March 31, 2021 is calculated for policies issued from April 1, 2019 to March 31, 2020.
 - Group policies and policies under micro insurance products are excluded.

Notes:

- The Asset Cover Ratio computation is in accordance with the SEBI Circular SEBI/HO/MIRSD/CRADT/CIR/P/2020/230 dated November 12, 2020 and net assets are excluding Policyholders funds and Funds for Future Appropriations. Assets Cover ratio is computed as net assets divided by total borrowings. Further, the net assets include Credit/(debit) fair value change and revaluation reserve arising out of Shareholders' investments and Capital work in progress.
- Debt-Equity Ratio is calculated as total borrowings divided by Equity. Equity is calculated as shareholder's funds excluding redeemable preference shares, if any.
- DSCR is calculated as Profit before interest, depreciation and tax divided by interest expenses together with principal payments of long term debt during the period.
- ISCR is calculated as Profit before interest, depreciation and tax divided by interest expenses of long term debt during the period.
- Debt redemption reserve is not required to be created as per Companies (Share Capital & Debenture) Amendment Rules, 2019 dated August 16, 2019
- Net worth represents shareholder's funds excluding redeemable preference shares, if any.
- Current ratio is computed as current assets divided by current liability.
- Not applicable to insurance companies.
- Current liability ratio is computed as current liability divided by total liability. Total liability includes borrowings, policyholders' liabilities, fund for future appropriation and current liability.
- Total debt to total assets is computed as borrowings divided by total assets.
- Sector specific equivalent ratios are disclosed in Analytical ratios forming part of Standalone audited financial SEBI results.

Notes:

1. The above financial results of the Company for the year ended March 31, 2022 were reviewed by the Audit Committee and subsequently approved by the Board of Directors at its meeting held on April 16, 2022.
2. These financial results have been prepared in accordance with the requirements of Regulation 33 and Regulation 52 read with Regulation 63(2) of the SEBI (Listing Obligation and Disclosure Requirements) Regulations, 2015, as amended from time to time, to the extent applicable, and IRDAI circular IRDA/F&I/REG/CIR/208/10/2016 dated October 25, 2016 on publication of financial results for life insurance companies.
3. The above financial results are audited by the joint statutory auditors, B S R & Co. LLP, Chartered Accountants and Walker Chandior & Co LLP, Chartered Accountants.
4. In view of seasonality of the Industry, the financial results for the quarter ended March 31, 2022 are not indicative of full year's expected performance.
5. The amounts for the quarter ended March 31, 2022 are balancing amounts between the amounts as per audited accounts for the year ended March 31, 2022 and nine months ended December 31, 2021.
6. The Board of directors has recommended a final dividend of ₹ 0.55 per equity share of face value of ₹ 10 each for the year ended March 31, 2022. The declaration and payment of final dividend is subject to requisite approvals.
7. During the quarter ended March 31, 2022, the Company has allotted 19,130 equity shares of face value of ₹ 10 each pursuant to exercise of employee stock options.
8. For the quarter ended March 31, 2022, the Company has assessed the impact of COVID-19 on its operations as well its financial statements, including but not limited to the areas of valuation of investment assets, valuation of policy liabilities and solvency. Based on the assessment, the Company is carrying a provision for Incurred but Not Reported claims (net of reinsurance) of ₹ 2,416 lakhs for COVID-19 claims at March 31, 2022, which is included in the policy liabilities. Further, there have been no material changes in the controls or processes followed in the financial statement closing process of the Company. The impact of COVID-19 in the future may be different from that estimated at the date of approval of these financial results and the Company will continue to closely monitor any material changes to future economic conditions.
9. The Company is identified as 'Large Corporate' as per criteria under SEBI circular SEBI/HO/DDHS/CIR/P/2018/144. The disclosures as required in compliance of the above circular is enclosed as Annexure A and Annexure B2. Necessary disclosure has been made to the stock exchanges in this regard.
10. Figures of the previous period have been re-grouped wherever necessary, to conform to the current year presentation.
11. In accordance with requirements of IRDAI Circular on "Public disclosures by Insurers" dated September 30, 2021, the Company will publish the financials on the Company's website latest by May 16, 2022.

Auditor's Report on Standalone Annual Financial Results of ICICI Prudential Life Insurance Company Limited pursuant to Regulation 33 and Regulation 52 read with Regulation 63(2) of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 and Insurance Regulatory and Development Authority of India Circular reference: IRDAI/F&I/REG/CIR/208/10/ 2016 dated 25 October 2016**To The Board of Directors of
ICICI Prudential Life Insurance Company Limited**

We have audited the standalone annual financial results of ICICI Prudential Life Insurance Company Limited (the "Company") for the year ended 31 March 2022, attached herewith, being submitted by the Company pursuant to the requirement of Regulation 33 and Regulation 52 read with Regulation 63(2) of the Securities and Exchange Board of India ("SEBI") (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended (the "Listing Regulations") and the Insurance Regulatory and Development Authority of India ("IRDAI"/"Authority") Circular reference: IRDAI/F&I/REG/CIR/208/10/2016 dated 25 October 2016. These standalone annual financial results have been prepared on the basis of the standalone annual financial statements, which is the responsibility of the Company's management and have been approved by the Board of Directors on 16 April 2022.

Our responsibility is to express an opinion on these standalone annual financial results based on our audit of such standalone annual financial statements, which have been prepared in accordance with the recognition and measurement principles specified under Section 133 of the Companies Act, 2013 (the "Act"), including the relevant provisions of the Insurance Act, 1938 (the "Insurance Act"), the Insurance Regulatory and Development Authority Act, 1999 (the "IRDA Act") and other accounting principles generally accepted in India, to the extent considered relevant and appropriate for the purpose of standalone annual financial results and which are not inconsistent with the accounting principles as prescribed in the Insurance Regulatory and Development Authority (Preparation of Financial Statements and Auditors' Report of Insurance Companies) Regulations, 2002 (the "Regulations") and orders/directions/circulars issued by the IRDAI, to the extent applicable.

We conducted our audit in accordance with the auditing standards generally accepted in India. Those Standards require that we plan and perform the audit to obtain reasonable assurance about whether the standalone annual financial results are free of material misstatements. An audit includes examining, on a test basis, evidence supporting the amounts disclosed as standalone annual financial results. An audit also includes assessing the accounting principles used and significant estimates made by management. We believe that our audit provides a reasonable basis for our opinion.

In our opinion and to the best of our information and according to the explanations given to us, these standalone annual financial results:

- (i) are presented in accordance with the requirements of Regulation 33 and Regulation 52 read with Regulation 63(2) of the Listing Regulations and IRDAI Circular reference: IRDAI/F&I/REG/CIR/208/10/2016 dated 25 October 2016 in this regard; and
- (ii) give a true and fair view of the standalone net profit and other financial information for the year ended 31 March 2022.

ICICI Prudential Life Insurance Company Limited

Other Matters

- The actuarial valuation of liabilities for life policies in force and for policies in respect of which premium has been discontinued but liability exists as at 31 March 2022 is the responsibility of the Company's Appointed Actuary (the "Appointed Actuary"). The actuarial valuation of these liabilities for life policies in force and for policies in respect of which premium has been discontinued but liability exists as at 31 March 2022 has been duly certified by the Appointed Actuary and in his opinion, the assumptions for such valuation are in accordance with the guidelines and norms issued by the IRDAI and the Institute of Actuaries of India in concurrence with the Authority. We have relied upon the Appointed Actuary's certificate in this regard for forming our opinion on the valuation of liabilities for life policies in force and for policies in respect of which premium has been discontinued but liability exists, as contained in the standalone annual financial statements of the Company. Our opinion is not modified in respect of this matter.
- The standalone annual financial results includes the financial results for the quarter ended 31 March 2022, being the balancing figure between the audited figures in respect of the full financial year and the published audited year to date figures up to the third quarter of the current financial year.

Auditor's Report on Consolidated Annual Financial Results of ICICI Prudential Life Insurance Company Limited pursuant to Regulation 33 and Regulation 52 read with Regulation 63(2) of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 and Insurance Regulatory and Development Authority of India Circular reference: IRDAI/F&I/REG/CIR/208/10/2016 dated 25 October 2016

To The Board of Directors of ICICI Prudential Life Insurance Company Limited

We have audited the consolidated annual financial results of ICICI Prudential Life Insurance Company Limited (hereinafter referred to as the "Holding Company") and its subsidiary, ICICI Prudential Pension Funds Management Company Limited (the Holding Company and its subsidiary together referred to as the "Group") for the year ended 31 March 2022, attached herewith, being submitted by the Holding Company pursuant to the requirement of Regulation 33 and Regulation 52 read with Regulation 63(2) of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 (as amended) ("Listing Regulations") and the Insurance Regulatory and Development Authority of India ("IRDAI"/"Authority") Circular reference: IRDAI/F&I/REG/CIR/208/10/2016 dated 25 October 2016. These consolidated annual financial results have been prepared on the basis of the consolidated annual financial statements, which is the responsibility of the Holding Company's management and have been approved by the Holding Company's Board of Directors on 16 April 2022.

Our responsibility is to express an opinion on these consolidated annual financial results based on our audit of such consolidated annual financial statements, which have been prepared by the Holding Company's management in accordance with the recognition and measurement principles specified under Section 133 of the Companies Act, 2013 (the "Act"), including the relevant provisions of the Insurance Act, 1938 (the "Insurance Act"), the Insurance Regulatory and Development Authority Act, 1999 (the "IRDA Act") and other accounting principles generally accepted in India, to the extent considered relevant and appropriate for the purpose of consolidated annual financial results and which are not inconsistent with the accounting principles as prescribed in the Insurance Regulatory and Development Authority (Preparation of Financial Statements and Auditors' Report of Insurance Companies) Regulations, 2002 (the "Regulations") and orders/directions/circulars issued by the IRDAI, to the extent applicable.

We conducted our audit in accordance with the auditing standards generally accepted in India. Those Standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated annual financial results are free of material misstatements. An audit includes examining, on a test basis, evidence supporting the amounts disclosed as consolidated annual financial results. An audit also includes assessing the accounting principles used and significant estimates made by management. We believe that our audit provides a reasonable basis for our opinion.

In our opinion and to the best of our information and according to the explanations given to us and based on the consideration of report of other auditor on separate audited financial statements of the subsidiary, the consolidated annual financial results:

B S R & Co. (a partnership firm with Registration No. BA61223) converted into B S R & Co. LLP (a Limited Liability Partnership with LLP Registration No. AAB-8181) with effect from October 14, 2013

Registered Office:
14th Floor, Central B Wing and North C Wing, Nesco IT Park 4, Nesco
Center, Western Express Highway, Goregaon (East), Mumbai – 400063

Auditor's Report on Consolidated Annual Financial Results of ICICI Prudential Life Insurance Company Limited pursuant to Regulation 33 and Regulation 52 read with Regulation 63(2) of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 and Insurance Regulatory and Development Authority of India Circular reference: IRDAI/ F&I/REG/CIR/208/10/2016 dated 25 October 2016 (Continued)

ICICI Prudential Life Insurance Company Limited

- (i) are presented in accordance with the requirements of Regulation 33 and Regulation 52 read with Regulation 63(2) of the Listing Regulations and IRDAI Circular reference: IRDAI/F&I/REG/CIR/208/10/2016 dated 25 October 2016 in this regard; and
- (ii) give a true and fair view of the consolidated net profit and other financial information for the year ended 31 March 2022.

Other Matters

- a. The actuarial valuation of liabilities for life policies in force and for policies in respect of which premium has been discontinued but liability exists as at 31 March 2022 is the responsibility of the Holding Company's Appointed Actuary (the "Appointed Actuary"). The actuarial valuation of these liabilities for life policies in force and for policies in respect of which premium has been discontinued but liability exists as at 31 March 2022 has been duly certified by the Appointed Actuary and in his opinion, the assumptions for such valuation are in accordance with the guidelines and norms issued by the IRDAI and the Institute of Actuaries of India in concurrence with the Authority. We have relied upon the Appointed Actuary's certificate in this regard for forming our opinion on the valuation of liabilities for life policies in force and for policies in respect of which premium has been discontinued but liability exists, as contained in the consolidated annual financial statements of the Group.
- b. We did not audit the financial statements of subsidiary company which is included in the consolidated annual financial results, which reflects total assets (before consolidation adjustments) of Rs. 589,780 thousand as at 31 March 2022, total revenues (before consolidation adjustments) of Rs. 124,823 thousand, profit before tax (before consolidation adjustments) of Rs. 42,179 thousand and net cash inflow (before consolidation adjustments) of Rs. 483 thousand for the year ended 31 March 2022. The annual financial statements of such subsidiary have been audited by other auditor, whose report has been furnished to us by the Holding Company's management, and our opinion on the consolidated annual financial results, in so far as it relates to such subsidiary, is based solely on the report of such other auditor.

Our opinion is not modified in respect of the above matters.

- c. The consolidated annual financial results includes the financial results for the quarter ended 31 March 2022, being the balancing figure between the audited figures in respect of the full financial year and the published audited year to date figures up to the third quarter of the current financial year.

ICICI Prudential Life Insurance Company Limited

Embedded Value Results

This report on Embedded Value Results ("EV Results") as at March 31, 2022 has been prepared by the Company and the results presented in the report have been reviewed by Milliman Advisors LLP.

1 Basis of preparation

The Embedded Value (EV) is a measure of the consolidated value of the shareholders' interest in the life insurance business. The EV Results have been prepared based on the Indian Embedded Value (IEV) methodology and principles as set out in Actuarial Practice Standard 10¹ (version 1.02) (APS10) issued by the Institute of Actuaries of India (IAI). As APS10 is applicable for the limited purpose of an Initial Public Offering (IPO), compliance with APS10 is limited to the methodology and principles used to develop the EV Results presented in this report. The EV methodology is broadly in line with the Market Consistent Embedded Value² (MCEV) principles used in Europe.

A detailed description of the EV methodology is provided in section 3.

¹ The Actuarial Practice Standard 10 for the EV method is available at http://www.actuariesindia.org/downloads/APS/APS_10_modification_ver1_02_28_03_2015.pdf

² The MCEV principles as defined by the CFO Forum are available at http://www.cfocforum.nl/downloads/MCEV_Principles_and_Guidance_October_2009.pdf

2 Key results

New Business Margin (VNB/APE)	25.1%	28.0%
Single Premium	81.53	90.15
Regular Premium	56.47	68.31
Annual Premium Equivalent (APE)	64.62	77.33
Savings	54.16	64.20
Protection	10.46	13.13

Components of VNB (₹ bn)	As at March 31, 2021	As at March 31, 2022
Present value of future profits (PVFP) for new business	17.74	23.40
Time value of financial options and guarantees (TVFOG)	(0.01)	(0.00)
Cost of residual non-hedgeable risks (CRNHR)	(0.94)	(1.10)
Frictional cost of required capital (FC)	(0.59)	(0.67)
Value of new business	16.21	21.63

2.2 EV

Components of EV (₹ bn)	As at March 31, 2021	As at March 31, 2022
Free surplus (FS)	47.77	28.70
Required capital (RC)	47.45	54.90
Adjusted net worth (ANW)	95.22	83.60
Present value of future profits (PVFP)	204.95	241.41
Time value of financial options and guarantees (TVFOG)	(1.60)	(0.55)
Cost of residual non-hedgeable risks (CRNHR)	(4.86)	(5.07)
Frictional cost of required capital (FC)	(2.64)	(3.13)
Value of in-force business (VIF)	195.84	232.66
Embedded value (EV)	291.06	316.25
EV operating earnings (EVOP)	35.05	31.92
Return on Embedded Value (ROEV)	15.2%	11.0%
Growth in EV	26.4%	8.7%

2.3 Analysis of movement

The graph and table below analyse the movement in embedded value from ₹291.06 bn to ₹316.25 bn during FY2022.

1: EVOP is the embedded value operating profit net of tax
 2: ROEV is the return on embedded value net of tax
 3: ROEV excluding the impact of mortality and morbidity variance
 EV results prepared as per APS 10 and reviewed by Milliman Advisors LLP
 Components may not add up to the total due to rounding off

Components (₹ bn)	FY2021	FY2022
Opening EV	230.30	291.06
Expected return on existing business (unwind)		
At reference rates	10.24	9.54
At expected excess 'real world' return over reference rates	6.37	11.31
Operating assumption changes	3.09	(0.91)
VNB added during the period	16.21	21.63
Operating experience variance		
Persistency	1.10	1.51
Mortality / morbidity	(2.37)	(11.87)
Expenses	0.01	0.07
Others	0.41	0.64
EV operating earnings (EVOP)	35.05	31.92
Economic assumption changes and investment variance	25.67	(4.37)
EV total earnings	60.72	27.55
Capital contributions / (dividends paid out)	0.04	(2.36)
Closing EV	291.06	316.25

2.4 Sensitivities

No.	Scenario (₹ bn)	Change in embedded value	Change in new business value
	Base results	316.25	21.63
1	Reference rates		
1a	An increase of 100 bps in the reference rates	(4.2%)	(3.5%)
1b	A decrease of 100 bps in the reference rates	4.6%	3.2%
2	Acquisition expenses		
2a	10% increase in acquisition expenses	Nil	(10.1%)
2b	10% decrease in acquisition expenses	Nil	10.1%
3	Maintenance expenses		
3a	10% increase in maintenance expenses	(0.7%)	(2.3%)
3b	10% decrease in maintenance expenses	0.7%	2.3%
4	Persistency		
4a	10% increase (multiplicative) in the policy / premium discontinuance rates and partial withdrawal rates	(1.0%)	(4.9%)
4b	10% decrease (multiplicative) in the policy / premium discontinuance rates and partial withdrawal rates	1.0%	5.3%
5	Mortality/Morbidity		
5a	An increase of 10% (multiplicative) in the mortality / morbidity rates	(1.9%)	(8.3%)
5b	A decrease of 10% (multiplicative) in the mortality / morbidity rates	1.9%	8.4%
6	Taxation		
6a	Assumed tax rate increased to 25%	(6.3%)	(10.3%)
7	Equity		
7a	Equity values increase by 10%	1.9%	0.6%
7b	Equity values decrease by 10%	(1.9%)	(0.6%)

3 Methodology

The EV consists of the two following components:

- Adjusted net worth (ANW), consisting of:
 - Free surplus (FS) allocated to the covered business; and
 - Required capital (RC).
- Value of in-force covered business (VIF).

3.1 Covered business

The business covered under the EV Results (covered business) includes all business that has been written by the Company including the life assurance and pensions business, accident and health-insurance business and group business.

The business written by ICICI Prudential Pension Funds Management Co. Ltd., a subsidiary of ICICI Prudential which writes pensions fund management business, is not included as covered business. The value of ICICI Prudential Pension Funds Management Co. Ltd is reflected in ANW based on the value at which it is carried in the audited financial statements of the Company, which is ₹ 549.2 mn as at March 31, 2022.

3.2 RC

RC is the value of assets attributed to the covered business over and above that which is required to back the liabilities for covered business, the distribution of which to shareholders is restricted.

The level of RC is set equal to the amount required to be held to meet supervisory requirements or otherwise encumbered by supervisory or legal restrictions that prevent its distribution. The amount of RC is presented from the shareholders' perspective and is net of the funds for future appropriation (FFAs) and the book value of subordinated debt, to the extent allowed by the regulations to meet the RC.

3.3 FS

The FS is the market value of any assets allocated to, but not required to support, the in-force covered business as at the valuation date.

The FS has been determined as the adjusted net worth of the Company, less the RC as defined above. The adjusted net worth of the Company is calculated as the net shareholders' funds as per the audited financial statements, adjusted so as to revalue to market value those assets and those liabilities that are dependent on asset values, which are not at market value in the audited financial statements. The mark to market adjustment is net of tax applicable.

The Company had raised ₹ 12 billion of subordinated debt capital through a private placement of non-convertible debentures (NCDs) in November 2020. The difference between the book value and the market value of liability associated with the NCD is reflected in the FS.

The FFA, which comprises all funds which have not been explicitly allocated either to policyholders or to shareholders at the valuation date, is reported under policyholder funds. The shareholders have a 10% interest in the non-linked FFA accrued in respect of participating business. The value of the shareholders' interest in the FFA is included in the VIF, at its market value, and therefore does not form part of the ANW.

3.4 VIF

The VIF represents the present value of the shareholders' interest in the earnings distributable from the assets allocated to the covered business after sufficient allowance for the aggregate risks in the business. The VIF consists of the following components:

- the present value of future profits (PVFP); adjusted for
- the time value of financial options and guarantees (TVFOG);
- the frictional costs of required capital (FC); and
- the cost of residual non-hedgeable risks (CRNHR).

PVFP

The PVFP is the present value of projected distributable profits to shareholders arising from the in-force covered business, determined by projecting the post taxation shareholder cash flows from the in-force covered business and the assets backing the associated liabilities. The distributable profits also include the release to shareholders of the amounts from the FFA. For one year renewable group term business, any future profits arising from the expected renewals from existing members are included in the PVFP.

For products with reviewable rates and charges, the projection of future cash flows assumes that the rates and charges as at the valuation date remain unchanged.

The projection of future distributable profits arising from the covered business is carried out using best estimate non-economic assumptions and market consistent economic assumptions.

Distributable profits are determined by reference to liabilities determined in accordance with the statutory requirements for life insurance companies.

The Company holds 'global reserves' calculated outside of its actuarial models as at the valuation date. Wherever appropriate, the shareholders' interest in the assets backing such global reserves is calculated by assuming a suitable release pattern of such reserves.

TVFOG

The TVFOG reflects the value of the additional cost to shareholders that may arise from the embedded financial options and guarantees attaching to the covered business. The intrinsic value of such options and guarantees is reflected in the PVFP.

A stochastic approach is used to determine the TVFOG using methods and assumptions consistent with the underlying embedded value. The economic assumptions used in determining the TVFOG ensure that the projected cash flows are valued in line with the price of similar cash flows that are traded in the capital markets.

FC

The VIF includes an allowance for the FC of RC for the covered business. These FCs represent investment management expenses and taxation costs associated with holding the RC. The investment costs have been reflected as an explicit deduction from the gross investment return.

CRNHR

The CRNHR is an allowance for risks to shareholder value to the extent that these are not already allowed for in the TVFOG or the PVFP. In particular, the CRNHR makes allowance for:

- asymmetries in the impact of the risks on shareholder value; and

- risks that are not allowed for in the TVFOG or the PVFP (e.g. operational risk).

The CRNHR reflects operational risk, catastrophe mortality/morbidity risk and mass lapsation risk. The CRNHR has been determined using a cost of capital approach. The CRNHR is the present value of a notional cost of capital charge levied on the projected capital in respect of the residual non-hedgeable risks. Allowance has been made for diversification benefits among the non-hedgeable risks, other than operational risk.

3.5 New business and renewals

The VIF includes the value attributable to shareholders considering the expected renewal premiums on the in-force business, including any foreseeable variations in the level of renewal premiums, but excludes any value relating to future new business (i.e. the new business that may be written after the applicable valuation date).

The VNB reflects the additional value to shareholders created through the activity of writing new business over the stated period ending on the valuation date, and includes the value from the expected renewal premiums on that new business.

The new business comprises both individual and group policies sold during the reporting period, including the expected renewal premiums and expected future contractual alterations to those contracts. It also includes the non-contractual single premium payments received during the reporting period. New business for one year renewable group term business and group micro business includes business from new members that have joined an existing scheme or a new scheme during the financial year, and the VNB includes the value arising from the renewal premiums expected from new members. The VNB is calculated in the same way as the VIF, with appropriate allowance for changes in the ANW during the reporting period.

The VNB is determined as at March 31, 2022 and takes into account acquisition commissions and acquisition expenses actually incurred in the full year to March 31, 2022.

3.6 Analysis of movement of EV

A brief description of the various components is provided below

Components	Description
Expected return on existing business	(1) Expected investment income at opening reference rate on VIF and ANW; and (2) Expected excess 'real world' investment return over the opening reference rate on VIF and ANW.
Operating assumption changes	This is the impact of updating of non-economic assumptions both on best estimate and statutory bases, to those adopted in the closing EV.
VNB added during the period	This is as described in section 3.5 above
Operating experience variance	The variance arising from discontinuance and mortality / morbidity is analysed at a policy level, by considering the actual change in the policy status from the opening EV to the closing EV dates. The operating experience variance captures the difference between the actual and expected experience and is calculated in the following order: a. Discontinuance rates b. Mortality / morbidity rates c. Expenses
Economic assumption changes and investment variance	Economic assumption changes reflect the update of the reference rate yield curve, inflation and valuation economic assumptions from opening EV to closing EV. The investment variance is the difference between the actual investment return and the expected 'real world' rates for existing business as at March 31, 2021 and the closing and opening reference rates (the reference rates at the end of each month during which the new business is sold) for new business written during FY2022.
Capital contributions / (dividends paid out)	These are the actual capital infusions / dividends paid out to the shareholders, including the dividend distribution tax incurred (if any) during the period.

3.7 Sensitivities

Sensitivity analyses are carried out for one parameter at a time and do not include changes in other parameters not explicitly mentioned as part of the sensitivity.

The key assumption changes represented by each of the sensitivities and their impact on EV and VNB are provided in section 2.

4 Assumptions

The projections of future shareholder cash flows expected to emerge from covered in-force and new business have been determined using best estimate assumptions. These assumptions (both economic and non-economic) are reviewed annually and have been updated as appropriate.

4.1 Economic assumptions

Investment returns and discount rates used in the calculation of opening and closing EV are based on reference rates at March 31, 2021 and March 31, 2022 respectively. The PVFP before TVFOG is calculated assuming that assets earn, before tax and investment management expenses, the reference rates assumed, and by discounting all cash flows using the reference rates assumed which are gross of tax and investment management expenses. The reference rates are derived from the zero coupon yield curve as published on the Clearing Corporation of India Limited³ website, by adjusting the published yields so that they derive the market value of the Company's government bond portfolio. The reference rates assumed in the calculation of EV are set out below:

Tenor (years)	Reference rate (one year forward rates)	
	March 31, 2021	March 31, 2022
1	3.91%	4.35%
5	7.38%	7.90%
10	7.93%	8.36%
15	7.48%	7.97%
20	7.02%	7.57%
25	6.72%	7.28%
30	6.55%	7.09%

Investment returns and discount rates used in the calculation of VNB are based on the CCIL published yield curves for each month of sale of new business, adjusted so that they derive the then market value of the Company's government bond portfolio.

4.2 Non-economic assumptions

Demographic assumptions

The best estimate assumptions for persistency, mortality and morbidity have been derived based on the Company's own experience. An allowance for future improvements in respect of mortality has been considered for annuities.

Commission and Expense assumptions

The expense assumptions have been derived based on the Company's actual expenses during FY2022 with no anticipation of productivity gains or cost efficiencies. The fixed renewal expenses are inflated from FY2023 onwards using the best estimate inflation rate assumed.

The commission rates under different products are based on the actual commission payable (if any) to the distributors.

³ The CCIL zero coupon sovereign rupee yield curve is available at <https://www.ccilindia.com/RiskManagement/SecuritiesSegment/Pages/ZCYC.aspx>

Tax rates

In determining the EV Results, allowance has been made for future taxation costs expected to be incurred by the Company. This includes both corporate taxes and Goods and Services Tax ("GST").

The taxation costs reflected in the EV Results make an allowance for the fact that the Company is allowed to reduce its taxable income by dividend income earned, subject to a maximum of the dividend declared and distributed⁴.

⁴ Limit of deduction subject to dividend distribution introduced in Finance Act, 2020

Re: Milliman's opinion on the Embedded Value results as at 31 March 2022 ("Opinion")

Dear Members of the Board

Introduction

ICICI Prudential Life Insurance Company Limited ('ICICI Prudential', 'the Company') has prepared embedded value calculations following the methodology and principles set out in the Actuarial Practice Standard 10 (version 1.02) ("APS10") issued by the Institute of Actuaries of India. These calculations consist of the following (together referred to as the "Results"):

- Indian Embedded Value ("IEV") as at 31 March 2022;
- the value of one year of new business ("VNB") for new business sold during the year ending 31 March 2022;
- an analysis of the movement of IEV from 31 March 2021 to 31 March 2022; and
- various sensitivity results on the IEV as at 31 March 2022 and the VNB for business sold during the year ending 31 March 2022.

The Results, along with the methodology and assumptions that have been used to prepare the Results, have been summarized by the Company in the public disclosures ("Disclosures") that accompany this Opinion.

Scope of services

Milliman Advisors LLP ('Milliman', 'we', 'us', 'our') has been engaged by ICICI Prudential Life Insurance Company Limited ('ICICI Prudential', 'the Company') to carry out a review and certification of the Results. Our scope of work includes the following:

- a review of the methodology and assumptions used by the Company in developing the Results for compliance with the relevant principles set out in APS10;
- a review of the Company's actuarial models (covering the calculation of IEV, VNB, analysis of movement and sensitivity results) used to develop the Results for a selection of model points

covering the more material products comprising the value of in-force business ("VIF") and VNB; and

- a detailed review of the aggregation templates used by the Company to develop the Results, which also included a review of the process used to conduct the analysis of movement of IEV and various sensitivity analyses.

Opinion

Based on the work carried out and subject to the reliances and limitations mentioned below, I am of the opinion that the Results have been developed in all material respects in accordance with the methodology and principles set out in APS10. In particular:

- the methodology used to develop the Results is reasonable and in line with APS10;
- the assumptions (economic and non-economic) used to develop the Results have been developed substantially in line with the requirements of APS10, using the Company's operating experience (for non-economic assumptions), and are reasonable;
- the Results have been prepared materially in accordance with the methodology and assumptions described in the Disclosures, and with the accounting information presented in the financial statements;
- the Results have been prepared materially in accordance with the requirements of APS10.

Reliances and Limitations

This opinion has been prepared solely for use by ICICI Prudential for inclusion in the Disclosures for the year ending 31 March 2022. It should not be relied upon for any other purpose. Milliman does not intend to create a legal duty to any third party recipient of its work.

We have relied on information supplied by the management and staff of ICICI Prudential. Reliance was placed on, but not limited to, the general accuracy of all the information provided to us.

We have obtained a management representation letter from ICICI Prudential, stating that, to the best of ICICI Prudential's knowledge, the data and information provided to us is accurate and complete and that there are no material inaccuracies or omissions therein.

An actuarial assessment of the components of value of a life insurance company will not necessarily be consistent with the value of a life insurance company or a portfolio in the open market and should not be interpreted in that manner.

The Results are based on a series of assumptions as to future operating experience. It should be recognised that actual experience will differ from these assumptions on account of changes in the operating and economic environment and natural variations in experience. To the extent that actual experience is different from the assumptions, the future projected profits from which the Results are derived will also differ. The Disclosures include various sensitivity results to illustrate how vulnerable the IEV and VNB results are to changes in assumptions for the key risks. The Results shown are presented at the valuation dates stated and no warranty is given by Milliman that future experience after these valuation dates will be in line with the assumptions made.

Milliman is not a tax expert and is not able to provide tax or accounting advice. Accordingly, it is acknowledged that no reliance will be placed on Milliman, its Partners, or employees with respect to any tax or accounting issue. The allowance for taxation reflected in the Results is based on the Company's interpretation of applicable tax regulations. The Results do not reflect any allowance for

withholding or other taxes (if any) that may apply to the payment of future shareholder dividends or on remittances out of India.

The Results have been determined on a going concern basis, and assume a stable economic, legal and regulatory environment going forward. Any change in the general operating environment would add a high degree of uncertainty to the Results. There is continuing uncertainty regarding the longer-term impact of COVID-19 on the economic, legal, and regulatory environment, and the level and nature of business activity, which could materially impact the Results.

Unless explicitly stated, the Results do not consider any external (including regulatory) developments after the valuation date of 31 March 2022.

Yours faithfully,

Richard Holloway FIAI
Partner
