Benefits in Detail

This plan provides you with the potential to grow your savings with market linked returns along with an adequate life insurance cover to protect the financial goals of your loved ones.

Maturity Benefit:

As you pay your due premiums, the premiums grow at a rate (based on the performance of the fund(s)) when allocated in your choice of fund(s).

Upon policy maturity, provided the policy has not already terminated, you will receive the following:

Fund Value, including top-up Fund Value, if any.

On payment of Maturity Benefit, the policy will terminate and all rights, benefits and interests under the policy will be extinguished.

Illustrative example: Mr. Aditya, a 35-year-old banker, wants to save in a plan that can potentially provide high returns for a sufficient corpus for his long-term financial needs. He wants to invest ₹ 15,000 monthly under Growth Plus plan option.

ICICI Pru Platinum provides the perfect solution for his needs.

Aditya decides to stay invested for a long-term to enjoy the benefits of compounding and chooses a 40-year policy term. During this term, he shall will be paying ₹ 15,000 monthly for 10 years, i.e. a total of ₹ 18 Lacs.

On Aditya's survival till policy maturity, provided he has paid all due premiums, he will get a lump sum corpus as the Maturity Benefit (i.e. Fund Value), as given in the table below:

Since the fund value depends on the performance of the fund, we have assumed that 100% of the premiums are paid in Maximiser V.

Assumed investment returns	8% p.a.	4% p.a.
Fund Value at Maturity (in ₹)	1,46,75,757 (₹ 1.47 Crore)	35,60,530 (₹ 35.6 Lacs)

The returns shown above i.e. at 4% p.a. and 8% p.a. are not guaranteed and they are not the upper or lower limits of what Mr. Aditya might get back, as the fund value depends on a number of factors including future investment performance. The above-mentioned returns are for illustrative purposes.

Aditya will also have a minimum life cover (Sum Assured) of ₹ 27 Lacs under this policy, during the entire Policy Term.

Aditya will have an option to receive the maturity benefit i.e. the Fund Value in the form of regular income for a period of one to five years instead of a one-time lump sum. Please refer to Clause 3, Settlement Option under Additional flexibilities for more details.

Death Benefit:

If the person whose life is covered by this policy (known as the Life Assured) passes away during the policy term, the insurance cover amount will be paid out as a lump sum to the Claimant, provided the policy is in-force and the monies are not in the Discontinued Policy Fund (DP Fund). Death Benefit payable will depend upon the plan option chosen.

Under Growth Plus option, Death Benefit will be highest of:

- Sum Assured, including top-up sum assured, if any
- Fund Value of this policy, including top-up fund value, if any
- Minimum Death Benefit

Under Protect Plus option, Death Benefit will be highest of:

- Sum Assured, including top-up sum assured, if any + Fund Value of this policy, including top-up fund value, if any
- Minimum Death Benefit

Sum Assured multiples can be chosen as follows:

Plan Option	Age	Sum Assured multiples
Fund Value at Maturity (in ₹)	0 to 40 years	10, 15
	41 to 45 years	10, 12.5
	46 to 60 years	10
Protect Plus	All ages	10
Top-ups		
	All ages	1.25, 10

As you avail the facility of Top-up, your Sum Assured correspondingly increases by a Top-up Sum Assured.

Annualised Premium is the premium amount payable in a policy year excluding the taxes, rider premiums and underwriting extra premium on riders, if any.

Minimum Death Benefit will be 105% of the total premiums paid including Top-up premiums, if any, received up to the date of death.

On death of the life assured, during the policy term, while the monies are in Discontinued Policy Fund, Death Benefit will be the proceeds of the Discontinued Policy Fund applicable to your policy.

On payment of Death Benefit, the policy will terminate and all rights, benefits and interests under the policy will be extinguished.

Choice of portfolio strategies

You can choose from four portfolio strategies to save your money as per your risk appetite. These are given below:

a) Fixed Portfolio Strategy

This strategy enables you to manage your savings actively. Under this strategy, you may choose to save your monies in any of the fund options in proportions of your choice. You can switch monies amongst these funds using the switch option.

Facilities available under Fixed Portfolio Strategy

Automatic Transfer Strategy	You have the option to select Automatic Transfer Strategy (ATS). To protect your savings against market uncertainties, you can save all or part of your savings in one or more debt/ equity fund(s) and transfer a fixed amount regularly to one or more equity/ debt fund(s).
Unlimited free switches between funds	Under this facility, you can switch units from one fund to another depending on your financial priorities and savings outlook as many times as you want. This benefit is available to you without any charge. The minimum switch amount is ₹ 2,000. Switches are not available under other portfolio strategies.
Premium Redirection	At policy inception, you specify the funds and the proportion in which the premiums are to be saved in the funds. At the time of payment of subsequent premiums, depending on your market outlook, you may change the split in which the premiums are to be saved in the funds, without any charge. This will not count as a switch. This feature is applicable only if your monies are not in Discontinued Policy Fund.

b) Target Asset Allocation Strategy

This strategy enables you to choose an asset allocation that is best suited to your risk appetite and maintains it throughout the policy term.

You can allocate your premiums between any two funds available with this policy, in the proportion of your choice. Your portfolio will be rebalanced every quarter to ensure that this asset allocation is maintained.

c) Trigger Portfolio Strategy 2

This strategy enables you to take advantage of substantial equity market swings.

Under this strategy, your savings will initially be distributed between two funds Multi Cap Growth Fund, an equity-oriented fund, and Income Fund, a debt-oriented fund in a 75%: 25% proportion. The fund allocation may subsequently get altered due to market movements. We will re-balance funds in the portfolio based on a trigger event.

d) Lifecycle based Portfolio Strategy 2

Your financial needs are not static and keep changing with your life stage. It is, therefore, necessary that your policy adapts to your changing needs. This need is fulfilled by the Lifecycle based Portfolio Strategy 2.

At Policy inception, your savings are distributed between two funds, Multi Cap Growth Fund and Income Fund, based on your age. As you move from one age band to another, your funds are re-distributed based on your age.

Change in Portfolio Strategy (CIPS)

You can change your portfolio strategy up to four times in a policy year provided the monies are not in Discontinued Policy Fund. This facility is provided free of cost. Any unutilised Change in Portfolio Strategy cannot be carried forward to the next policy year.

On moving to the Life Cycle based Portfolio Strategy 2 or Trigger Portfolio Strategy 2, the existing funds as well as all future premiums will be allocated between Multi Cap Growth Fund and Income Fund as per the Strategy details mentioned earlier.

On moving to the Target Asset Allocation Strategy or Fixed Portfolio Strategy, you must specify the proportions amongst the choice of funds available in which the existing funds and future premium should be saved.

Settlement Option

You have an option to receive the Maturity Benefit as a structured payout/in the form of an income stream over a period of up to 5 years after maturity, using Settlement Option. This option has to be chosen before maturity.

- The first payout of the settlement option will be made to the Claimant on the date of maturity.
- The available number of units under the Policy shall be divided by the residual number of instalments to arrive at a number of units for each instalment. This means that the same number of units will be paid out at each instalment date. Further, in case of savings in more than one Fund, the number of units to be withdrawn shall be in the same proportion of the units held at the time of payment of each instalment. The value of the payments will depend on the number of units and the respective fund NAVs on the date of each payment.
- Only the Fund Management Charge and mortality charge, if any, would be levied during the settlement period.
- You may avail facility of switches as per the terms and conditions of the policy. Partial withdrawals and Change in Portfolio Strategy are not allowed during the settlement period.

On payment of Death Benefit, the policy will terminate and all rights, benefits and interests under the policy will be extinguished.

- At any time during the settlement period, you/Claimant will have the option to withdraw the entire Fund Value. No charges will be deducted if you exercise this option.
- On payment of last instalment of the settlement option, the policy will terminate and all rights, benefits and interests under the policy will be extinguished.
- During the settlement period, the investment risk in the investment portfolio is borne by you/the Claimant.
- During the settlement period, if the fund value becomes nil, the policy will terminate and no benefits will be payable.

To boost your sum assured and fund value, you can pay any surplus money as Top-up premiums, over and above the base premium(s), into the policy, subject to underwriting.

- Top-up premiums can be paid any time except during the last five years of the policy term, subject to underwriting, as long as all due premiums have been paid.
- The minimum Top-up premium is ₹500.

- Your Top-Up Sum Assured will vary depending on your age during the time of Top-up.
- Top-up premiums once paid cannot be withdrawn from the fund for a period of 5 years from the date of payment of the 'Top-up' premium, except in case of complete surrender of the policy.
- At any point during the policy term, the total Top-up premiums paid cannot exceed the total premiums paid (excluding the top-up premiums paid, if any) till that point of time.
- There is no limit on number of top-ups allowed under the product.

Partial Withdrawal Benefit

This facility is designed to help you provide liquidity so that any immediate financial needs can be met. You can avail this any time after the completion of lock-in period (i.e first five policy years), provided the monies are not in the Discontinued Policy (DP) fund. You can make partial withdrawals from your Fund Value as long as the total amount of partial withdrawals in a year does not exceed 20% of the Fund Value in a policy year and all due premiums till the date of withdrawal have been paid. The partial withdrawals are free of cost.

You can withdraw a minimum amount of Rs. 2,000 on each withdrawal.

You can continue with partial withdrawals till the Fund Value reaches two times the annualized premium. Partial withdrawals which would result in termination of the Policy shall not be allowed.

Please refer Clause 6 under Terms and Conditions for more information.

Systematic Withdrawal Plan (SWP)

Under Partial Withdrawal facility, you may opt for Systematic Withdrawal Plan for your supplementary income needs. Under this, you get the facility to withdraw a pre-determined percentage of your fund value or a pre-determined amount from your Fund Value regularly. This can help you to meet specific needs such as child's education or money for monthly health related/retirement expenses.

For example, if you choose 6% of the fund value to be withdrawn yearly, then an amount equal to 6% of the fund value would be paid on the chosen date every year. You can also choose to systematically withdraw a fixed amount, let's say Rs 5,000, monthly from your fund value and the same will be paid to you on the chosen date every year.

The following conditions are applicable for Systematic Withdrawal Plan:

- Systematic Withdrawal Plan is allowed only after the first five policy years.
- The payouts may be taken monthly, quarterly, half-yearly or yearly, on a specified date and are payable in advance.
- The first payout is made on the withdrawal start date specified by you.
- Withdrawals will be made first from Top-up Fund Value, if any, which has completed the lock in period and then from the Fund Value built up from the base premium(s).
- This facility can be opted for at policy inception or anytime during the policy term. You may modify or opt-out of the facility by notifying us.
- All conditions applicable for partial withdrawals such as minimum and maximum withdrawal amount, age, etc. will be applicable for Systematic Withdrawal Plan as well.

Both SWP and partial withdrawals can be availed simultaneously.

Change in premium payment frequency

Change in premium payment frequency is allowed during the Premium payment term but shall be effective only on policy anniversary. Such change is allowed subject to adherence of all limits prescribed in 'ICICI Pru Platinum at a glance' section.

What makes ICICI Pru Platinum a cost-effective ULIP for you?

For you to get the best value on your savings, we have introduced a cost-effective structure by keeping policy charges to a minimum. We do not levy any Premium Allocation Charges which allows us to allocate the entire premium in the fund of your choice.

Benefits of savings for the long term

By staying in the policy for the long term, you can expect lower reduction in yield, ensuring better returns.

Reduction in yield is the difference between gross yield and net yield, where gross yield is the investment return generated by your fund. Net yield is calculated after deduction of charges (excluding mortality charges and taxes). The lower the reduction in yield, the better it is for the growth of your fund.

The table below shows the Reduction in Yield (RIY) at 8% investment return (gross yield) for a 35-year-old customer, choosing Growth Plus plan option, premium paying term of 10 years, policy term of 40 years, Sum Assured of 10 lakhs, with 100% of investment in Maximiser V fund.

At the end of year	RIY stipulated by IRDAI [#]	RIY in ICICI Pru Platinum (Annual premium: ₹1,00,000)

20	2.25%	1.65%
30	2.25%	1.57%
40	2.25%	1.52%

There would be no additional charges for Automatic Transfer Strategy (ATS). It is not compulsory for you to select the Automatic Transfer Strategy. The following conditions apply to Automatic Transfer Strategy (ATS).

- This automatic transfer will be done in either weekly, fortnightly or monthly equal instalments, as per chosen frequency.

Once selected, Automatic Transfer Strategy (ATS) will be renewed and would be regularly processed for the entire term of the policy or until the Company is notified, through a written communication, to discontinue the same. The Automatic Transfer Strategy will not be applicable if the source Fund Value is less than the amount nominated for transfer.

b

Target Asset Allocation Strategy

This strategy enables you to choose an asset allocation that is best suited to your risk appetite and maintains it throughout the policy term.

You can allocate your premiums between any two funds available with this policy, in the proportion of your choice. Your portfolio will be rebalanced every quarter to ensure that this asset allocation is maintained.

The re-balancing of units shall be done on the last day of each Policy quarter. If the last day of the quarter is a non-working day, then the next working day's NAV (i.e. the price per unit of the Fund) will be applicable.

C

Trigger Portfolio Strategy 2

Under this strategy, your savings will initially be distributed between two funds Multi Cap Growth Fund, an equity-oriented fund, and Income Fund, a debt oriented fund in a 75%: 25% proportion. The fund allocation may subsequently get altered due to market movements. We will re-balance funds in the portfolio based on a trigger event.

Working of the strategy:

- The trigger event is defined as a 10% upward or downward movement in NAV of Multi Cap Growth Fund, since the previous rebalancing. For determining the first trigger event, the movement of 10% in NAV of Multi Cap Growth Fund (details on fund options available under the product are available in the “Choice of Funds” above) will be measured vis-à-vis the NAV at the inception of your strategy.
- On the occurrence of the trigger event, any fund value in Multi Cap Growth Fund which is in excess of three times the Income Fund, fund value is considered as gains and is transferred to the liquid fund - Money Market Fund by cancellation of appropriate units from the Multi Cap Growth Fund. This ensures that gains are capitalised, while maintaining the asset allocation between Multi Cap Growth Fund and Income Fund at 75%:25%
- In case there are no gains to be capitalised, funds in Multi Cap Growth Fund, Income Fund and Money Market Fund are redistributed in Multi Cap Growth Fund and Income Fund in 75:25 proportion.

d

Lifecycle based Portfolio Strategy 2

Key features of this strategy

- **Age based portfolio management**

At Policy inception, your savings are distributed between two funds, Multi Cap Growth Fund and Income Fund, based on your age. As you move from one age band to another, your funds are re-distributed based on your age. The age wise portfolio distribution is shown in the table.

Asset allocation details at Policy inception and during the Policy term

Age of Life Assured (years)	Multi Cap Growth Fund	Income Fund
Up to 25	80%	20%
26 – 35	75%	25%
36 – 45	65%	35%
46 – 55	55%	45%
56 – 65	45%	55%
66 +	35%	65%

- **Quarterly rebalancing**

On a quarterly basis, units shall be rebalanced as necessary to achieve the above proportions of the Fund Value in the Multi Cap Growth Fund and Income Fund. The re-balancing of units shall be done on the last day of each Policy quarter. The above proportions shall apply until the last ten quarters of the Policy are remaining.

- **Safety as you approach maturity**

As your Policy nears its maturity date, you need to ensure that short-term market volatility does not affect your accumulated savings. In order to achieve this, your savings in Multi Cap Growth Fund will be systematically transferred to Income Fund in ten instalments in the last ten quarters of your Policy.

Non Forfeiture Benefits:

1

It is recommended that you continue with your policy to avail all benefits.

Upon expiry of the grace period, in case of discontinuance of policy due to non-payment of premium after the first five policy years, the policy will be converted into a reduced paid-up policy with paid-up sum assured. The policy shall continue to be in reduced paid-up status without rider cover, if any.

Reduced paid-up Sum Assured = Original Sum Assured X (Total number of premiums paid till the date of discontinuance / Original number of premiums payable as per applicable terms and conditions of the policy)

All charges as per terms and conditions of the policy shall be deducted during the revival period. However, the mortality charges shall be deducted based on the reduced paid up sum assured only.

We will communicate the status of the policy to you within three months of first unpaid premium providing you the following options to exercise:

1. Revive the policy within the revival period of three years
2. Complete withdrawal of the policy

If you choose option 1 and do not revive the policy during the revival period or maturity, whichever is earlier, the Fund Value, including the Top-up Fund Value, if any, will be paid to you at the end of the revival period or maturity, whichever is earlier, and the policy shall terminate and all rights, benefits and interests will stand extinguished.

If you choose option 2, the policy will be surrendered and the Fund Value, including the Top-up Fund Value, if any, will be paid to you. On payment of surrender value, the policy shall terminate and all rights, benefits and interests will stand extinguished.

If you do not choose any of these options, the policy shall continue to be in reduced paid up status. At the end of the revival period or maturity, whichever is earlier, the Fund Value, including the Top-up Fund Value, if any, shall be paid to you and the policy shall terminate and all rights, benefits and interests will stand extinguished.
