Benefits in detail

This policy comes with 4 different options. Read on to understand the benefits under each of these options:

Plan Option 1: Income

Under this plan option,

- You pay premiums for a certain period of time (known as the premium payment term) and
- One year after the completion of premium payment term, you get Guaranteed~ Income at the end of every month/year for a certain period (known as the Income Period)
- In case of death of the person whose life is covered by this policy during the Income Period, Death Benefit (detailed below) gets paid and the policy terminates.

You can choose the premium payment term and the Income Period as per the table below:

You can choose to pay premiums for	You can choose to get Guaranteed~ Income for	You get Guaranteed~ Income from
7 years	15 or 20 or 25 or 30 years	End of 9 th year (for example, if your last premium is paid on Jan 15, 2028, your Guaranteed~ Income will start from Jan 15, 2031)
10 years		End of 12 th year (for example, if your last premium is paid on Jan 15, 2031, your Guaranteed~ Income will start from Jan 15, 2034)

Table-1

In the above examples the frequency of premium payment and Guaranteed~ Income is annual.

Guaranteed~ Income benefit (Survival Benefit):

Once you pay all your premiums, depending on the premium payment term and the Income Period selected by you, you will receive a Guaranteed~ Income upon survival on the date of each income payment. To understand this benefit in greater detail, let us take an example.

~Guaranteed benefits are payable subject to all due premiums being paid.

Illustration:

Smita is a 35 year old, paying an annual premium of ₹ 1 lakh in ICICI Pru Guaranteed Income For Tomorrow (Long-term). She wants to create an a second income for herself so that she can retire early.

The table below shows the Guaranteed~ Income that Smita will receive, for different combinations of premium payment term and Income Period.

Pay for	Income Period			
	15 years	20 years	25 years	30 years
7 years	₹88,877	₹74,502	₹66,267	₹61,850
10 years	₹1,42,002	₹1,20,087	₹1,08,945	₹1,00,911

Smita pays ₹1,00,000 p.a. for 10 years She gets a Guaranteed~ Income of ₹1,00,911 every year for 30 years

Smita pays a total of ₹10,00,000[^]

Smita gets a total of ₹30,27,330

[^]Goods and Services tax and cesses (if any) will be charged extra, as per applicable rates.

In this example, Smita receives Guaranteed~ Income on an annual basis which is equal to ₹ 1,00,911.

~Guaranteed benefits are payable subject to all due premiums being paid.

Smita also has the flexibility to receive this Guaranteed Income on a monthly basis.

If she chooses to receive this income every month, the amount will be multiplied by 98%. In this case, the Guaranteed Income will be ₹ 98,893 for the whole year. She will receive $98,893/12 = ₹ 8,241$ every month for 30 years starting from Feb 15, 2033.

Save the Date: As we all want to save for the non-negotiable goals in life, we also want to ensure that our savings are used for the intended cause. For the same, we also let you choose any date like your spouse's birthdate or your anniversary date or any special date of your choice to receive the Guaranteed Income if you have opted to take Guaranteed Income on an annual basis. Please refer to Clause 6 & 7 under Terms & Conditions.

Death Benefit:

If the person whose life is covered by this policy (known as the Life Assured) passes away, during the term of the policy, the insurance cover amount will be paid out as a lump sum to the person specified (known as the Claimant) in the policy.

Death Benefit is highest of:

- a. 10 X Annualized Premium
- b. 105% of Total Premiums Paid up to the date of death
- c. Annual Guaranteed Income X Death Benefit factor for Guaranteed Income

Where,

- Annualized Premium means the premium amount payable in a year chosen by the policyholder, excluding the taxes, rider premiums, underwriting extra premiums and loadings for modal premiums, if any.
- Total Premiums Paid means the total of all premiums received, excluding any extra premium, any rider premium and taxes.

Death Benefit factors, applicable at the inception of the policy, are guaranteed throughout the policy term and do not change for existing business.

The Death Benefit factors are derived such that there is a smooth progression of Death Benefit towards Maturity Benefit. Any change in Death Benefit factors will be subject to prior approval from IRDAI.

On payment of Death Benefit to the claimant, the policy will terminate and all rights, benefits and interests under the policy will stand extinguished.

For policies issued on minor's life, the date of commencement of risk will be the date of commencement of the policy.

~Guaranteed benefits are payable subject to all due premiums being paid.

What happens if you stop paying your premiums?

It is recommended that you pay all premiums for the period selected to be able to enjoy all policy benefits. However, at any stage if you stop paying premiums the following shall be applicable:

- If you stop paying premiums in the first two years, no benefits will be payable.
- If you stop paying premiums after you have completed payment of premiums for first two full years, the policy can continue with reduced benefits.
- All reduced benefits will be calculated by multiplying the original benefits as specified in “Benefits in detail” section to the extent of the proportion of premiums paid to the total number of premiums payable (number of premiums paid/number of premiums payable).

The paid-up benefits will be calculated as follows:

Paid-Up Death Benefit under Income / Assured Income plan option is higher of

- Paid-Up Sum Assured on Death
- Paid-up annual GI X Death Benefit factor for GI

Paid-Up Death Benefit under Income with 110% ROP / Assured Income with 110% ROP plan option is higher of

- Paid-Up Sum Assured on Death
- Paid-up annual GI X Death Benefit factor for GI + Paid-up Terminal Benefit X Death Benefit factor for Terminal Benefit

$\text{Paid-up Sum Assured on Death} = \text{Sum Assured on Death} \times \left\{ \frac{\text{number of months for which premiums are paid}}{12 \times \text{Premium Payment Term}} \right\}$

$\text{Paid-up GI} = \text{Annual GI} \times \left\{ \frac{\text{number of months for which premiums are paid}}{12 \times \text{Premium Payment Term}} \right\}$

$\text{Paid-up Terminal Benefit} = \text{Terminal Benefit} \times \left\{ \frac{\text{number of months for which premiums are paid}}{12 \times \text{Premium Payment Term}} \right\}$

Where, Sum Assured on Death is equal to 10 X Annualized Premium.

Under Assured Income and Assured Income with 110% ROP plan options, you/ Claimant, as applicable, shall have an option to receive the discounted value of future paid-up GI and paid-up Terminal Benefit, if applicable, in the form of a lump sum benefit. Please refer to Clause 13 under Terms & Conditions.

Policy Revival

You can revive your policy benefits for their full value within five years from the due date of the first unpaid premium by paying all due premiums together with interest before the termination date of the policy.

Revival will be based on prevailing Board Approved Underwriting Policy. Revival interest rate will be equal to 1.50% plus the prevailing yield on 10 year Government Securities. The yield on 10 year Government Securities will be sourced from www.bloomberg.com. The revival interest rate for March 2024 is 8.54% p.a. compounded half-yearly. The revival interest rate will be reviewed on the 15th day of every month by the company based on the 10-year G-Sec yield of one day prior to such review.

Any change in revival conditions will be subject to prior approval from IRDAI and will be disclosed to policyholders.

Once you start paying premiums again, the reduced benefits will be restored to their full value.

Surrender Benefit

It is recommended that you continue with your policy to avail all benefits. However, at any stage after payment of first two full years' premium, if you are not able to continue your policy, a surrender value will be payable.

On policy surrender, you will get higher of the following:

- Guaranteed Surrender Value (GSV)
- Special Surrender Value (SSV)

The Guaranteed Surrender Value (GSV) and Special Surrender Value (SSV) will be calculated as follows:

For Income/ Assured Income plan options:

$GSV = GSV \text{ factor for premiums } \times \text{ total premiums paid, less GI paid, if any with a minimum of zero.}$

SSV for policies surrendering before premium payment of four full policy years will be GSV. SSV for policies surrendering after premium payment of four full policy years will be as follows:

$SSV = SSV \text{ factor for GI } \times \text{ Paid-up GI}$

For Income with 110% ROP / Assured Income with 110% ROP options:

$GSV = GSV \text{ factor for premiums } \times \text{ total premiums paid, less GI paid, if any with a minimum of zero.}$

SSV for policies surrendering before premium payment of four full policy years will be GSV. SSV for policies surrendering after premium payment of four full policy years will be as follows:

$SSV = SSV \text{ factor for GI } \times \text{ Paid-up GI } + SSV \text{ factor for Terminal Benefit } \times \text{ Paid-up Terminal Benefit}$

For details on GSV factors, please refer to the policy document.

The final SSV will be calculated after applying surrender timing factors.

Taking a policy loan

You can take a policy loan after your policy acquires a surrender value. Loan amount up to 80% of the surrender value can be availed.

- a. For other than in-force and fully paid-up policies, if the outstanding loan amount including interest exceeds the surrender value, the policy will be foreclosed after giving intimation and reasonable opportunity to the policyholder to continue the policy.
- b. In the event of failure to repay by the required date, the policy will be foreclosed, the policy will terminate, and all rights, benefits and interests under the policy will stand extinguished. An in-force and fully paid-up policy will not be foreclosed.
- c. Loans may be granted on proof of title to the Policy.
- d. The policy shall be assigned conditionally to and be held by us as security for repayment of the loan and interest thereon.
- e. Before any Benefits are paid out, loan outstanding together with the interest thereon will be deducted and the balance amount will be payable.
- f. Applicable interest rate will be equal to 1.50% plus the prevailing yield on 10 year Government Securities. The yield on 10 year Government Securities will be sourced from www.bloomberg.com. The loan interest rate for March 2024 is 8.54%bp.a. compounded half-yearly. The basis for computing loan interest will be reviewed from time to time and may be revised subject to the prior approval of the IRDAI.
- g. The loan interest rate will be reviewed on the 15th day of every month by the company based on the 10-year G-Sec yield of one day prior to such review.
