**5.5 Portfolio Strategies:** You have the option to choose from the following portfolio strategies:

- i. Trigger Portfolio Strategy**
- ii. Fixed Portfolio Strategy**

**i. Trigger Portfolio Strategy:** Under this strategy, your investments will initially be distributed between two Funds - Pension Multi Cap Growth Fund, an equity oriented Fund, and Pension Income Fund, a debt oriented Fund - in a 75:25 proportion. This allocation may subsequently change on account of market movements. We will re-balance the Funds in the portfolio on the occurrence of the trigger event. Working of the strategy: **a.** A trigger event is defined as a 15% upward or downward movement in NAV of Pension Multi Cap Growth Fund, since the previous rebalancing. For determining the first trigger event, the movement of 15% in NAV of Pension Multi Cap Growth Fund will be measured vis-à-vis the NAV at the inception of your Policy. **b.** On the occurrence of the trigger event, any value of units in Pension Multi Cap Growth Fund which is in excess of three times the value of units in Pension Income Fund is considered as gains and is transferred to the liquid Fund - Pension Money Market Fund - by redemption of appropriate units from Pension Multi Cap Growth Fund. This ensures that such gains are capitalized and protected from future equity market fluctuations, while maintaining the asset allocation between Pension Multi Cap Growth Fund and Pension Income Fund in the proportion of 75:25. **c.** In case there are no such gains to be capitalized, Units in Pension Multi Cap Growth Fund and Pension Income Fund are redistributed in the proportion of 75:25 without any transfer to or from Pension Money Market Fund.

**ii. Fixed Portfolio Strategy:** Under this option, you have the option to choose among the Funds as outlined in Clause 4. You shall specify the Fund(s) and the proportion in which the premiums and any existing Fund Value are to be invested in the chosen Fund(s) at the inception of the Policy or at the time of change to the Fixed Portfolio Strategy from the Trigger Portfolio Strategy, as the case may be.

**5.8 Change in Portfolio Strategy (CIPS):** You have the flexibility to change your portfolio between the Trigger Portfolio Strategy and Fixed Portfolio Strategy. This option to change between Fixed and Trigger Portfolio Strategy can be exercised only once every policy year. This facility will be provided free of cost. This facility can also be availed during the postponement period. On moving from Trigger Portfolio Strategy to Fixed Portfolio Strategy, you must specify the proportions among the choice of eight funds available in which your existing funds and future premium should be invested. At any point of time the entire investment under the policy can be only in invested only in one portfolio strategy.

**5.7 Automatic Transfer Strategy:** **a.** This option is available only with Fixed Portfolio Strategy. **b.** You will have an

option to choose an automatic monthly transfer of a pre-defined amount from your investments in the Pension Money Market Fund, into any one of the equity Funds available under the plan (namely Pension Bluechip Fund, Pension Multi Cap Growth Fund or Pension Opportunities Fund). You may opt for a transfer date of either 1st or 15th of every month. If the 1st or 15th of the month is a non-valuation date then the next working day's NAV will be applicable. If you have not specified the transfer date, then the transfer will occur on the 1st of the month. **c.** At the time of transfer, the required number of units will be redeemed from Pension Money Market Fund, at the applicable unit value and new units will be allocated in the chosen destination fund. The minimum transfer amount is Rs. 2,000. This value is subject to change from time to time as per the rules of the Company and is subject to prior approval of IRDA. **d.** The Automatic Transfer Strategy will be regularly processed till you notify us to discontinue the same through a written communication. In case you do not consent to the change, you shall be allowed to withdraw the Units in the Funds at the then prevailing NAV and terminate the Policy. **iii.** We may, in the general interest of the holders of unit linked policies and keeping in view unforeseen circumstances or unusual market conditions, limit the total number of Units withdrawn on any day to 5% of the total number of Units then outstanding. **iv.** In exceptional circumstances such as unusually high volume of sale of investments within a short period, exceptional redemption, market conditions or political or economic force majeure, we may, at our discretion and subject to prior approval from IRDA, defer the partial withdrawal of Units and the Surrender of the Policy for a period not exceeding one month from the date of receipt of application.
