The payment of instalments will be made in advance. **vi.** The available number of Units under the policy shall be divided by the residual number of instalments to arrive at number of Units for each instalment. Further, in case of investment in more than one Fund, the number of Units to be withdrawn shall be in the same proportion as the Units held at the time of payment of each instalment. The value of payments will depend on the number of Units and the respective Fund NAV as on the date of each payment. **vii.** No Partial withdrawals, switches, premium payments and Change in Portfolio Strategy (CIPS) will be allowed during this period. **viii.** The remaining Fund Value shall become payable in the event of death of the recipient of the Maturity benefit during the Settlement period. The policy shall terminate on this payment. **ix.** The recipient of the Maturity benefit has an option to take the remaining Fund Value as a lumpsum payment any time during the settlement period. The policy shall terminate upon this payment.

7.12 Increase or Decrease in Premium: No increase or decrease in premium is allowed under this policy.

8. Portfolio Strategies: At the outset, a choice of three asset allocation strategies is available to the Policyholders, viz. a LifeCycle based Portfolio Strategy, a Trigger Portfolio Strategy and a Fixed Portfolio Strategy. You may opt into or out of a Portfolio Strategy during the policy term.

8.1 LifeCycle based Portfolio Strategy: **i.** Under this strategy, investment will be made in the funds "Multi Cap Growth Fund" and "Income Fund" in the proportion shown in the below Table according to the age of the Policyholder at the inception of the policy. **ii.** Further on a quarterly basis, units shall be rebalanced as necessary to achieve the

stated proportion of the Fund Value in the "Multi Cap Growth Fund" and "Income Fund" as stated in the below Table. The re-balancing of units shall be done on the last day of each policy quarter. The below stated investment proportions shall apply until the last ten quarters of the policy are remaining.

Age of the Policyholder (in years) at the time of policy inception or on quarterly policy anniversary as the case may be	Equity Component in the Policyholder's portfolio as represented by Multi Cap Growth Fund	Debt Component in the Policyholder's portfolio as represented by Income Fund
0 – 25	85%	15%
26 – 35	75%	25%
36 – 45	65%	35%
46 – 55	55%	45%
56 – 65	45%	55%
66 – 75	35%	65%

iii. During the last ten quarters of the policy term, the investment proportion in the "Multi Cap Growth Fund" shall be systematically reduced as per the Policyholder's prevailing age as stated in the below Table by automatic Switching to the "Income Fund". The units under the "Multi Cap Growth Fund" shall be moved to "Income Fund" on the last day of the quarter to achieve 100% of investment in "Income Fund" in the last quarter of the policy term.

Policyholder Age (Last birthday)	Multi Cap Growth Fund	Exposure in the Last Ten Quarters prior to Maturity										
		From	To	10	9	8	7	6	5	4	3	2

iv. The Policyholder does not have the flexibility to alter the above stated proportions of Multi Cap Growth Fund and Income Fund. v. If the last day of the quarter is not a valuation date then the Company shall apply the NAV of the next immediate Valuation Date. vi. The quarter means the quarterly anniversary of the policy with reference to risk commencement date of this policy. vii. Partial withdrawals may result in the proportion of funds in the Multi Cap Growth and Income Fund to differ from the LifeCycle schedule mentioned earlier. This will be rebalanced by automatic switching of units at the next Policy quarterly anniversary if the LifeCycle based Portfolio Strategy has been opted for.

8.2 Trigger Portfolio Strategy: i. Under this strategy, the Policyholder's investments will initially be distributed between two funds - Multi Cap Growth Fund, an equity oriented fund, and Income Fund, a debt oriented fund - in a 75%:25% proportion. Subsequent premiums will be allocated between the two funds in the same proportion. This allocation may subsequently change on account of market movements. The portfolio will be rebalanced on the occurrence of a trigger event. ii. A trigger event is defined as a 15% upward or downward movement in NAV of Multi Cap Growth Fund since the previous rebalancing. For determining the first trigger event, the movement of 15% in NAV of Multi Cap Growth Fund will be measured vis-à-vis the NAV on the date of allocation of units at inception as the reference. iii. On the occurrence of the trigger event, any value of units in Multi Cap Growth Fund which is in excess of three times the value of units in Income Fund is considered as gains and is transferred to the liquid fund - Money Market Fund - by redemption of appropriate units from Multi Cap Growth Fund. iv. In case there are no such gains to be capitalized, units in Multi Cap Growth Fund and Income Fund are redistributed in a 75%:25% proportion without any transfer to or from Money Market Fund.

8.3 Fixed Portfolio Strategy: The Policyholders may choose to invest their money in any of the funds offered and in proportions of their choice. These funds have been described in clause 6.

8.4 Change in Portfolio Strategy (CIPS): a) You have the flexibility to shift your portfolio between the Trigger Portfolio Strategy, Fixed Portfolio Strategy and LifeCycle based strategy. b) This option can be exercised only once every policy year and there shall be no charge for the same. c) On moving to the Trigger Portfolio Strategy, the existing Policyholder's funds as well as future premiums will be allocated between Multi Cap Growth Fund and Income Fund as per the Trigger schedule mentioned earlier in Clause 8.2. However, if the Policyholder has any monies in RGF he has an option to retain his monies in RGF. d) On moving to Fixed Portfolio Strategy, you must specify the proportions among the choice of eight funds available in which your existing funds and future premiums should be invested in as per Clause 8.3. e) On moving to the LifeCycle based Portfolio Strategy, the existing Policyholder's funds as well as all future premiums will be allocated between Multi Cap Growth Fund and Income Fund as per the LifeCycle schedule described in Clause 8.1. However, if the Policyholder has any monies in RGF he has an option to retain his monies in RGF. f) The Policyholder may have his funds in only one of the Portfolio strategies. However, if the Policyholder has any monies in Return Guarantee Fund (RGF) under Fixed Portfolio Strategy, he has an option to invest his subsequent premiums and monies invested in other funds, if any, in the Trigger or LifeCycle based Portfolio Strategy. The Policyholder will also have the option to retain his monies in RGF if he chooses to move out of the Fixed Portfolio strategy.

In exceptional circumstances such as unusually high volume of sale of investments within a short period, exceptional redemption, market conditions or political or economic force majeure, we may, at our sole discretion, defer the partial withdrawal of Units and the surrender of the policy for a period not exceeding one month from the date of receipt of application. iii. If the performance by the Company of any of its obligations herein shall be in any way prevented or hindered in consequence of any act of God or State, strike, lock out, Legislation or restriction of any Government or other authority or on account of market conditions or political or economic "Force Majeure" conditions, the performance of this contract shall be wholly or partially suspended during the continuance of the contract. iv. In case you have not provided proof of age of the Life Assured with the proposal, you shall furnish such proof of age of the Life Assured as is acceptable to us and have the age admitted. ii. In the event the age so admitted (the "Correct Age") during the policy term is found to be different from the age declared in the proposal, without prejudice to our rights and remedies including those under the Insurance Act, 1938, we shall take one of the following actions: a. If the correct age of the Life Assured makes him ineligible for this product, we shall offer a suitable plan as per our underwriting norms. If you do not wish to opt for altered plan or if it is not possible for us to grant an altered plan, the policy shall stand cancelled from the date of issuance and the Fund Value less premium discontinuance charge shall be returned and the policy shall terminate thereafter. b. If the correct age of the Life Assured make him eligible for this Policy, the revised mortality charges as per the correct age will be recovered from the next Policy anniversary date. Any change of nomination, which may be effected before the termination of the policy shall also be communicated to the Company. Section 39 of the Insurance Act, 1938 may be referred to for the complete provision.
