Life insurance is a unique tool that provides families with a financial safety net while enabling them to achieve long term financial goals, even in the absence of the breadwinner

In an emerging economy such as India, financial inclusion is extremely important as it plays a crucial role in economic development and prosperity. It is a reflection of the nation's and its people's prosperity.

The protection gap in the country is estimated by Swiss Re at ₹ 92/- i.e. for every ₹ 100/- of protection coverage required, only ₹ 8/- worth of protection or savings exists. This indicates the financial vulnerability of dependent families in case of demise of the earning members.

The Indian life insurance industry has made significant progress in spreading awareness and increasing penetration. Still, the life insurance penetration in FY2018 in India was 2.76% of GDP as compared to the global average of 3.33%.

India has one of the largest young workforce in the world. A majority of this workforce is in the unorganised sector

without any form of insurance, which heightens the need for life insurance. As per United Nations estimates, the population in the age group of 25 - 59 years is expected to rise to 724 million by 2030.

As a leading life insurer in the country, ICICI Prudential Life has taken the onus of ensuring that Indian families have adequate financial security. We have embarked on Mission Insure India - Life Insurance For All.

The objective of this mission is to convey the importance of life insurance in securing a family's financial goals even in the absence of the earning member. It is our endeavour to ensure that every Indian family has adequate financial protection.

It is our pursuit to provide financial security to Indian families and facilitate fruition of their long term financial goals, so that they achieve More Than Just Peace Of Mind.

We are confident of enhancing financial inclusion and enabling every Indian family to be prosperous and secure

## Message from the Chairman

Your Company's stated vision is to build an enduring institution that serves the protection and long term saving needs of customers with sensitivity.

#### Dear Shareholders.

I am indeed proud of my long association with the ICICI Group. My association with ICICI Prudential Life Insurance has been first in the capacity of an Independent Director and a Board Member and now as the Chairman.

The Indian economy has witnessed steady growth over the past decade and the per capita income too has been rising. A growing workforce with a higher disposable income coupled with financialisation of savings has benefitted the financial services industry, especially life insurance. The large and burgeoning customer The life insurance penetration in the country segment with a positive disposition towards financial savings will. I believe, need life insurance to secure its future and we will endeavour to remain its preferred partner.

With increasing financial awareness, life insurance is now being viewed as a tool to mitigate risks in life and achieve long term financial goals. The paradigm of only building a savings corpus to meet financial goals is steadily changing. Customers recognise that it is vital to provide financial security to their families, in addition to building savings over the long term. Protection and Savings are the two fundamental

needs of customers and life insurance fulfils both these requirements. Your Company's stated vision is to build an enduring institution that serves the protection and long term saving needs of customers with sensitivity.

in 2018 stood at 2.76% of GDP compared to the world average of 3.33%. protection coverage in the country is also estimated to be quite low at 8%. To bridge this gap, your Company has set out on Mission Insure India – Life Insurance For All. We seek to achieve this through better understanding of customers' needs, offering relevant products and ensuring continuous engagement with them.

All initiatives your Company undertakes keep the customer as the focal point. The digital strategy is centred on gaining deeper understanding of convenience throughout the life of the policy, amidst their evolving preferences. The digital platform of your Company has empowered customers to conduct self-service transactions and enables beneficiaries to raise claims online. Quick settlement of genuine claims is the best way to deliver on the promise made to customers. In FY2019, the claims settlement ratio stood at 98.6%, one of the best in the

customers, simplifying processes and providing

As the Chairman, I have faith in the capabilities of the organisation to drive forward the agenda of providing adequate financial security to Indian families. Your Company will continue to work with all stakeholders for sustainable growth and value creation.

Warm Regards,

M. S. Ramachandran

# Message from the **Managing Director & CEO**

(I)

In FY2019, your Company has grown the protection business by over 61% and protection premium now constitutes more than 20% of the new business premium received. More importantly, the contribution of the protection business to the overall VNB now stands at 60%.

Your Company has been enhancing its current distribution by mapping distribution segments with customer segments and products. This has helped to make in-roads into broadening its customer base by increasing penetration in underserved customer seaments.

#### **Dear Shareholders**

I am truly delighted to write my first letter to you. At the outset, let me thank you for all the support provided to me, my colleagues and the Company over the past years.

#### **Operating Environment**

India's economy grew at  $\sim$ 7% in FY2019 and continues to be one of the fastest growing large economies globally. India's economic growth is projected to improve with investment picking up and consumption remaining strong. Various government initiatives and reforms have aided in the formalisation of the economy and financialisation of savings. RBI data shows that the share of gross financial savings as a percentage of household savings has witnessed a sharp rise from 55% in FY2017 to 64% in FY2018. Further, the share of life insurance fund in household financial savings increased from 20.3% in FY2017 to 23.3% in FY2018. Reports also estimate that Indian families have only ₹ 8/worth of protection for every ₹ 100/- required, translating into a protection gap of ~₹ 550 trillion. The regulatory framework is conducive to the development of innovative products which cater to the present and future needs of

customers. The regulator has been encouraging the use of technology to strengthen distribution and enhance insurance penetration.

#### **Key Strategic Priorities**

We believe that the Value of New Business (VNB), which denotes the present value of future profits from the policies sold in the period, is an appropriate measure of profitability for a growing life insurance company. Your Company has defined its objective as growing the absolute VNB with customer centricity as the foundation. We seek to accomplish this through the 4P levers of Premium growth, Protection focus, Persistency improvement, and Productivity enhancement. Our focus on the 4P strategy, along with robust risk management practices has resulted in a VNB of ₹ 13.28 billion in FY2019.

**Premium Growth:** With an array of products varied life stage needs a multi-channel architecture, vour Company registered an Annual Premium Equivalent (APE) of ₹ 77.99 billion in FY2019. Your Company has been enhancing its current distribution by mapping distribution segments with customer segments and products. This has helped to make in-roads into broadening its customer base by increasing penetration in underserved customer segments.

**Protection Focus:** During the financial year, your Company made significant progress in growing the protection business through both retail term insurance and group insurance products. In FY2019, your Company has grown the protection business by over 61% and protection premium now constitutes more than 20% of the new business premium received. More importantly. the contribution of the protection business to the overall VNB now stands at 60%.

**Persistency Improvement:** Persistency is a key metric that determines the quality of business. Your Company has an industry leading 13<sup>th</sup> month persistency ratio, which stands at 87.4% in FY2019. There has been improvement in persistency across other cohorts as well. Going forward, efforts will continue to further improve these ratios to ensure that our customers continue to derive the maximum benefits from their policies over the long term.

**Productivity Enhancement:** Technology has enabled your Company to increase efficiency levels and make a difference in the way customers are served. The objective is to empower customers, promote a customer-centric culture and enhance our digital capabilities to meet their evolving demands while improving cost ratios. It has facilitated developing smart solutions targeted at fulfilling customers' unmet needs as well as providing engaging and immersive experiences.

Your Company is India's first life insurance Company to have officially partnered with WhatsApp to offer next-gen customer service. The Artificial Intelligence powered Chatbot LiGo (Life Insurance on the Go) has enhanced the experience of customers interacting with your Company. Both these service channels provide customers 24x7 and instant responses to gueries. Over 1.29 million customers have opted to receive their policy related information through WhatsApp and Chatbot LiGo has received over 200,000 service requests since going live in this financial year. Your Company believes the popularity of these service channels will only grow as more and more millennials include life insurance in their financial portfolio.

The Board of your Company has approved a final dividend of ₹ 1.55 per share in addition to the interim dividend of ₹ 1.60 per share already declared and paid, taking the total dividend to ₹ 3.15 per share for FY2019.

#### **Way Forward**

Your Company believes that life insurance is a unique and powerful franchise in the financial services industry. It enables the fulfilment of the family's financial goal even in the absence of the breadwinner. The protection gap in the country offers a large untapped opportunity to your Company. By 2030, the population in the age group of 25 - 59 years is expected to grow to approximately 724 million people, thus providing a significant growth opportunity for customer centric life insurance companies such as your Company. This young workforce will need life insurance to have financial security i.e. Protection and Savings, including planning for retirement. As a leading life insurer, your Company has embarked on 'Mission Insure India' in its endeavour to provide adequate life insurance to Indian families

With a view to fulfilling its vision and to take advantage of this huge opportunity, your Company will continue to make investments that will extend its competitive advantages and help drive growth, while also delivering on the commitment to grow the absolute VNB. Our endeayour will be to deliver results keeping in mind the interest of all our key stakeholders including our customers, shareholders and employees. Your Company is poised for an exciting future.

On behalf of your Company, I take this opportunity to express my gratitude to the regulator, customers and to shareholders for the continued support and guidance.

## **The Indian Life Insurance Industry**

The Indian life insurance industry has witnessed changes over the past two decades. These include opening to the private sector (2000), new product regulations (2010), increase in FDI limits (2016), initiation of open architecture for Bancassurance (2016) and issuance of policies in electronic form (2016). With these transformations, the industry has experienced fundamental shifts such as rapid expansion, rebalancing of distribution with rise of Bancassurance and evolution of product mix.

#### INDUSTRY LANDSCAPE

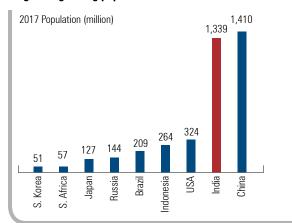

#### Favourable demographics

India is the second most populous country in the world and amongst the youngest with median age of 27 years (Source: United Nations population division estimates). A high share of workforce coupled with rapid urbanisation is expected to drive growth for the Indian insurance industry. Life expectancy among Indians is on the rise, upturning the historic mortality rates.

#### Strong economic growth

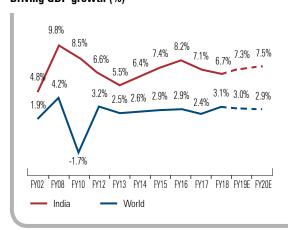

On the macroeconomic front, the broader economy is expected to pick up momentum. The industry has taken the adoption of the Goods and Services Tax (GST) and the impact of demonetisation in its stride, and the growth story should remain intact. Domestic growth appears to be recovering cyclically, with the Central Statistics Office (CSO) estimating FY2019 growth at 7.0%.

#### Large and growing population base

#### Increasing household financial savings

Various reforms such as Direct Benefit Transfer, RERA and GST have resulted in increased financialisation of household savings. Low inflation reduces the need for inflation protection by saving in physical assets. The household sector holds its financial assets mainly in the form of currency, deposits, investments in debt securities, equities, mutual fund units, insurance and pension funds, and small savings.

In the Indian financial services industry, life insurance industry is uniquely positioned to cover a range of customer needs. It can offer savings products across fixed income and equity platforms. It can also offer annuity, term plans and defined benefit health plans. Over a long term, life insurance industry is expected to grow at the rate of nominal GDP. Higher personal disposable incomes will result in higher household savings which will be channelled into different financial savings instruments.

#### **Protection opportunity: Income replacement**

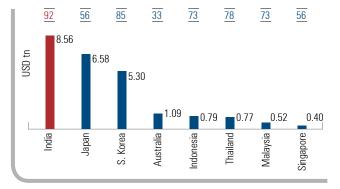

Protection gap is measured as the difference between the resources needed and the resources already available for dependents to maintain their living standards in the event of demise of a working family member According to Swiss Re, Protection gap for India is nearly USD 8.56 trillion and protection coverage ratio which is the ratio between protection gap and protection needs is also very high for India (92%). Sum assured to GDP is also a measure of protection coverage in a country and sum assured to GDP ratio is significantly lower in India compared to rest of the world. This provides huge opportunities for Indian life insurance companies to expand their protection business.

# How our Performance is Measured and Why

The life insurance business uses a set of financial/non-financial metrics which are different from other businesses. This is because life insurance products are, by their nature, long term (to be viewed with a 10-year time horizon) and generate profit over a number of years.

Premium payments for life insurance policies are typically spread out over by a period of time. The cost of new customer acquisition for a life insurance company is high, leading to accounting losses or new business strain in the year of sale. Profit After Tax (PAT) for the year has profits from the sale of policies made in the prior years and the strain from policies sold during the year. It does not factor in the profits that the Company expects to make from policies sold during the year. For this reason, PAT for a fast-growing company will be depressed. Value of New Business (VNB) reflects the value of future profit streams which are not fully captured in the year of sale under the normal financial reporting.

This section explains some of the terms used by the industry and their relevance in business performance measurement.

## MEASURING INCOME

#### **Annualised Premium Equivalent (APE)**

Sum of annualised first year premiums on regular premium policies plus 10% of single premium policies.

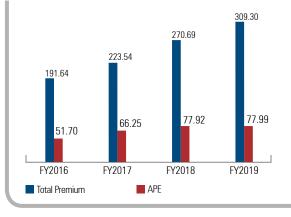

#### **Total Premium**

Total premium collected during the fiscal year. It comprises of premium, including single premium from new retail customers (first year premium or new business premium) and existing customers (renewal premium).

#### **Retail Weighted Received Premium (RWRP)**

100% of the first-year premiums on retail regular premium policies plus 10% of single premiums received from retail customers during the year. It is a metric used for calculating the market share, since it is a publicly reported number by all life insurance companies.

#### APE and Total Premium (₹ billion)

Mission Insure India - Life Insurance For All - More Than Just Peace Of Mind

## MEASURING PROFITABILITY

#### Value of New Business (VNB) and Value of New Business Margin (VNB Margin)

VNB is the measure of future profit streams from the new business written during the year. It is the present value of future profits to shareholders as measured in the year in which the new business is written. VNB is reported net of new business expenses.

VNB margin is the ratio of VNB for the period to APE for the period. It is similar to the profit margin for any other business/industry.

#### **New Business Strain**

The accounting loss associated with the initial years of a life insurance policy is referred to as business strain.

#### VNB (₹ billion) and VNB Margin (%)

in. FY2016 ■ VNB

# **How our Performance is** Measured and Why (Continued)

#### **MEASURING EMBEDDED VALUE**

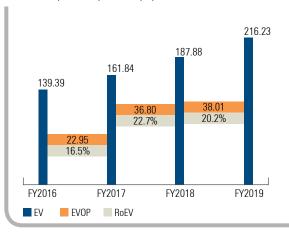

#### **Embedded Value (EV)**

EV is similar to the Book Value of companies in other industries. It is the sum of the Company's net worth and the present value of all future profits to shareholders from the existing book of the Company (including new business written in the year). Future profits are computed on the basis of assumptions such as persistency, mortality, morbidity and external factors like interest rates and capital market performance. EV can increase or decrease, this could be on account of the investment experience being different than expected, change of assumptions of future returns, which is reflective of expected returns at the date of valuation. The change in EV because of performance as compared to assumptions is disclosed through the Analysis of Movement disclosure.

#### **Embedded Value Operating Profit (EVOP)**

EVOP is the EV operating profit for the year. The key components of EVOP are expected investment income on opening EV (unwind), the VNB added during the year and the EV variances. The EV variance is a measure of the performance as compared to what was assumed in arriving at the EV at the beginning of the year. The key factors are mortality, persistency and renewal expenses. If these variances are expected to continue in the future, then it is usual to capitalise these variances by way of an assumption change.

#### EV, EVOP (₹ billion), RoEV (%)

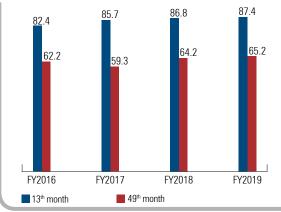

# **MEASURING QUALITY OF**

#### **Persistency**

Persistency measures the proportion of policyholders who have continued with their policies. It indicates the ability of the Company to retain customers. Maintaining a high level of persistency is critical as it provides the scope of regular revenues by way of renewal premiums. The 13th month persistency ratio reflects the quality of the sale, the 49th month persistency ratio enables the life insurance company to assess the proportion of customers paying all premiums as majority of regular premium policies have a minimum premium payment period of five years. From a customer's point of view, they benefit from lower effective charges, the longer they continue with the policy.

#### Persistency\* Ratio (%)

\*Calculated in accordance with IRDAI circular IRDA/ACT/CIR/035/01/2014 dated January 23, 2014; excluding group policies; for policies issued during March to February period of relevant year measured as on March 31, 2019

# MEASURING QUALITY OF CUSTOMER SERVICE

#### **Claims Settlement Ratio**

It is the ratio of claims settled to claims received in a given year. A higher claims ratio is good for customers.

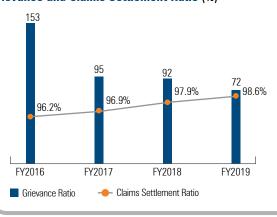

#### **Grievance Ratio**

It is the number of grievances received per 10,000 new business policies issued (retail). A low grievance ratio indicates higher customer satisfaction.

#### **Claim Settlement Turnaround Time**

It is the average time taken to settle a claim from the date of receipt of the last requirement.

#### **Grievance and Claims Settlement Ratio (%)**

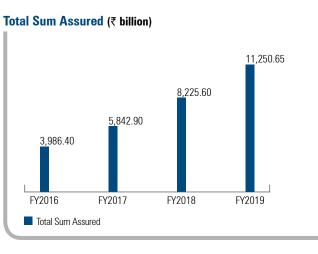

Mission Insure India - Life Insurance For All - More Than Just Peace Of Mind

#### **MEASURING SUM** ASSURED

#### **Sum Assured Or Life Cover**

Sum Assured or Life Cover indicates the quantum of money that is guaranteed to be paid to the nominee or beneficiary upon the demise of the policyholder.

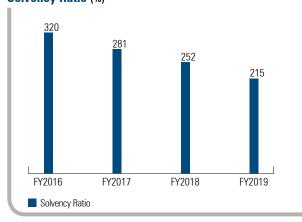

#### **MEASURING SOLVENCY RATIO**

#### **Solvency Ratio or Solvency Capital**

Solvency is a regulatory measure of capital adequacy. It is expressed as a ratio of available capital and required capital. It is critical in determining the ability to meet future contingencies and fund growth plans. A high solvency ratio instills confidence in customers in the ability of the Company to pay claims. As per Indian regulations, life insurance companies are required to maintain a minimum solvency ratio of 150%.

# **Our Strategy**

Our strategy is to create value for our stakeholders namely Customers, Employees and Shareholders. Customer centricity continues to be at the core of everything we do. Our performance on the customer service parameters such as claims settlement ratio, grievance ratio and average time taken to settle the claim stands testimony to our customer centric strategy.

A key pillar of our strategic growth is our people. We believe in building a talent pool by providing varied job experience within the organisation along with career growth opportunities. More than 90% of our senior management have served for more than 10 years in the organisation.

A strong point of focus for the organisation is to also grow the absolute Value of New Business (VNB) through the 4P levers (Premium Growth, Protection Focus, Persistency Improvement & Productivity Enhancement) of targeted at improving cost ratios. We believe that this 4P strategy is appropriate in the context of the huge insurance opportunity in the country, coupled with our objective to grow the VNB.

### **Premium** Growth

We would endeavour to grow premium through

#### a. Deepening penetration in underserved customer segments:

Our customer centric product portfolio and simplified onboarding process has helped us to increase our penetration over the years. We would continue to focus on broadening the customer base through initiatives spanning across both distribution and products.

#### b. Enhancing distribution:

invested channels such as agency, bancassurance partnerships, proprietary sales force, corporate agents and brokers including web aggregators. We would strengthen our distribution through a closer mapping of distribution segments with customer seaments and products. We are also focussed on expanding the distribution network through acquisition of new partners as well investing in creation of new sourcing channels.

#### c. Focus on pension and annuity:

We would continue to cater to the retirement savings need of customers while managing the investment risk appropriately.

## **Protection** Focus

We are focussed on expanding the health & protection business across both retail and group lines of business. This would be done by offering protection as an add-on to our savings products across channels, penetrating the online term insurance market and partnering with loan providers to offer coverage against loans.

## **Persistency Improvement**

the most effective indicator of the quality of sale and is a barometer of customer experience. This parameter tracks the percentage of customers renewing their policies. Maintaining a high level of persistency is critical to drive value for both customers as well as shareholders. We would seek to drive persistency improvements across all cohorts by encouraging long term investment behaviour.

## **Productivity Enhancement**

We believe persistency is probably Productivity targeted at improving cost ratios: Technology and process re-engineering have been at the centre of our efforts to improve cost ratios. We would continue to leverage the digital platform to improve customer experience and efficiency of our service operations.

#### **4P STRATEGY**

Customer centricity continues to remain the foundation of our strategy

FOR CUSTOMER CENTRICITY

At ICICI Prudential Life Insurance, we have undergone a profound digital transformation over the years. We are entering a new era of digital empowerment by reshaping how we carry out even the simplest of tasks by leveraging latest technological advancements in the fields of Artificial Intelligence (AI), Machine Learning (ML) and Natural Language Processing (NLP).

Our objective is to keep modernising our operating platforms to empower the stakeholders, to promote a customer-centric culture, and to continuously enhance our digital capabilities keeping them in tune with rapidly evolving eco-system.

## **Digital Next - For Customer Centricity**

We commenced our digitalisation journey in the year 2010 with the aim of enabling a single digital platform to provide ease and simplicity to our customers.

It encompasses hand-holding the customer from the time of analysing life-stage-based needs, understanding risk appetite, quote generation, purchase journey and on-boarding, post-sales servicing of queries and requests throughout the policy lifecycle. Our various digital enablers at each step of the customer's journey have made it possible for us to offer significant convenience and helped in improving efficiencies across the organisation.

Our digital initiatives empower customers and enables us to deliver superior customer service experience. We are cognisant of the importance of an intuitive interaction and a secure digital platform for effective customer engagement.

Since an efficient back-office is a pre-requisite for orchestrating work through smart and automated work-flows, we provide a seamless and standardised service experience across channels resulting in high service levels, responsiveness and consistency for our customers.

#### **KEY OBJECTIVES OF OUR DIGITALISATION STRATEGY**

■ To permeate the insurance process by eliminating barriers

■ To offer convenience and simplicity by providing a seamless omni-channel platform

■ To provide superior customer experience by leveraging the ecosystems, and personalising and engaging through advanced analytics

IMMERSIVE EXPERIENCE AND SMART SOLUTIONS

Customer centricity for us, means organising the business around our customers to establish clear lines of communication and connection. While innovation is directed at our customers, we are also changing how we meet evolving customer needs. We are continually driving innovation to serve our customers effectively and efficiently.

## **Customer Centricity - Immersive Experience and Smart Solutions**

Customers today have become more vocal, empowered and connected and are seeking greater engagement with companies. It is pertinent to provide them with an immersive customer experience. In view of this, our focus is on efforts to deliver great service and smart solutions to our customers.

Innovation, at ICICI Prudential Life Insurance, is consumer-led. Our business innovations come from understanding customers' unmet needs. We are catering to customers' demands of simple processes, focus on their specific needs and products that meet their demands. We are leveraging technology to handle claims faster and more accurately, improve processes and ultimately enhance the customer experience. With our growing service offering, we are also constantly looking at ways to reach customers across multiple channels, both direct and through distribution partners.

\* Average turnaround time for non-investigated claims from receipt of last requirement

#### **KEY INITIATIVES**

#### **Customer Satisfaction**

Life Insurance is a long term product and it is in the interest of customers to continue with the product. The need analysis facilitated by the digital platform ensures that customers' needs are matched with appropriate products, leading to a satisfied customer base. Our determined efforts to ensure customer delight have been aptly rewarded with customer loyalty which reflects in our 13th month persistency ratio of 87.4% in FY2019, one of the best in the industry and 75% of service requests from customers were self-help requests.

#### **Modes of Payment**

To ensure uninterrupted benefits of the policy, we offer convenient modes of payment to choose from ECS/SI, debit/credit cards, direct debit, UPI, Bharat QR, and e-wallets are some of the options available at the time of policy purchase. #### **Faster, Better Claim Response**

In today's highly competitive and economically challenging environment, claims settlement can serve as a market differentiator that puts insurance companies at the forefront of the industry. At ICICI Prudential Life Insurance, we have a robust claim handling procedure that involves priority desks at branches, direct connect with central claims team through 'hotline' and 24x7 claims call centre, enabling easy access to claimants and simplified calamity claims process. Through our claims philosophy. we aspire to manage each claim sensitively and efficiently. Claimants can use the digital platform to raise claims without having to leave the comfort of their homes. The average time taken to process genuine claims stood at 2.34 days in FY2019, compared to 2.99 days in FY2018.

#### **Customer Service**

Recognising the need of our customers for immediate assistance, empowering them with self-help options has always been our endeavour. With this objective at the core, we always strive to introduce new mediums of self-help.

- Introduction of LiGo, our Al-based Chatbot. has enhanced the service experience of our customers with instant responses to queries. This saves them from contacting them using conventional touchpoints. Catering to the customers 24x7, LiGo provides instant and hassle-free service.
- By becoming the first business verified insurance account with WhatsApp, customers have been equipped with yet another medium for instant gratification. In addition to accessing information, our customers can now get their policy kit, premium receipts and tax certificates amongst other documents over their smartphones.

In line with our philosophy of listening to customers and enhancing our services, we

our website. Customers who are unable to remember their password can now use the "Login via OTP" feature. Customers with pension policies can choose their annuity option at their own convenience on our website. In order to promote safe and secure payments, customers can now update their bank account details on the website. Through our tie-ups with new-age payment services such as Google Pay, Amazon Pay, PhonePe, Bharat QR, etc., customers now have additional options to pay their premiums

Claimants, senior citizens and NRI customers are catered to by the contact centre, which provides them with 24x7 support and direct connectivity with our call centre. The intuitive IVR identifies customers based on their registered mobile number. This service was enhanced to guell the anxiety of customers who were calling to get status updates on their requests. Now a customer can get the status of his / her request over the IVR itself.

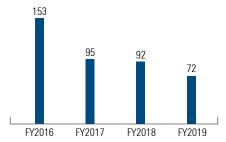

#### **Grievance Policy**

The Company has a Grievance Redressal policy approved by the Board. The policy aims to ensure that all customers are treated fairly at all times and all queries, requests and complaints raised by the customers are dealt with courtesy, accuracy and are resolved in time. Keeping up with the current trends and changes, our grievance mechanism too has evolved and adopted digitalisation. Digitalisation has not only helped us widen our reach, but also aided in the

protection of consumer interests. Our digital platform is embedded with procedures that guard against misrepresentation.

Digitalisation and transparency measures have led to a sharp improvement in the customer grievance ratios. The number of grievances per 10,000 policies has declined to 72 in FY2019, compared to 153 recorded in FY2016. Only 0.05% of the grievances were pending by the end of FY2019.

INTEGRATED
INVESTMENT MANAGEMENT

Through a systematic and structured investment process, we generate and deliver consistent and risk-adjusted returns to our customers and shareholders. As we pool risks and capital to operationalise risk diversification, we remain well positioned to look into the future. Our disciplined approach towards this has been effective across market cycles.

# **Long Term Approach - Integrated Investment Management**

Our assets under management have grown consistently over the last 18 years, we at ICICI Prudential Life Insurance have become one of India's largest domestic fund managers. We remain committed to an integrated investment management philosophy – one that delivers superior riskadjusted returns through risk mitigation with a disciplined and long term approach.

#### **OUR INVESTMENT APPROACH**

At ICICI Prudential Life Insurance, we are cognisant of our customers' willingness to entrust their hard-earned savings to us for the long term. They expect us to judiciously invest their savings and help it grow so as to protect their future and enable them to achieve their financial goals.

Our investment management method is ingrained with a systematic and structured investment process, focussed on the most expedient value drivers. This disciplined approach has worked over various market cycles and enabled us to deliver superior risk adjusted returns consistently. It has been instrumental in adhering to the obligations and expectations of all our stakeholders — Customers, Shareholders, Employees and the Communities we live and work in.

#### **ASSETS UNDER MANAGEMENT MIX**

Asset class	Linked	Non-Linked	Shareholders	Total
Debt	38.7%	82.9%	72.8%	51.8%
Equity	61.3%	16.8%	22.5%	47.9%

Total (₹ billion)	1,109.46	413.20	81.44	1,604.10

At March 31, 2019

#### **Fund Management Strategy**

Our primary objective is to strike a risk-reward balance. On the one hand, we focus on maximising returns on investments, on the other, we work to minimise risks. Our funds are invested in a well-diversified portfolio spread across asset classes. The distribution of investments into asset classes is universally recognised as the primary determinant of long term investment returns. As on March 31, 2019, funds representing 81% of linked assets outperformed their respective benchmarks since inception.

## INVESTMENT IN EQUITIES

Aims to achieve superior riskadjusted returns over the long term

## INVESTMENT IN DEBT

Aims to target a judicious mix of credit and interest rate risk

## A Style-Agnostic, Fundamentals-Driven Investment Approach:

- Thorough and in-depth analysis of companies, along with the prognosis of the sector in which each company operates
- Multiple rounds of scrutiny before making an investment
- Majority of debt investments made in AAA rated instruments and government bonds
- Strict discipline in investment strategy led to a consistent and strong investment track record

#### Mandate of our Investment Portfolios:

- Continuous execution of strategic ideas
- Access unique investment strategies
- Optimise specific risk adjusted total return targets

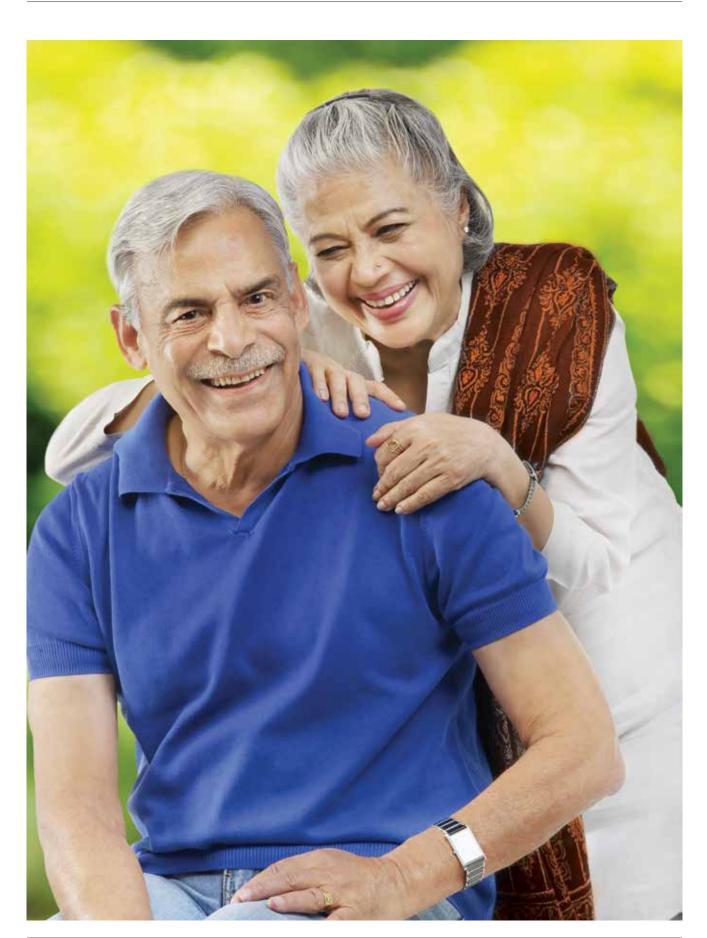

#### **Experienced Team**

Insurance integrates a rigorous portfolio construction and investment process. It provides a mix of equity and fixed income exposure across portfolios. The team consists of individuals with the requisite qualifications, skills, experience and market knowledge. The average experience of our fund managers is  $\sim\!18$  years. Our investment team is one of the largest and most experienced amongst private sector life insurance companies, owing to the large corpus of funds that we manage.

## **Retirement Planning – Golden Years**

Due to rapid economic development and advances in the field of medicine in the world and India, the life expectancy has increased. As per the UN population division, life expectancy in India has almost doubled from 35 years in 1950 to 68 years in 2016. Therefore, it is, common for people in India to live a longer retired life. Hence, it is prudent for individuals to ensure they have the financial wherewithal to lead a financially independent retired life.

#### Preparing for life after retirement

Individuals do recognise the need to lead a financially secured retired life. However, the actual process of making regular contributions is initiated much later. Most individuals do have some corpus built as part of their retirement plan, but that may not be sufficient. The critical aspects that individuals need to address are; Does the plan encompass creating an adequate corpus? How much needs to be saved regularly? and Are they giving the retirement plan sufficient time and thought for it to achieve fruition?

India has one of the largest young workforce and is estimated to continue growing till 2045. Increased consumerism due to higher disposable income implies an amplified risk of inflation. It is therefore, vital for individuals to plan for their retirement with the objective of beating inflation.

#### **Planning Objective**

Let us illustrate this with an example. In the year 2000, if the retirement corpus was ₹ 1,200,000/- and this was invested in a 10-year fixed deposit, it would have fetched 10% p.a. A monthly income of ₹ 10,000/- was sufficient for a middle-class household of two members. In 2010, the fixed deposit interest rates have dropped to 7.75% p.a. while the household expenses have risen at a CAGR of 5.8%. Due to a fall in the interest rates, the monthly income has dropped to ₹ 7,750/-, whereas the monthly household expenses have risen to ₹ 17,573/-.

#### **Defined Contribution**

Historically, certain jobs provided pension to employees after retirement. However, globally,

the focus is shifting from defined benefits (where pension amount is specified) to defined contribution (where the contribution is known but the pension is a function of investment returns). Going forward, individuals will have to incrementally rely on market-linked returns for accumulating their retirement corpus.

#### **Our Competitive Edge**

With a vision to be the leading player in the pension category, along with life and health, we at ICICI Prudential Life Insurance offer products which offer persuasive propositions to individuals to plan for a financially sound retired life.

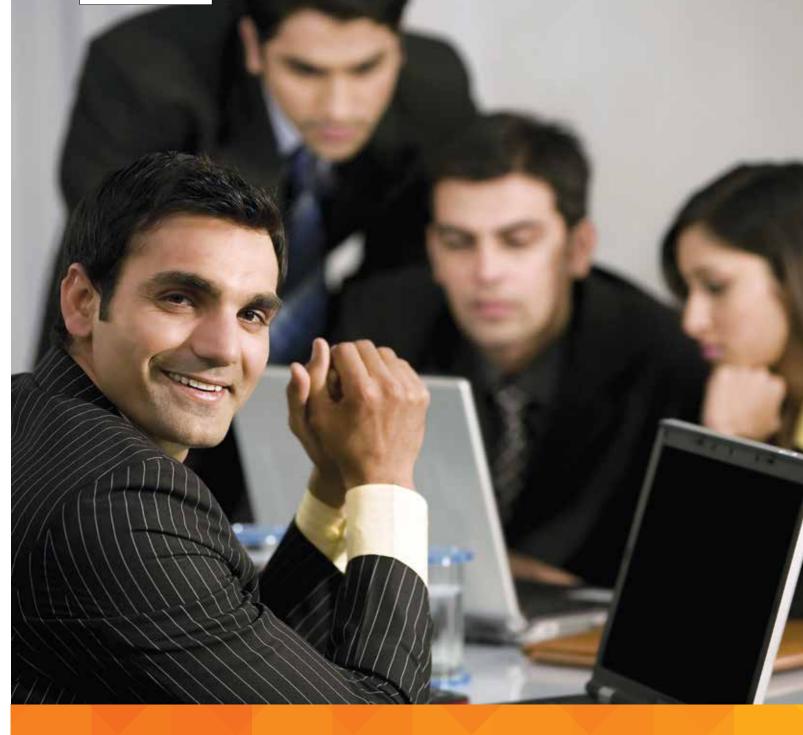

Our unit-linked pension products have competitive charges that enable the future pensioner to accumulate the desired corpus. Our investment philosophy is focussed on safety and stability of returns. We endeavour to deliver superior fund performance over the long term. As on March 2019, equity platforms such as Pension Maximizer II has delivered returns at a CAGR of 15.98% since inception vis-à-vis the benchmark return of 14.69%. On the other hand, the debt platforms such as Protector II has delivered an annualised return of 8.39% since inception compared to the benchmark return of 6.68%.

To summarise, it is essential to have a financial plan which envisages the expenses required to have a wholesome standard of living. While it may entail making some decisions like forgoing consumption and compromising on the existing lifestyle, it is prudent financial planning to start early to derive benefits from the power of compounding.

OFFERING A LONG TERM CAREER PROPOSITION

Our people strategy is underpinned on the core value proposition of offering employees a long term career, opportunities to learn & grow and a work environment that is supportive, fair and meritocratic.

# **Engaged Workforce - Offering a** long term career proposition

People are at the heart of a life insurance business. And it is our people who give us the cutting edge in creating value for our customers and shareholders. Our people strategy is underpinned on the core value proposition of offering employees a long term career, opportunities to learn & grow and a work environment that is supportive, fair and meritocratic. Our Vision "To build an enduring institution that serves the protection and long term saving needs of customers with sensitivity" and Values of "Customer First, Humility, Passion, Integrity and Boundaryless" serve as the anchors that guide all our actions.

We are committed towards building an engaged workforce where employees feel committed to give their best every single day. It is our endeavour to enhance the employee experience at every touchpoint through simplification, customisation and digitisation.

At the pre-joining stage, candidates go through 'i-Sail' - a gamified tool that helps them understand their role, thereby enabling them to make an informed career choice.

"i-sail is a gamified interactive digital app, which helped me understand ICICI Prudential Life Insurance, my role as an employee and what it takes to get into the Insurance industry. The best part was the user friendliness - ease

"I feel really delightful in expressing my views about the joining process at ICICI Prudential Life Insurance. The training programme done at the Lucknow office by the HR team & Training department was very comprehensive and included role plays and first-hand experience about field work. This enhanced my ability to convince customers as per their needs and customer segmentation. The detailed onboarding programme has been very helpful in starting my career in this technology driven Company."

A still from the Leadership Mentoring Programme held in FY2019

Talent Development is a key employee value proposition and we aim to facilitate capabilitybuilding of employees through classroom/onthe-job training, job rotation, job enrichment, and other opportunities for career progression.

Leadership Mentoring Programmes are conducted to build perspective on various leadership themes via experiential learning techniques for senior management. The Company has leadership depth and breadth, with 94% of the senior management team having served with us for more than 10 years and with 70% of the senior management having done at least 3 job rotations during their tenure

Internal job postings (IJPs) provide growth opportunities to employees for taking up challenging roles across levels, functions and geographies. IJPs are uploaded on the website and employee portals such as PACE and PULSE. Interested employees can review the job description and apply online. The entire process of application is digitised.

An online 360-degree feedback survey, based on our Leadership Anchors, was conducted earlier this year for all employees in the middle and senior management roles (Level 7 and above). The findings will serve as a critical input for individual development planning and training interventions.

SERVING THE UNDERSERVED

Our vision is to build an enduring institution that serves the protection and long term saving needs of customers with sensitivity. In line with this vision, our objective is to proactively support meaningful socio-economic development in India and enable a larger number of people to participate in and benefit from India's economic progress.

## Mission Insure India - Life Insurance For All - More Than Just Peace Of Mind

## **Inclusive Growth - Serving the Underserved**

CSR has been a long-standing commitment at ICICI Prudential Life Insurance and forms an integral part of the Company's activities. The Company's objective is to proactively support meaningful socio-economic development in India and enable a larger number of people to participate in and benefit from India's economic progress. It contributes and supports programmes and initiatives keeping 'protection of life and health' as the core proposition and cornerstone of all its CSR initiatives, in line with the Company's vision, which is "to build an enduring institution that serves the protection and long term saving needs of the customers with sensitivity".

Some of the key programmes taken forward by the Company in FY2019 were:

#### 1. ICICI FOUNDATION

75% of the Company's annual CSR budget is contributed to ICICI Foundation for Inclusive Growth (ICICI Foundation). Some of the key programmes undertaken by the Foundation are as given below:

## 1. Skill development for the organised market via ICICI Academy for Skills

A national initiative to meet the demand for skilled labour and create sustainable livelihood opportunities for the underprivileged youth. The Academy offers, industry relevant and joboriented vocational training in 12 technical and office skills. In FY2019, the Academy trained

more than 27,000 youth with women representation at 44%. The Academy has 26 fully operational centres and has tied up with over 1,300 industry partners to provide employment opportunities to the trained youth. All the trainees have secured employment on completion of their training. Cumulatively, over 120,000 youth have been trained under this initiative.

#### 2. Skill development in rural markets via **Rural Initiative (RI)**

As part of the national programme initiated by the Ministry of Rural Development (MoRD), Rural Self Employment Training Institutes (RSETIs) are set up to provide vocational training to rural youth from the marginalised communities. In FY2019, over 92,000 villagers were trained under the RI, with women participation at 63%. Around 1,200 villages across the country have been covered till date. The villagers are trained in skills that are locally relevant and ICICI Foundation facilitates

market linkage for the trainees, so that they can find a market for their produce on a sustainable basis. Cumulatively, over 198,000 villagers have been covered under this initiative.

The Foundation also undertakes various community connect initiatives for creating awareness amongst the target population on various socially relevant topics. During FY2019 the Foundation planted over 35,000 native trees across the country with local community support.

#### 1. Skilling and securing sustainable livelihoods of local communities in Himalayan rangelands

The Company partners with World Wide Fund for Nature (WWF)-India and Nature Conservation Foundation (NCF) to support skilling and sustainable livelihood of the local communities living in the Himalayan regions as well as manage the ecological balance.

a. Established as a charitable trust in 1969, WWF-India, is a conservation organisation engaged in wildlife protection and environment preservation. Through the partnership with WWF-India, the Company aims to:

- create diversified livelihood opportunities through skilling of local communities on tourism and handicraft production and,
- address the challenge of over exploitation of rangelands through sustainable rangeland management practices.

#### Key highlights of the programme for FY2019 have been the following:

- In Tsokar Leh in Ladakh, communities have been trained on setting up homestays to host tourists. In FY2019, 10 households for homestays have been trained.
- Further a production facility is being set up in Tsokar to produce pashmina shawls and train the women on its production. Approximately 500 women will be trained in the next two vears.

At the end of winter, Dolma Chhering was able to sell the socks. "When I brought home the money, I could see a spot of surprise on his face. The comments have stopped. He also gets me cups of tea now, when he sees me knitting".

#### 2. Financial protection for forest guards

Launched in FY2016 with WWF-India, the programme aims to augment financial support to socially or economically disadvantaged frontline forest guards in case of critical illness or any eventuality of death or permanent disability whilst on duty. Through this initiative, 34 forest guard families have been supported till date.

"The Van Sewak Suraksha Programme" initiated by WWF-India, in partnership with ICICI Prudential Life Insurance, has helped in strengthening our efforts to support forest staff who are at the forefront of wildlife conservation.

## 3. Holistic development of underprivileged

The Company supports the underprivileged/ orphan/abandoned children living in child care homes on interventions of education, skilling, vocational training, food & nutrition, and health & hygiene, among others. The Company has taken forward programmes with Catalysts for Social Action (CSA) and SOS Children's Villages of India to provide support on the holistic development of children.

a. Catalysts for Social Action (CSA), established in 2002, is a "not for profit" organisation working in the areas of integrated child care for institutionalised children since 2002. ICICI Prulife had partnered with CSA in 2014 for Programme 'Asha', wherein 650 **children living in 13 homes** in Madhya Pradesh are supported on holistic development as well as improving their relief and rehabilitation outcomes. The 'After Care' initiative, a key component of the programme, for children aged 18 and above, aims to help them to get integrated into the society through support on higher education, skilling and life skills. Till date. 19 children are currently pursuing higher education/vocation training, while 37 children have settled in careers of their choice.

**b.** SOS Children's Villages of India (SOS India), founded in 1964, is a member organisation of SOS Children's Villages International. Based in Delhi, SOS-India is committed to the welfare and providing family-based care to orphan and abandoned children through their "Family Sponsorship Programme". The programme with SOS is in Year 2 wherein the children are provided a nurturing environment for their development and holistic growth. The Company supports around 28 children living in 2 SOS India **homes** located in Raipur and Vishakhapatnam.

## 4. 'Personal Safety Programme' for

To reduce the instances of child abuse and ensure child safety, the Company supports Arpan for its 'Personal Safety Programme'. Arpan, a NGO established in 2006, works towards providing prevention and intervention services for minimising and eliminating child abuse. The programme's objective is to empower and educate school children on the relevant knowledge, skills and attitude to prevent abuse as well as seek adequate support proactively. Over 300 children have been trained in FY2019 on the personal safety programme.

"We are so glad to have ICICI Prudential Life Insurance supporting us. It is the onus of each one of us to ensure that our future generations have safe and happy childhoods. And when you get the support of organisations like ICICI Prudential Life Insurance, it inspires other organisations to do their part in the crusade against child sexual abuse. Their support, over the years, has enabled us to reach out to hundreds of children with messages on personal safety and empowered parents and teachers to provide a safe and supportive environment for children. We hope to have their continued support to reach out to many more children and adults."

- Pooja Taparia - Founder and Chief Executive, Arpan

#### 5. Supporting education through scholarship

The Company provides educational scholarships to five underprivileged students. Of these five, three children are pursuing school education at Plenum School, Himachal Pradesh, while two students are pursuing their Ph.D. programme in 'Conservation Science' through NCF.

#### 3. HEALTHCARE

- **1.** As part of the Cancer care programme, the Company had partnered with Tata Memorial Hospital (TMH) in FY2016 to support medical treatment of underprivileged children diagnosed with the ailment. Over 170 patients have benefitted from this programme till date. For over 75 years, the Tata Memorial Hospital in Mumbai has been amongst the leading cancer institutes, both nationally and globally, known for prevention, treatment, education and research in cancer.
- **2.** The Company partnered with Tata Medical Centre in FY2018 for supporting treatment of underprivileged children and youth at the hospital. Over 40 patients have been supported with treatment till date. Tata Medical Centre, Kolkata, is one of the foremost "not for profit" hospital established in May 2011, with the primary objective of cancer research, diagnosis and treatment.

- 3. The Company partnered with Genesis Foundation for Cardiac Care programme, in FY2017, to support treatment of heart-related ailments of underprivileged children. Over 38 children have been supported through this programme till date. Genesis Foundation, located in Gurugram, works towards providing quality health care to underprivileged and critically ill children.
- 4. The Company, in FY2019, partnered with Shrimad Rajchandra Sarvamangal Trust to provide medical treatment of critically ill infants at Shrimad Rajchandra Hospital. Established in 2003, the Hospital is located in Dharampur and works towards enhancing the quality of life of the marginalised society living in remote areas of Southern Gujarat.
- 5. The Company, in FY2019, partnered with Ekam Mumbai for its 'Medical Intervention Programme' to support children for surgery and other medical treatment. Ekam Foundation, Mumbai was incorporated in 2014 to provide medical interventions for child care. The Foundation aims to improve child morbidity and mortality rate by facilitating life-saving interventions to the underprivileged children.

"At Tata Medical Centre, Kolkata, we are grateful to ICICI Prudential Life Insurance for extending their support towards the treatment of cancer patients in the age group of 17-24 years. We believe this aid will enable us to promote our mission to encourage prevention, early diagnosis, treatment, rehabilitation and provide world-class treatment for cancer patients."

#### 4. ENVIRONMENTAL **SUSTAINABILITY AND ECOLOGICAL BALANCE**

In FY2019, the Company initiated a programme with WWF-India to prevent retaliatory killing of predators by supporting the underprivileged villagers financially for their loss of cattle. The financial support extended aims to soften the blow of losing a critical livelihood option. The programme will be implemented across WWF-India's priority tiger landscapes in India, namely

Satpuda Maikal landscape (Madhya Pradesh. Chhattisgarh and Maharashtra), Brahmaputra landscape (Assam), Western Ghats Nilgiris landscape (Tamil Nadu, Kerala, and Karnataka) and Terai Arc landscape (Uttarakhand, Uttar Pradesh and Bihar). The programme aims to benefit over 1,000 villagers/families annually.

#### **TO THE MEMBERS**

#### **ICICI Prudential Life Insurance Company Limited**

Your Directors have pleasure in presenting the 19th Annual Report of ICICI Prudential Life Insurance Company Limited (the Company) with the audited statement of accounts for the year ended March 31, 2019 (FY2019).

#### **PERFORMANCE**

#### **Industry in FY2019**

New business premium (NBP) for the industry, based on retail weighted received premium (RWRP), grew 9.0% from ₹ 634.70 billion in FY2018 to ₹ 691.83 billion in FY2019. The market share of private players increased from 56.2% in FY2018 to 58.0% in FY2019.

#### **Company in FY2019**

Our strategy is to create value for our stakeholders namely customers, employees and shareholders. Customer centricity continues to be at the core of everything we do. With our customer centric approach, we have seen improvement across the service parameters. Claim settlement ratio for individual death claims has increased from 97.9% in FY2018 to 98.6% for FY2019. Average time taken for settlement of claim reduced from 3.0 days in FY2018 to 2.3 days in FY2019. Our grievance ratio as well has improved from 92 in FY2018 to 72 for FY2019.

On the people side, we believe in building a talent pool by providing varied job experience within the organisation along with career growth opportunities. More than 90% of our senior management have served for more than 10 years in the organisation.

For our shareholders, our primary focus continues to be the growth of absolute value of new business (VNB) through the 4P strategy of premium growth, protection business growth, persistency improvement and productivity improvement targeted at improving cost ratios. We believe that this 4P strategy is appropriate in the context of the huge insurance opportunity in the country, coupled with our objective to grow the VNB.

**Premium growth:** The annualised premium equivalent (APE) for the Company increased from ₹ 77.92 billion in FY2018 to ₹ 77.99 billion in FY2019. In FY2019, the Company had a market share of 10.3% based on RWRP

**Protection business:** The Company continued to focus on the protection business, which grew by 61.9% from ₹ 4.46 billion in FY2018 to ₹ 7.22 billion in FY2019. New business sum assured grew by 32.5% to ₹ 4.43 trillion in FY2019.

**Persistency improvement:** Our continued focus on customer retention has resulted in an increase in retail renewal premium by 15.6% from ₹ 174.97 billion in FY2018 to ₹ 202.25 billion in FY2019. The 13th month persistency ratio<sup>1</sup> also improved from 86.8% in FY2018 to 87.4% in FY2019. Total premium collected by the Company grew by 14.3% from ₹ 270.69 billion in FY2018 to ₹ 309.30 billion in FY2019. The Company's assets under management at March 31, 2019 were ₹ 1,604,10 billion.

**Productivity improvement:** Total expenses increased from ₹ 34.75 billion in FY2018 to ₹ 41.94 billion in FY2019. The total cost to total weighted received premium (TWRP<sup>2</sup>) ratio increased from 13.7% in FY2018 to 15.0% in FY2019. The cost ratio for protection products is significantly higher than savings products, while they are value accretive in terms of value of new business. The total cost to TWRP ratio for savings business improved from 11.8% in FY2018 to 11.5% in FY2019.

Profit after tax (PAT) for the Company stood at ₹ 11.41 billion in FY2019 compared to ₹ 16.20 billion in FY2018. The decline in PAT is primarily on account of growth in the protection and annuity businesses, though these business are value accretive from the perspective of value of new business

Value of new business grew from ₹ 12.86 billion in FY2018 to ₹ 13.28 billion in FY2019, representing an increase of 3.3%.

Embedded value increased from ₹ 187.88 billion at March 31, 2018 to ₹ 216.23 billion at March 31, 2019.

A summary of key financial and business parameters is set out below:

#### **OUTLOOK FOR THE INDUSTRY AND THE COMPANY**

In India, several reforms have been implemented in recent years, including the goods and services tax (GST), the inflation-targeting framework, the Insolvency and Bankruptcy Code, and steps to liberalise foreign investment and make it easier to do business. Post demonetisation, there has been an increase in financialisation of household savings and this trend is expected to continue going forward as well. The life insurance industry is an important component of financial savings and is expected to gain from this shift in trend.

<sup>1</sup>As per IRDAI circular IRDA/ACT/CIR/035/01/2014 dated January 23, 2014 <sup>2</sup>TWRP: Total premium less 90% of single premium

## Directors' Report (Continued)

Recent events such as shift from physical savings to financial savings, digitisation and the improving customer proposition of insurance products. coupled with fundamental strengths of the Indian economy (high gross domestic product (GDP) growth, high savings and investment rate and favourable demography) are expected to provide continued fillip to the growth of the life insurance industry in India.

The Company would continue to focus on its objective of growing value of new business (VNB) through the 4P approach.

**Premium growth:** The Company would endeavour to grow premium

- Deepening penetration in under-served customer segments: The Company would continue to focus on broadening the customer base through initiatives spanning across both distribution and
- **Enhancing distribution:** The Company would strengthen its distribution through a closer mapping of distribution segments with customer segments and products. The company is also focused on expanding the distribution network through acquisition of new partners as well investing in creation of new sourcing channels.
- Focus on pension & annuity: The Company would continue to cater to the retirement savings need of customers while managing the investment risk appropriately.

**Protection business growth:** The Company is focused on expanding the health & protection business across both retail and group lines of business. This would be done by offering protection as an add-on to our savings products across channels, penetrating the online term insurance market and partnering with loan providers to offer coverage against loans.

**Persistency:** The Company would seek to drive persistency improvements across all durations by encouraging long term customer behaviour.

Productivity: The Company would focus on cost efficiency and in particular would leverage the digital platform to improve customer experience and efficiency of service operations.

#### **OUR REACH**

The Company reaches its customers through 508 offices in 446 locations as at March 31, 2019. On March 31, 2019, the Company had 14,099 employees and 170,572 advisors to cater to the needs of customers. The Company distributes its products through agents, corporate agents, banks, brokers, proprietary sales force (PSF) and online channels.

#### **PRODUCTS**

Broadly, all the Company's products can be categorised into savings and protection. Savings products are offered on three platforms - linked. participating and non-participating. These platforms differ in terms of choice of asset allocation, extent of charges apart from other parameters.

Life insurance cover offered is generally the same across all savings products i.e. 10 times annual premium.

Protection products are available on retail, group and credit life platforms. These products provide cover for life, disability, critical illness and accidental death. These are pure risk protection, low premium products.

#### **CLAIMS**

The Company has settled over 10,600 individual mortality claims in FY2019. The claims settlement ratio for the Company was 98.59%. For non-investigated claims, the settlement was completed within an average turnaround time of 2.34 days from the receipt of the last requirement as compared to 30 days allowed by the regulator.

#### **SUBSIDIARY**

The Company's wholly owned unlisted subsidiary, ICICI Prudential Pension Funds Management Company Limited (PFM) acts as a pension fund manager under the National Pension System (NPS) with the objective of providing a strategic platform to leverage the substantial pension opportunity in India due to the lack of formal retirement provisions for a large segment of the population.

During FY2019, the subscribers' funds managed by PFM have increased by 49.5% from ₹ 23,255.1 million at March 31, 2018 to ₹ 34,759.7 million at March 31, 2019. The PFM registered a loss of ₹ 17.2 million (previous year: loss of ₹ 6.6 million). The overall contribution of the subsidiary to the financial results of the Company is not significant currently as the subsidiary is still scaling up.

One of the major developments for the PFM this year is that the pension fund regulator, Pension Fund Regulatory and Development Authority (PFRDA), has granted the PFM, on its application, the license to act as Point of Presence (PoP) entity for distributing products under NPS with effect from February 13, 2019. The PFM is working towards setting up all necessary processes and systems to operationalise its activities as a PoP.

The Company will make available separate audited financial statements of the subsidiary company to any Member upon request. These documents/ details are available on the Company's website (www.iciciprulife.com) and will also be made available for inspection by any Member of the Company at its registered office. A statement containing salient features of the financial statements of the subsidiary company forms part of the financial statements of the Company.

#### **RURAL AND SOCIAL BUSINESS**

The Company has micro insurance retail products and group term products to cater to the protection need of the unorganised and economically vulnerable section of the society.

• The Company has provided risk cover to self help group (SHG) members predominantly in the rural areas of Tamil Nadu, Maharashtra, Karnataka & Rajasthan. These members belong to

**56** | Annual Report 2018-19 Annual Report 2018-19 | 57 **Prev** Next

- a group of micro entrepreneurs having homogeneous social and economic background, who come together to avail micro credit for financing their small and micro enterprises.
- The Company partners with micro finance institutions/ non-banking financial institutions (NBFCs) and extends group term cover to
- customers for covering their loss of income risk arising out of unfortunately and untimely demise.
- 204,975 policies were issued in rural areas, constituting 22.9% of total policy issuances. The Company also covered 1,095,830 lives as a part of its 'social sector' business.

The AUM increased from ₹ 1,395.32 billion at March 31, 2018 to ₹ 1.604.10 billion at March 31, 2019.

#### **Dividend and dividend distribution policy**

The operations have resulted in a profit after tax of ₹ 11.41 billion as compared to a profit after tax of ₹ 16.20 billion for the previous year. The decline in profit is primarily on account of growth in protection and annuity businesses, which have been our focus areas. The new business strain of protection and annuity is significantly higher than other products. However, based on present value of expected future profits, both protection and annuity business are value accretive even after allowing for the new business strain. The Board had approved payment of interim dividend of ₹ 1.60 per equity share at its Meeting held on October 23, 2018. Further, the Board at its Meeting held on April 24, 2019 has recommended a final dividend of ₹ 1.55 per equity share. Total dividend for the year is ₹ 3.15 per equity share aggregating to ₹ 4.52 billion for FY2019.

certificate signed by the Managing Director & CEO, based on the certification from respective functional heads, is placed at the Board Audit Committee on a quarterly basis.

#### **Ind AS implementation**

International Accounting Standard Board (IASB) issued IFRS 17 Insurance Contracts on May 18, 2017, effective mandatorily from January 1, 2021. Subsequently, Insurance Regulatory and Development Authority of India (IRDAI) reviewed the Ind AS implementation and noted that Ind AS in its current form is likely to lead a mismatch in asset & liability accounting, along with volatility in financial statements of insurance companies with double transition. Therefore, IRDAI through circular dated June 28, 2017 deferred the implementation of Ind AS for a period of two years with applicability for accounting periods beginning from April 1, 2020.

Further, IRDAI through its order dated August 21, 2017 constituted a working group on IFRS 17 primarily to review the standard and identify relevant areas/aspects which require suitable adoption in Indian context and changes in regulations/guidelines. The working group released its report dated October 31, 2018 containing the recommendations and draft regulations on preparation of financial statements applicable from accounting periods commencing on or after April 1, 2020. Accounting Standards Board (ASB) of ICAI issued the exposure draft of Ind AS 117 Insurance Contracts (Ind AS equivalent standard of IFRS 17) on February 12, 2018.

International Accounting Standard Board (IASB) on November 14, 2018 proposed a deferral of IFRS 17, Insurance Contracts to annual periods beginning on or after January 1, 2022 considering the concerns and implementation challenges received from various stakeholders. Further, IASB also proposed for an additional one year exemption for insurers to apply IFRS 9, Financial Instruments from annual periods beginning on or after January 1, 2022.

Consequently, to review the manner of implementation of Ind AS in insurance sector, IRDAI gathered inputs from insurance companies on the level of preparedness of Ind AS. Additionally, the insurance companies have requested IRDAI to align Ind AS implementation with IFRS 17 adoption globally.

#### Risk management

The Company recognises that risk is an integral element of the business and managing risk is essential for generating shareholder value. The risk governance structure of the Company consists the Board, the Board Risk Management Committee (BRMC), the Executive Risk Committee (ERC) and its sub-committees. The Board approved risk policy details identification, measurement, monitoring and control standards relating to the various individual risks, namely investment (market, credit and liquidity), insurance and operational risks.

Investment risk is the risk arising out of variations in the level or volatility of market prices of assets and financial instruments. including the risk arising from any mismatch between assets and liabilities, due to external market and economic factors. The Company faces limited liquidity risk due to the nature of its liabilities. The key mitigation approaches for this risk are as follows:

- (a) Product approval process: Launching new products can significantly alter the risk profile of the Company's Balance Sheet. Investment risks inherent in the new products or significant modifications to existing products are identified at the product design stage and products are launched only after approval by the ERC.
- (b) Asset Liability Management (ALM): The Company has detailed Investment Specifications that govern the investment strategy and limits for each fund depending on the profile of the liability backed by those assets. For each category of products, the Investment Specifications specify limits to permissible exposures to various asset classes, duration guidelines for fixed income instruments and minimum investment in
- (c) Exposure limits have been defined for companies, groups and industries in accordance with IRDAI guidelines and the Company's internal Investment Policy. The Company restricts investments primarily to securities rated AA and above.
- (d) The Company has a liquidity contingency plan in place.

#### Insurance risk

Insurance risk is the risk arising because of variance to the best estimate or because of random fluctuations in the frequency, size and timing of insurance liabilities. Insurance risk comprise the following components: mortality, morbidity, persistency and expense risk. These risks are mitigated through:

- (a) Product approval process: Insurance risks inherent in the new products or significant modifications to existing products are identified at the product design stage and products are launched only after approval by the ERC. The Company in its product design incorporates product features and uses appropriate policy wordings to mitigate insurance risk.
- (b) Reinsurance: The Company uses appropriate reinsurance arrangements, including catastrophe reinsurance, to manage insurance risk. The arrangements are with select and financially sound reinsurers. The Company's reinsurance exposures are considered and approved by the ERC periodically.
- (c) Underwriting and claims controls: Underwriting and claims policies and procedures are in place to assess and manage

Investment risk

mortality and morbidity risks. The Company seeks to minimise these risks by diversifying its business portfolio and adhering to appropriate and segmented underwriting norms. The Company conducts periodic reviews of both underwriting and claims procedures.

- Experience analysis: The Company conducts its experience analysis regularly to ensure that corrective action can be initiated at the earliest opportunity and that assumptions used in product pricing, reserving and embedded value reporting are in line with experience. The Company actively monitors its claims experience, persistency levels and expense ratios.
- Aligning key performance indicators: The Company uses appropriate key performance indicators for different levels of hierarchy in sales and operations to align interests and ensure adequate focus on insurance risk specially, persistency and expense.

#### 3. Operational risk:

Operational risk is the risk of loss, resulting from inadequate or failed internal processes, people and systems, or from external events.

The Company uses the following approaches to manage the risk:

- (a) The Company develops and monitors mitigation plans for high risk items identified through the risk control self-assessment (RCSA) done by each business function, loss events and/or audit findings
- The Company continuously monitors the internal loss events and ensures adequate mitigation for high impact events to avoid repeat instances
- The Company actively promotes a risk awareness culture by improving understanding through communication. It further engages with the law enforcement agencies to create awareness on various insurance frauds and emerging issues
- Fraud management: The Company follows both a proactive and reactive approach to manage fraud. Proactive management is done by using triggers to identify suspected frauds and through random sample checks. Reactive management is done through incident management. Investigation is done for identification of process/system failures and/or identification of responsible internal/external parties. - External consultants whose advice has been sought, the body by which they were commissioned and in what areas of the remuneration process
- The Company did not take advice from an external consultant on any area of remuneration during the year ended March 31, 2019.
- iii) Scope of the Company's remuneration policy (eg. by regions, business lines), including the extent to which it is applicable to foreign subsidiaries and branches
  - The Compensation Policy of the Company as last amended and approved by the BNRC and the Board at its Meeting held on April 25, 2017, which covers all employees of the Company.
- iv) Type of employees covered and number of such employees All employees of the Company are governed by the compensation policy. The total number of permanent employees governed by the compensation policy of the Company at March 31, 2019 was 14,099.
- Key features and objectives of remuneration policy

The Company has under the guidance of the Board and the BNRC, followed compensation practices intended to drive meritocracy within the framework of prudent risk management. This approach has been incorporated in the Compensation Policy, the key elements of which are given below:

<sup>&</sup>lt;sup>1</sup> Variable pay includes the deferred component of the variable pay of previous years as approved by IRDAI

<sup>&</sup>lt;sup>2</sup> Perguisite excludes perguisites on exercise of stock option. Considering the value of stock option exercised during fiscal 2019 does not constitute remuneration paid to the whole time directors for fiscal 2019 the same is not considered here.

#### Effective governance of compensation

The BNRC has oversight over compensation. The BNRC defines key performance indicators (KPIs) for the organisation and the performance threshold for bonus based on the financial and strategic plan approved by the Board. The KPIs include both quantitative and qualitative aspects. The BNRC assesses organisational performance as well as the individual performance of WTDs and equivalent positions. Based on its assessment, it makes recommendations to the Board regarding compensation for WTDs and equivalent positions and bonus for employees, including senior management and key management personnel.

#### Alignment of compensation philosophy with prudent risk taking

The Company seeks to achieve a prudent mix of fixed and variable pay, with a higher proportion of variable pay at senior levels. Compensation is sought to be aligned to both financial and non-financial indicators of performance including aspects like risk management and customer service. In addition, the Company has an employee stock option scheme aimed at aligning compensation to long term performance through stock option grants that vest over a period of time.

Whether the BNRC reviewed the Company's remuneration policy during the past year, and if so, an overview of any changes that were made

The Company has a Board approved Compensation policy on remuneration of non-executive Directors and Managing Director/Chief Executive Officer/wholetime Directors.

#### Description of the ways in which current and future risks are taken into account in the remuneration processes

• To ensure effective alignment of compensation with prudent risk taking, the Company shall take into account adherence to the risk framework to ensure remuneration is adjusted for all types of risks in conjunction with other pre-defined performance objectives. Remuneration

- payout shall be sensitive to the time horizon of the risks involved and symmetric to risk outcomes.
- Compensation is aligned to both financial and nonfinancial indicators of performance including controls like risk management, process perspective, customer perspective and others.
- These business objectives are balanced in nature, and comprise a holistic mix of financial, customer, people. and process/quality and compliance objectives.
- Acts of gross negligence and integrity breach are covered under the purview of the compensation policy.
- The deferred part of the variable pay (performance bonus) will be subject to malus, under which, the Company will prevent vesting of all or part of the variable pay in the event of an enquiry determining gross negligence or integrity breach.
- The quantum of bonus does not exceed a certain percentage (as stipulated in compensation policy) of total fixed pay in a year, for wholetime Directors if the quantum of bonus exceeds a pre-defined threshold percentage of the total fixed pay, a part of the bonus is deferred and paid over a period.

#### c. Description of the ways in which the Company seeks to link performance during a performance measurement period with levels of remuneration

The Company follows a philosophy of meritocracy, which is the relative differentiation of employees based on performance delivered. The design of the variable pay is linked to the individual employee's performance rating which is arrived at basis assessment of performance delivered against a set of pre-defined performance objectives. These objectives are balanced in nature, and comprise a holistic mix of financial, customer, people, and process/quality and compliance objectives. To ensure effective alignment of compensation with prudent risk parameters, the Company will take into account various risk parameters along with other pre-defined performance objectives of the Company.

#### **Employee Stock Option Scheme (ESOS)**

The Company granted options to its employees under its Employee Stock Option Scheme, prior to listing, since approval of its Employee Stock Option Scheme – 2005. This pre-IPO scheme shall be referred to as 'Scheme'. The Scheme has six tranches namely Founder, 2004-05, 2005-06, 2006-07, Founder II and 2007-08, pursuant to which shares have been allotted and listed in accordance with the in-principle approval extended by the stock exchanges. The Scheme was instituted vide approval of its Members at the Extra-Ordinary General Meeting (EGM) dated March 28, 2005 and subsequently amended by the Members of the Company vide its EGM dated February 24, 2015.

The Scheme was last ratified and amended by the members of the Company at its Annual General Meeting held on July 17, 2017 which is in compliance with the SEBI (Share Based Employee Benefits) Regulations, 2014 (referred to as the 'Revised Scheme').

Further, the Board Nomination and Remuneration Committee (BNRC) and the Board held on April 24, 2019, with the objective to align the employees' interests with those of shareholders, has approved the amendment to the definition of "Exercise Period" to read as "Exercise Period" would commence from the date of vesting and will expire on completion of such period not exceeding five years from the date of vesting of Options as may be determined by the Board Nomination & Remuneration Committee for each grant.

The amendment is not intended to impact any grants made earlier. The revision to the definition would come into effect after approval by Members at the ensuing annual general meeting. There are no other changes proposed to the existing terms of the Revised Scheme.

As per the Revised Scheme the aggregate number of shares issued or issuable since March 31, 2016 pursuant to the exercise of any options granted to the eligible employees issued pursuant to the Scheme or any other stock option scheme of the Company, shall not exceed 2.64% of the number of shares issued as on March 31, 2016; which pursuant to the Scheme was capped at 3% of the issued capital of the Company as on the date of grant(s). Further, pursuant to the Revised Scheme the maximum number of options that can be granted to any eligible employee is restricted to 0.1% of the issued Shares of the Company at the time of grant of Options, which pursuant to the Scheme was 1% of the issued capital of the Company to any eligible employee. Both, the Scheme and the Revised Scheme, provides for a minimum period of one year between the grant of options and vesting of options. Shares are allotted to all those who have exercised their options, as granted by the Board of the Company and/or the BNRC in accordance with the criteria ascertained pursuant to the Company's Compensation and

Pursuant to the SEBI (Share Based Employee Benefits) Regulations, 2014, the disclosures are available on the website of the Company https://www.iciciprulife.com/about-us/investor-relations/ financial-information.html.

The Company follows intrinsic value method and hence there was no charge in the Revenue Account and Profit and Loss account on account of modification of the Revised Scheme.

#### ANNUAL REPORT ON CORPORATE SOCIAL **RESPONSIBILITY ACTIVITIES**

1. Corporate Social Responsibility (CSR) has been a long-standing commitment at the ICICI Group and forms an integral part of the Company's activities. The Group's Contribution to social sector development includes several pioneering interventions, and is implemented through the involvement of stakeholders within the Company, the Group and the broader community. ICICI Foundation for Inclusive Growth (ICICI Foundation) was established in 2008 by ICICI Bank with a view to significantly expand the ICICI Group's activities in the area of CSR. Over the past few years ICICI Foundation has developed significant projects in specific areas, and has built capabilities for direct project implementation as opposed to extending financial support to other organizations.

The Company's objective is to proactively support meaningful socioeconomic development in India and enable a larger number of people to participate in and benefit from India's economic progress. This is based on the belief that growth and development are effective only when they result in wider access to opportunities and benefit a broader section of society.

The CSR Policy of the Company sets the framework guiding the Company's CSR activities. It outlines the governance structure, operating framework, monitoring mechanism, and CSR activities that would be undertaken. The Board CSR Committee is the governing body that articulates the scope of CSR activities and ensures compliance with the CSR Policy. The Company's CSR activities are largely focused in the areas of education, skill development and sustainable livelihoods, healthcare, financial inclusion and other activities as the Company may choose to select in fulfilling its CSR objectives. The Company supports programs and initiatives keeping "protection" as the core proposition and cornerstone of all its CSR initiatives as "protection" is core to the Company's business.

The CSR Policy was approved by the Board CSR Committee in October 2014, and subsequently was put up on the Company website. Web link for the Company's CSR Policy is as under:

http://www.iciciprulife.com/public/About-us/Corporate-Social-Responsibility.htm/ICICI Prudential Life CSR Policy.pdf

#### 2. Composition of the Board CSR Committee

The Company's Board CSR Committee comprises of three nonexecutive directors including two independent directors. The Board CSR Committee is chaired by an independent director. The composition of the Board CSR Committee is set out below:

Chairman: Mr. Dilip Karnik (Independent Director)

Member: Mr. Dileep Choksi (Independent Director)

Member: Mr. Raghunath Hariharan (Non-executive Director nominated by Prudential Corporation Holdings Limited)

The functions of the Board CSR Committee include: formulation and recommendation to the Board of a CSR Policy indicating the activities to be undertaken by the company and recommendation of the amount of the expenditure to be incurred on such activities; reviewing and recommending the annual CSR plan to the Board; monitoring the CSR activities, implementation of and compliance with the CSR Policy; and reviewing and implementing, if required, any other matter related to CSR

### 3. Average net profit of the company for last three

The average net profit of the company for the last three financial years calculated as specified by the Companies Act 2013, for the purpose of the CSR requirement, was ₹ 11.264.2 million.

#### 4. Prescribed CSR Expenditure (two per cent of the amount as in item 3 above)

The prescribed CSR expenditure requirement for FY2019 is ₹ 225.3 million (FY2018 ₹ 230.1 million).

#### Details of CSR spent during the financial year

#### (a) Total amount to be spent for the financial year

Section 135 of the Companies Act 2013 requires that the company spends at least two per cent of the average net profits made during the three immediately preceding financial years towards corporate social responsibility (CSR). The computation of net profit is determined by section 198 of the Companies Act, 2013 and CSR Rules, 2014. Based on the above, the Company was required to spend ₹ 225.3 million (FY2018 ₹ 230.1 million) for FY2019 towards CSR projects. The Company has spent ₹ 226.9 million for FY2019 (FY2018 ₹ 230.5 million) for CSR programs.

### **Management Discussion and Analysis**

#### I. INDUSTRY AND BUSINESS REPORT

#### Macroeconomic environment and outlook

#### **Growth and Inflation**

The global GDP growth rate for 2018 was estimated at 3.6%<sup>1</sup>. US economy led the growth in developed markets with an estimated GDP growth rate of 2.9%, while India and China led the growth within developing economies at 7.0%<sup>2</sup> and 6.6%<sup>1</sup> respectively.

Retail inflation based on consumer price index (CPI) moderated in FY2019 with average inflation at 3.4% compared to 3.6% in FY2018. The fall in inflation was mainly driven by a fall in food inflation which averaged at 0.2% year on year in FY2019 compared to 1.8% year on year in FY2018.

#### **Financial markets**

FY2019 was characterised by high volatility in bond yields and heightened credit concerns in the market. The government bond yields rose sharply by 100 basis points in first half of the financial year as macroeconomic variables such as crude oil prices, trade deficit and rupee depreciation caused concern for financial markets. RBI hiked the policy rates by 50 basis points during this period. However, in the second half of the financial year, reduction in oil prices, slowing growth and inflation, Open Market Operations (OMOs) by RBI and change in stance of global central banks helped revive the market sentiment leading to fall in government bond yields. Simultaneously, RBI also cut policy rate by 25 basis points. The RBI policy stance was changed from "neutral" in April 2018 to "calibrated tightening" in October 2018 and again changed to "neutral" in February 2019.

Despite several challenges including global trade tensions, high crude oil prices and issues relating to certain domestic sectors, the Indian equities market emerged as one of the best performing markets globally in FY2019. The Nifty 50 index gained 15%, leading to highest growth since FY2010. This was on the back of strong domestic flows during FY2019 and strong FII inflows in March 2019.

Foreign Direct Investment (FDI) from April 2018 to December 2018 was recorded at USD 33.494 billion compared to USD 35.944 billion during the same period last year, registering a drop of 7%. Foreign Institutional Investors (FII) remained net sellers for most part of FY2019, but that changed starting February 2019 and they ended the year turning net buyers of Indian equity worth USD 1.49 billion<sup>5</sup>

The Indian rupee depreciated by 8% against USD in FY2019 (compared to an appreciation of 4% in FY2018). The real effective exchange rate (REER) which measures the Indian currency against a basket of 36 currencies depreciated by 5% in FY2019.

#### Financial savings

The household sector continued to account for the predominant share (over 50%) of overall savings<sup>7</sup>. Gross financial savings as a percentage of household savings increased from 54.8% in FY2017 to 63.6% in FY2018. Within the financial savings (excluding currency) there has been a shift towards shares/ debentures/ mutual funds and share of insurance fund increased from 20.3% in FY2017 to 23.3% in FY2018.

Particulars <sup>8</sup>	FY2016	FY2017	FY2018
Nominal GDP (₹ trillion)	137.64	152.54	167.73
Household savings as % of GDP	18.0%	17.2%	17.5%
Gross financial savings as % of Household saving	60.5%	54.8%	63.6%
Insurance share of financial assets (excluding currency)	20.5%	20.3%	23.3%

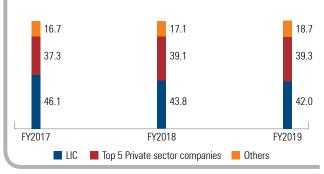

With the reforms taking effect, India seems poised towards a sustained growth trajectory fuelled by favourable demographics, rising per capita income, digitalisation, moderate inflation and higher savings.

#### **Insurance industry structure and developments**

The size of the Indian life insurance sector was ₹ 4.6 trillion<sup>9</sup> on a total premium basis in FY2018, making it the tenth largest life insurance market in the world and the fifth largest in Asia<sup>10</sup>. The total premium in the Indian life insurance sector grew at a CAGR of approximately 15% between FY2002 and FY2018 outpacing the GDP CAGR of 13% during the same period. Based on retail weighted received premium (RWRP), new business premium of the industry has grown at a CAGR of 11% during FY2002 to FY2019.

The Indian Life Insurance industry has 24 companies including Life Insurance Corporation of India (LIC). The top 5 private sector companies contribute to around 39.3% of the market.

#### **Market Share (%)**

Based on RWRP, new business premium of the industry grew by 9.0% in FY2019. LIC and the private sector grew by 4.5% and 12.5% respectively.

#### **Distribution Trends:**

FY2017

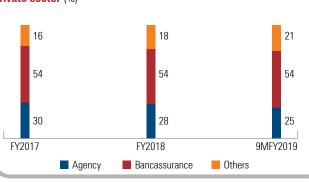

The Agency channel continues to be the predominant channel for the industry, mainly driven by LIC. For private insurers, the share of agency channel has reduced from 28% in FY2018 to 25% in 9MFY2019. The share of the Bancassurance channel has remained at 54% in 9MFY2019 similar to FY2018 levels for private companies. Direct sales through proprietary sales force and internet are becoming increasingly relevant.

#### Contribution of the life insurance industry

Next

In Indian financial services, the life insurance industry is uniquely positioned to cover a range of customer needs. The industry can offer a variety of savings products across fixed income and equity platforms. It can also offer annuity, term plans and defined benefit health plans. The life insurance industry acts as a risk manager by providing cover against mortality and morbidity risks. Life insurance products ensure that the financial goals of an individual are met, irrespective of occurrence of mortality or morbidity events. As of December 2018, the number of lives covered through Individual policies was 253 million while lives covered through group policies were 389 million.

#### Private sector (%)

The Indian life insurance industry plays a key role in channelising household savings to the financial markets. The industry has been able to leverage its extensive distribution network throughout the country to provide long term funds to both debt and equity markets. The life Insurance industry also provides long term capital needed for infrastructure projects. Details of investments made in the infrastructure sector by the industry are as follows:

₹ billion	FY2017	FY2018	9IVIFY2019
nfrastructure/Housing investments	3,440.75	3,760.97	3,705.80

#### **Regulatory updates and developments**

The key regulatory updates during FY2019 are as detailed below:

#### 1. Customer KYC:

The Supreme Court vide its judgment dated September 26, 2018 held Aadhaar authentication by body corporates as unconstitutional. IRDAI through its directions dated January 29, 2019, has allowed insurance companies to accept voluntary submission of Aadhaar by appropriately masking the first 8 digits. Further, the Prevention of Money Laundering Rules, 2019 made PAN/ Form 60 mandatory for all customers.

#### Insurance Regulatory and Development Authority of India (IRDAI) Reinsurance regulations:

IRDAI has introduced a shift from product level to portfolio level retentions and has withdrawn the right of first refusal from Indian reinsurers. The regulation has introduced the concept of alternative risk transfer and domestic insurance pools for Indian insurers. The regulations require insurers to file with IRDAI a board approved underwriting policy for inward re-insurance business.

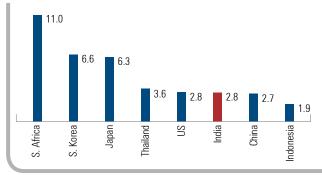

#### **Opportunities and Threats**

#### **Opportunities**

#### Insurance underpenetration

India continues to be an underpenetrated insurance market with a life insurance penetration (premium as % of GDP) of 2.8% in FY2018 as compared to a global average of 3.3%11. At USD 55 in FY2018, the insurance density (premium per capita) in India also remains very low as compared to other developed and emerging market economies. The macroeconomic factors such as growth in GDP and rise in per capita income, coupled with India's young and working population, higher financial saving as a percentage of GDP, increasing urbanisation and increase in digitalisation would continue to aid the growth of the Indian life insurance sector.

#### Premium as percentage of GDP<sup>1</sup> (%)

#### **Favorable demographics**

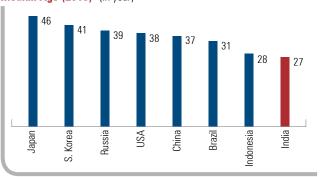

According to United Nations estimates, the working population is expected to increase by 26% by the year 2030. With a median age of 27 years, India has a very young population, especially compared to countries such as Japan, U.S.A, and China. These factors are likely to increase demand for life insurance products.

#### Increasing urbanisation

According to United Nations Population division estimates, India's urban population is expected to increase by 42% by the year 2030. Increased urbanisation can lead to improvement in standard of living and better access to financial products such as life insurance.

### Management Discussion and Analysis (Continued)

#### Financial savings

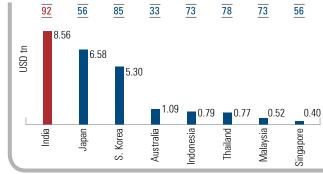

India has a large pool of household savings and in FY2018, the ratio of household savings to GDP was 17.5%. The share of gross financial savings as a proportion of household savings increased from 54.8% in FY2017 to 63.6% in FY2018. This is expected to rise further, as stable inflationary trends and positive real interest rates generally diminish the relative attractiveness of physical savings such as investments in gold and real estate. The share of life insurance as a proportion of financial savings (excluding currency) in India reached its peak level at 29.0% in FY2010. However, with regulatory changes in the sector and a downturn in the economic environment. the share of life insurance declined sharply to the lowest share of 18.8% of financial savings in FY2014. In FY2018, the share of life insurance increased to 23.3%, aided by the improving customer value proposition of insurance products.

#### High protection gap

According to Swiss Re, Mortality Protection Gap for India is at USD 8.56 trillion which is high compared to the rest of the world. Protection coverage ratio which is the ratio between protection gap and protection needs is also very high for India. Sum assured to GDP is also a measure of protection coverage in a country and sum assured to GDP ratio is significantly lower in India compared to the rest of the world. This provides significant opportunities for Indian life insurance companies to expand their protection business.

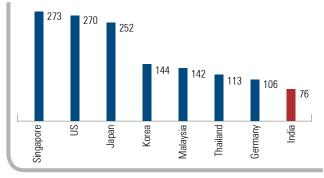

Retail credit has been growing at a CAGR of 16.3% from FY2013 to FY2018. This provides an additional opportunity for the industry for the credit cover business. This product provides mortality/morbidity cover to borrowers.

#### Increasing internet and mobile penetration

According to Boston Consulting Group report, online insurance is expected to grow 20 times by 2020, while digital influence in terms of number of buyers engaging in pre purchase and post purchase activity online is expected to grow to 50% from the current 12% of all buyers. With the spread of internet and mobile technology, new channels for distribution have come to the fore. Further, the advances in data analytics have given the opportunity to insurance companies to reach new consumer segments, establish better communication channel, provide new services beyond traditional insurance and do more accurate risk assessment and pricing.

#### Strategy and performance brief

Our primary focus continues to be to grow the absolute Value of New Business (VNB) through the 4P strategy of Premium growth, Protection business growth, Persistency improvement and Productivity improvement targeted at improving cost ratios. We believe that this 4P strategy is appropriate in the context of the large insurance opportunity in the country, coupled with our objective to grow the VNB.

**Premium growth:** We would endeavor to grow premium through customer centric product portfolio and simplified on-boarding process. We would continue to focus on broadening the customer base through initiatives spanning across both distribution and products. From a distribution perspective we are focused on expanding the network and strengthen our reach through a closer mapping of distribution segments with customer segments and products. Our Annualised Premium Equivalent (APE) grew from ₹ 77.92 in FY2018 by 0.1% to ₹ 77.99 billion in FY29019.

**Protection business growth:** We are focused on expanding the health & protection business across both retail and group lines of business. This would be done by offering protection as an add-on to our savings products across channels, penetrating the online term insurance market and partnering with loan providers to offer coverage against loans. During the year, the protection APE recorded a growth of 61.9% from ₹ 4.46 billion in FY2018 to ₹ 7.22 billion in FY2019.

Total	2.60	4.46	7.22

**Persistency improvement:** Maintaining a high level of persistency is critical to drive value for both customers as well as shareholders. We would seek to drive persistency improvements across all cohorts by encouraging long term investment behavior. Our 13th month persistency improved to 87.4% for FY2019 as compared to 86.8% in FY2018. The 49th month persistency improved to 65.2% in FY2019 as compared to 64.2% in FY2018.

Productivity improvement targeted at improving cost ratios: Technology and process re-engineering have been at the centre of our efforts to improve cost ratios. We would continue to leverage the digital platform to improve customer experience and efficiency of our service operations. The cost to total weighted received premium (TWRP) ratio stood at 15.0% in FY2019 compared to 13.7% in FY2018.

Particulars	FY2017	FY2018	FY2019
Cost/TWRP	15.1%	13.7%	15.0%
Cost / Average AUM	2.8%	2.6%	2.8%
Cost/TWRP (Savings LOB)	13.3%	11.8%	11.5%

#### Value of New Business (VNB)

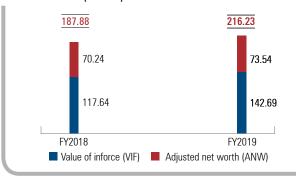

Our VNB increased from ₹ 12.86 billion in FY2018 to ₹ 13.28 billion in FY2019 showing a growth of 3.3% and VNB margin improved from 16.5% in FY2018 to 17.0% in FY2019. VNB for protection and savings is ₹ 7.89 billion and ₹ 5.40 billion respectively in FY2019.

#### Value of New Business (VNB) (₹ billion)

Embedded Value is sum of the Company's net worth and the present value of all future profits to shareholders from the existing book of the Company (including new business written in the year). Our embedded value increased from ₹ 187.88 billion at March 31, 2018 to ₹ 216.23 billion at March 31, 2019, showing a growth of 15.1%.

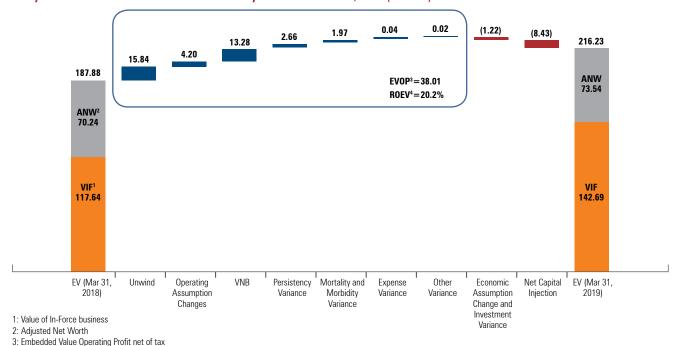

#### **Embedded Value** (₹ billion)

Key factors which have contributed to the growth in embedded value are the value added by new business written during the year and positive variances in respect of operating assumptions. The significant operating parameters are mortality, persistency and expenses. A large part of the variance is due to mortality and persistency.

### Management Discussion and Analysis (Continued)

#### Analysis of movement of Embedded Value for the year ended March 31, 2019 (₹ billion)

The operating assumption change for the year is predominantly due to true up impact of effective tax rate, reduction in maintenance expenses and reduction in surrender rates beyond 5 years for unit-linked business. Embedded value operating profit (EVOP) increased from ₹ 36.80 in FY2018 to ₹ 38.01 in FY2019. Return on EV was 20.2% in FY2019.

#### Solvency

We have a solvency ratio of 214.9% at March 31, 2019, compared to the regulatory minimum required level of 150%.

#### **Company outlook**

4: Return On Embedded Value net of tax

We expect favorable demographics, rise in the working population, improving per capita income, increasing urbanisation and shift towards household financial savings to continue to provide strong potential for growth in premium.

The large protection gap in India coupled with a low sum assured to GDP ratio suggest significant opportunities for the protection business. Retail credit growth provides an ample opportunity for the credit protect business. We expect to be able to leverage both these trends to grow our protection business at a multiple of our savings business growth rate.

Through various customer awareness initiatives, we expect to drive continued improvement in persistency and quality parameters that will ultimately help customers get the intended benefits from their policies.

We will continue to leverage technology for process re-engineering and to provide best in class service to our customers. We expect these initiatives to result in improving cost ratios for the business.

Mission Insure India - Life Insurance For All - More Than Just Peace Of Mind

#### **Risks and concerns**

Indian insurance industry is highly competitive with 24 companies

Indian consumer demands are changing continuously which requires companies to modify their offering in alignment with customer needs. This poses an opportunity as well as risk to the industry as inability to meet the consumer demand would hamper the growth.

Some of the macroeconomic factors which could be risk for the industry are:

- 1) Slowdown in the GDP and GDP per capita growth rates
- Global slowdown of the financial market and economies contributing to weakness in the Indian financial and economic environment
- Superior return on physical savings instrument
- Inferior fund performance in comparison to other savings instrument
- 5) Changes in tax rate structure for the industry

The Company recognises that risk is an integral element of the business and managed acceptance of risk is essential for generation of shareholder value. The Company has instituted an enterprise risk management framework which details the governance and management of all aspects of risks that we face. Details of our Enterprise Risk Management Framework are included as section Enterprise Risk Management on page 126-131.

### Management Discussion and Analysis (Continued)

#### II. DISCUSSION ON FINANCIAL PERFORMANCE AND ANALYSIS OF FINANCIAL STATEMENTS

#### A. Overview of Lines of Business (LOB)

The Company operates in various lines of business. A brief description of each line of business is given below:-

- 1. Participating products Product where the policyholder is entitled to at least 90% share of the surplus emerging in participating fund and the remaining belongs to the shareholders. The participating fund is managed by the Company and the surplus emerging in the fund is added back to the policies in the form of bonuses. Shareholders' profits arising on participating business depend on the total bonuses declared to policyholders on an annual basis. Currently shareholders' profit is one-ninth of the bonus declared to the policyholders. The level of bonuses declared to policyholders is influenced by the actual returns on investments and the expectation of future rates of return. The Company has Par life and Par pension line of business.
- 2. Non-participating non-linked products These products offer pre-defined benefit at inception for specified events. Further, the policyholder is not entitled to any surplus arising from the investment fund. Surplus arising in case of non-participating business is transferred to shareholders account based on the recommendation of the Appointed Actuary. Non-par non-linked products include endowment assurance, term assurance, annuity, health, variable insurance plan etc.

#### a. Non par

**Endowment assurance -** An endowment assurance is a contract to pay benefit on the life assured surviving the stipulated date or on death of the life assured before maturity.

**Term assurance -** A contract to pay an assured amount on the death of the insured during the term of the policy.

#### b. Annuity

Annuities provide for a series of guaranteed payout to the annuitant at regular intervals for lifetime of the annuitant.

#### • Health

It provides fixed benefit on specified health events like on hospitalisation, on diagnosis of an illness, on undergoing a surgery or procedure etc.

#### d. Variable insurance product (Life & Pension)

Products where the benefits are partially or wholly dependent on the performance of an approved external index / benchmark.

### Management Discussion and Analysis (Continued)

Of the above, protection business includes term assurance and health line of business for both retail and group.

3. Non-participating linked products - These products provide returns which are directly linked to performance of an approved index or value of the underlying assets. The investment risk in these products is borne by the policyholder. The products have a transparent charge structure, including charge for either life cover or health cover. Surplus arising in case of non-participating linked business is transferred to shareholders account based on the recommendation of the Appointed Actuary. The Company has linked life, pension, health & group line of business.

#### B. Standalone financial statements

#### a. Results from operations:

The Company's financial statements include Revenue account (also known as policyholders' account) and Profit and loss account (also known as shareholders' account). The Revenue account contains income and expenses relating to policyholders, and the surplus generated in this account is appropriated to the Profit and loss account based on the recommendation of the Appointed Actuary. A deficit in any line of business

in the Revenue account is funded from the Profit and loss account. Other than the transfers to and from the Revenue account, the Profit and loss account contains the income and expenses pertaining to shareholders. Surplus as per Revenue account, not appropriated to Profit and loss account, is held as Funds for future appropriations (FFA) which is shown in the Balance Sheet. Funds for Future Appropriation comprise funds which have not been explicitly allocated either to policyholders or to shareholders at the balance sheet date.

Line of business disclosed in Revenue account is as per the requirements of IRDAI regulations. However, for analysis of our Revenue account, it can be viewed from three broad lines of business as given above i.e., participating, non-participating (including variable insurance product) and linked. Shareholders' profits in participating business depend on the total bonuses declared to policyholders on an annual basis. Currently one-ninth of bonus declared to policyholders is transferred to shareholders. In case of non-participating business, profit arises primarily from premium and investment income net of expenses, claims and policyholders liabilities whereas in case of linked business, profit primarily arises from charges levied on the policyholders fund net of expenses, claims and policyholders liabilities

Gross total premium	73.56	178.57	18.56	270.69	69.78	205.65	33.87	309.30

The gross premium increased by 14.3% from ₹ 270.69 billion in FY2018 to ₹ 309.30 billion in FY2019 primarily on account of an increase in retail renewal collection and group business. The retail first year premium decreased from ₹ 73.56 billion in FY2018 to ₹ 69.78 billion in FY2019 and the single premium increased from ₹ 10.46 billion in FY2018 to ₹ 11.62 billion in FY2019. Consequently, new business premium (First year premium & Single premium) decreased from ₹ 84.02 billion in FY2018 to ₹ 81.40 billion in FY2019 primarily on account of lower unit-linked business offset in part by an increase in protection and annuity business under Non Par line of business. The retail renewal premium increased by 15.6% from ₹ 174.97 billion in FY2018 to ₹ 202.25 billion in FY2019 primarily on account of better persistency and customer service. The total group premium increased from ₹ 11.70 billion in FY2018 to ₹ 25.65 billion in FY2019 primarily on account of an increase in group term & credit life business.

#### 2. Reinsurance ceded (Revenue account)

Reinsurance premium increased by 36.0% from ₹ 2.58 billion in FY2018 to ₹ 3.51 billion in FY2019 primarily on account of an increase in protection business from retail and group segment.

Investment income (net)	112.57	102.14

Income from investments decreased from ₹ 112.57 billion in FY2018 to ₹ 102.14 billion in FY2019 primarily on account of decrease in investment income of unit-linked portfolio from ₹ 87.30 billion in FY2018 to ₹ 72.52 billion in FY2019. The investment income for unit-linked portfolio is directly passed on to the policyholders with corresponding changes in fund reserve. Investment income of other than unit-linked portfolio increased from ₹ 25.27 billion in FY2018 to ₹ 29.62 billion in FY2019 primarily on account of an increase in investment income corresponding to an increase in interest earning assets and net realised gains.

Interest, dividend, and rent (including accretion of discount/amortisation of premium): Interest, dividend and rent increased from ₹ 48.13 billion in FY2018 to ₹ 52.43 billion in FY2019 and accretion of discount/ (amortisation of premium) increased from ₹ 4.72 billion in FY2018 to ₹ 7.04 billion in FY2019. The increase is primarily on account of an increase in interest income (net of accretion of discount/amortisation of premium) by 14.7% from

### Management Discussion and Analysis (Continued)

₹ 44.49 billion in FY2018 to ₹ 51.02 billion in FY2019 with an increase in average debt assets under management by 12.6%.

Profit/(loss) on sale on investments (net of provision for diminution in the value of investments): Profits and losses are realised as the portfolio is realigned based on the market conditions and expected attractiveness of securities and sectors. During FY2019, profit on sale of investments (net of loss on sale of investments and provision for diminution in the value of investments) decreased from ₹ 68.70 billion in FY2018 to ₹ 32.88 billion in FY2019.

**Unrealised gains/(loss):** Unrealised gains or losses resulting from mark-to-market valuation of assets held in the unit-linked portfolio increased from loss of ₹ 8.98 billion in FY2018 to gain of ₹ 9.79 billion in FY2019 primarily due to better market performance in FY2019

#### 4. Commission expense (Revenue account)

The following table sets forth, for the periods indicated, summary of commission expense:

(₹ billion)

		(< billion)
Particulars	FY2018	FY2019
Initial commission	10.24	11.20
Single commission	0.35	0.47
New business commission	10.59	11.67
Renewal commission	3.44	3.84
Total commission	14.03	15.51
Commission rate <sup>1</sup>	5.5%	5.6%

<sup>&</sup>lt;sup>1</sup> Commission/(total premium- 90% of single premium).

The total commission expense increased from ₹ 14.03 billion in FY2018 to ₹ 15.51 billion in FY2019 primarily on account of growth in total premium with a marginal increase in commission rates from 5.5% in FY2018 to 5.6% in FY2019.

New business commission increased from ₹ 10.59 billion in FY2018 to ₹ 11.67 billion in FY2019 along with an increase in new business commission rates from 14.0% in FY2018 to 15.9% in FY2019. The increase is primarily on account of shift in product mix towards protection business which has a higher commission rate.

Renewal commission increased from ₹ 3.44 billion in FY2018 to ₹ 3.84 billion in FY2019 on account of an increase in renewal premium

### Operating expense relating to insurance business (Revenue account)

Mission Insure India - Life Insurance For All - More Than Just Peace Of Mind

The following table sets forth, for the periods indicated, summary of operating expenses relating to insurance business

(₹ billion)

		(
Particulars	FY2018	FY2019
Employee related cost	9.65	9.73
Advertisement & sales related cost	4.49	9.11
Other cost	6.19	7.21
Total expenses	20.33	26.05

The employee headcount at March 31, 2019 was 14,099. Operating expenses relating to insurance business increased by 28.1% from ₹ 20.33 billion in FY2018 to ₹ 26.05 billion in FY2019 on account of an increase in advertisement and sales related cost given the increased focus on protection business.

#### Goods and service tax charge on linked charges (Revenue account)

Goods and service tax charge on linked charges represents the tax payable on the charges collected on linked products, and the tax is collected from policyholders. Goods and service tax charge on linked charges increased by 12.4% from ₹ 5.65 billion in FY2018 to ₹ 6.35 billion in FY2019.

#### 7. Benefits paid (net) and interim bonus paid (Revenue account)

The following table sets forth, for the periods indicated, summary of benefits paid:

(₹ billion)

FY2018	FY2019
127.61	106.12
35.11	24.50
8.64	10.94
4.10	4.71
(2.65)	(3.67)
172.81	142.60
	127.61 35.11 8.64 4.10 (2.65)

Benefits paid (net of reinsurance) and interim bonus paid decreased from ₹ 172.81 billion in FY2018 to ₹ 142.60 billion in FY2019. This decrease was primarily on account of decrease in surrender claims from ₹ 127.61 in FY2018 to ₹ 106.12 in FY2019 due to various persistency related initiatives undertaken by the Company and a decrease in maturity & annuity claims from ₹ 35.11 billion in FY2018 to ₹ 24.50 billion in FY2019 primarily due to lower policies completing their policy term as compared to previous year.

#### 8. Change in valuation of policy liabilities (Revenue account)

The following table sets forth, for the periods indicated, summary of change in valuation of liabilities

		(₹ billion)
Particulars	FY2018	FY2019
Gross: Policy liabilities (non-unit/ mathematical reserves)	79.46	118.60
Amount ceded in reinsurance	(21.23)	(43.01)
Change in non-unit/mathematical		
reserves (net) (A)	58.23	75.59
Fund reserve	83.76	113.88
Funds for discontinued policies	12.48	20.56
Change in fund reserve (B)	96.24	134.44
Total change in valuation of policy liabilities (A+B)	154.47	210.03

Change in non-unit/mathematical reserves (net of amount ceded in reinsurance) increased from ₹ 58.23 billion in FY2018 to ₹ 75.59 billion in FY2019 reflecting broadly the increase in premium net of

Change in fund reserve (including discontinued policies), which represents liability carried on account of units held by unit-linked policyholders, increased from ₹ 96.24 billion in FY2018 to ₹ 134.44 billion in FY2019 primarily on account of lower benefits paid and an increase in total premium, offset in part by lower investment income.

#### Provision for tax (Revenue account)

In order to ensure that the expenses pertaining to and identifiable with the Participating line of business are accounted under that line of business itself, the Company calculates and charges tax on Participating line of business.

Provision for tax decreased from ₹ 1.20 billion in FY2018 to ₹ 1.13 billion in FY2019 due to decrease in surplus (grossed up for bonus).

#### 10. Surplus after tax (Revenue account) and Transfer to shareholders' account (net of contribution from shareholders)

As a result of the above changes in income and expenses, surplus after tax in Revenue account decreased from ₹ 13.63 billion in FY2018 to ₹ 12.33 billion in FY2019.

Segment-wise breakup of surplus after tax is as under:

(₹	billio

		,
Particulars	FY2018	FY2019
Participating business	3.26	2.16
Non participating business	1.52	(2.68)
Linked business	8.10	7.58
Surplus after tax (net of contribution from shareholders)	12.88	7.06
Add: Contribution from shareholders	0.75	5.27
Surplus after tax	13.63	12.33

The surplus generated in the Revenue account after setting aside fund for future appropriation is transferred to Profit and loss account (Shareholders account) based on the recommendation of the Appointed Actuary. Transfer to shareholders' account (net of contribution from shareholders) decreased from ₹ 10.14 billion in FY2018 to ₹ 5.50 billion in FY2019. The remaining surplus of ₹ 1.56 billion in FY2019 was retained as fund for future appropriation.

Participating business: The surplus in Revenue account for participating line of business is net of bonus and interim bonus. The surplus (grossed up for bonus) decreased from ₹ 7.93 billion in FY2018 to ₹ 7.53 billion in FY2019. Shareholders' profits in participating business depend on the total bonuses declared to policyholders on an annual basis. Currently one-ninth of bonus declared to policyholders is transferred to shareholders. The transfer to shareholder for participating line of business increased from ₹ 0.52 billion in FY2018 ₹ 0.60 billion in FY2019 on account of an increase in bonus declared to policyholders.

**Non participating business:** The surplus in Revenue account for non participating line of business arises primarily from premium and investment income net of expenses, claims and policyholders liabilities. Surplus in non participating line of business net of contribution from shareholders decreased from ₹ 1.52 billion in FY2018 to ₹ (2.68) billion in FY2019 primarily on account of higher new business strain<sup>12</sup> resulting from the new business growth of protection and annuity business.

Linked business: The surplus in Revenue account for linked line of business arises primarily arises from charges levied on the policyholders fund net of expenses, claims and policyholders liabilities. Surplus in linked line of business net of contribution from shareholders decreased from ₹ 8.10 billion in FY2018 to ₹ 7.58 billion in FY2019.

### Management Discussion and Analysis (Continued)

#### 11. Investment and other income (Profit and loss account)

The following table sets forth, for the periods indicated, summary of income from investments:

(₹ billion)

	( ( ( ( ( ( ( ( ( ( ( ( ( ( ( ( ( ( ( (
FY2018	FY2019
4.19	4.25

7.40	6.42
0.05	0.09
7.45	6.51
	4.19 3.23 (0.02) 7.40 0.05

Investment income (net) decreased from ₹ 7.40 billion in FY2018 to ₹ 6.42 billion in FY2019 primarily on account of lower profit on sale of investments. Profits and losses are realised as the portfolio is realigned based on the market conditions and expected attractiveness of securities and sectors. During FY2019, profit on sale on investments (net of loss on sale of investments) decreased from ₹ 3.23 billion in FY2018 to ₹ 2.22 billion in FY2019.

Other income increased from ₹ 0.05 billion in FY2018 to ₹ 0.09 billion in FY2019 primarily on account of an increase in interest on income tax refund.

#### 12. Expenses other than those directly related to insurance business (Profit and loss account)

Expenses other than those directly related to the insurance business has remained at similar level in FY2019. Corporate social responsibility expenses of ₹ 0.23 billion in FY2019 (FY2018: ₹ 0.23 billion) has been charged to Profit and loss account.

#### 13. Provision for tax (Profit and loss account)

Tax on other than participating line of business and shareholders income is shown in Profit and loss account. Provision for tax has decreased from ₹ 1.00 billion in FY2018 to ₹ 0.22 billion in FY2019 primarily on account of lower surplus in non participating line of business and shareholders income.

#### 14. Profit after tax (Profit and loss account)

Profit after tax decreased by 29.6% from ₹ 16.20 billion in FY2018 to ₹ 11.41 billion in FY2019 primarily on account of decrease in transfers from policyholders account (net of contribution from shareholders) from ₹ 10.14 billion to ₹ 5.50 billion primarily on account of higher new business strain resulting from the new business growth of protection and annuity business.

#### b. Financial position

The following table sets forth, for the periods indicated, the financial position of the Company:

### Management Discussion and Analysis (Continued)

Fair value change account represents the unrealised gains/loss on equity securities and mutual fund and it decreased from ₹ 3.08 billion at March 31, 2018 to ₹ 1.71 billion at March 31, 2019. Movement in fair value change account is a function of performance of the equity markets and the mix of equity and mutual funds in the portfolio.

The Company had a solvency ratio of 214.9% at March 31, 2019, compared to the regulatory minimum required level of 150%.

#### 2. Policyholders' fund

#### Fair value change account and revaluation reserve investment property

Fair value change account decreased from ₹ 20.56 billion at March 31, 2018 to ₹ 17.83 billion at March 31, 2019. Movement in fair value change account is a function of performance of the equity markets and the mix of equity and mutual funds in the portfolio.

The Company had performed an independent valuation of investment property and consequently revaluation reserve increased from ₹ 0.62 billion (Historical cost: ₹ 0.19 billion; revalued amount: ₹ 0.81 billion) at March 31, 2018 to ₹ 0.65 billion (Historical cost: ₹ 0.19 billion; revalued amount: ₹ 0.84 billion) at March 31, 2019.

#### **Policy liabilities:**

The following table sets forth, for the periods indicated, summary of policy liabilities:

(₹ billion)

Particulars	March 31, 2018	March 31, 2019
Non unit liabilities (mathematical reserves)	309.93	385.52
Provision for linked liabilities (fund reserves)	923.12	1,037.00
Funds for discontinued policies	51.89	72.45
Policy liabilities	1,284.94	1,494.97

The movement in policy liabilities is explained in the element-wise analysis of Revenue account.

#### 3. Funds for future appropriation (FFA)

The following table sets forth, for the periods indicated, summary of funds for future appropriation:

(₹ billion)

Particulars	March 31, 2018	March 31, 2019
FFA-Non linked	8.77	10.33
FFA-Linked	0.01	0.01
Total	8.78	10.34

FFA increased from ₹ 8.78 billion in FY2018 to ₹ 10.34 billion in FY2019 primarily on account of undistributed surplus of participating line of business

#### Investments

The following table sets forth, for the periods indicated, summary of

(₹ billion)

Particulars	March 31, 2018	March 31, 2019
Shareholders' investments	77.49	79.92
Policyholders' investments	332.89	400.71
Asset held to cover linked liabilities	975.02	1,109.46
Total Investments	1,385.40	1,590.09

Total investments grew by 14.8% from ₹ 1,385.40 billion at March 31. 2018 to ₹ 1.590.09 billion at March 31. 2019. The increase in shareholders' investments is largely attributable to the profit generated during the year net of dividend (including dividend distribution tax) paid to the shareholders.

The increase in policyholders' non linked funds is largely attributable to net inflows into the fund. In case of the Asset held to cover linked liabilities, the increase is primarily attributable to increase in premium and investment income of linked portfolio which is partly offset by net outgo during the year.

The investment held in unit linked funds (Asset held to cover linked liabilities) at March 31, 2019 was 69.8% of the total investment assets as against 70.4% at March 31, 2018. Further, of the total investment assets at March 31, 2019, 48.5% of the assets were held as equity at March 31, 2019 as against 47.4% at March 31, 2018

#### 5. Loans

The Company has seen a healthy growth in loan against policies from ₹ 1.45 billion at March 31, 2018 to ₹ 2.70 billion at March 31, 2019 primarily on account of higher number of policyholders availing this facility. The Company had performed an impairment assessment and accordingly no cost is required to be recognised.

Fixed assets increased from ₹ 4.22 billion at March 31, 2018 to ₹ 4.76 billion at March 31, 2019 on account of higher capital expenditure on communication networks and improvements to office buildings during the year.

### Management Discussion and Analysis (Continued)

#### 7. Net current assets

#### (i) Details of current assets

The following table sets forth, for the periods indicated, summary of current assets:

(₹ billion)

		( ( Dillion)
Particulars	March 31, 2018	March 31, 2019
Income accrued on investments	9.24	11.02
Assets held for unclaimed amount of policyholders	8.10	6.65

Prepayments	0.39	0.45
Deposits	0.29	0.34
Other advances and receivables	2.31	3.46
Total	27.14	33.36

The explanation for key elements is as mentioned below:

Income accrued on investments increased from ₹ 9.24 billion at March 31, 2018 to ₹ 11.02 billion at March 31, 2019 primarily on account of an increase in debt investments of the Company.

Pursuant to IRDAI circular on "Handling of unclaimed amounts pertaining to policyholders", the Company has created a single segregated fund to manage all the unclaimed monies. Assets held for unclaimed amount of policyholders decreased from ₹ 8.10 billion at March 31, 2018 to ₹ 6.65 billion at March 31, 2019 primarily on account of net payments made to customers out of unclaimed fund.

**Cash and bank balances** increased from ₹ 2.04 billion at March 31, 2018 to ₹ 6.61 billion at March 31, 2019. The increase was primarily due to interest on government securities received on the last day of financial year, which could not be invested due to bank holidav.

Advance taxes and tax deducted at source increased from ₹ 2.10 billion at March 31, 2018 to ₹ 2.32 billion at March 31, 2019 on account of advance paid net of provision for tax.

Total	34.47	36.65

The explanation for key elements is as mentioned below:

Mission Insure India - Life Insurance For All - More Than Just Peace Of Mind

**Payable to unit** fund increased from ₹ 4.58 billion at March 31, 2018 to ₹ 8.51 billion at March 31, 2019. The increase was primarily on account of interest on government securities received on the last day of financial year and money received for premium collection from unit-linked policyholders for last few days of the financial year, which was pending to be transferred from shareholder to unit-linked policyholders account.

Sundry creditors representing creditors for expenses and investment decreased from ₹ 8.59 billion at March 31, 2018 to ₹ 7.47 billion at March 31, 2019 primarily on account of payable towards investment trades of last few days.

The details of unclaimed amounts of policyholders including breakup and ageing at March 31, 2019 and March 31, 2018 is given in point 3.5 and 3.6 of Schedule 16: Significant accounting policies and notes forming part of the financial statements for the year ended March 31, 2019. The decrease is attributable to net payments made to customers out of unclaimed fund.

Unallocated premium includes premium received in advance which increased from ₹ 4.61 billion at March 31, 2018 to ₹ 4.75 billion at March 31, 2019 on account of advances received from customers pending application.

Policyholders' claims payable represent amounts payable to the policyholders for all claims (death, maturity, survival, etc.) that are intimated to the Company and are outstanding due to pending investigation as a part of the normal claims process or pending due to incomplete documentation from the policyholders. The increase in claims payable from ₹ 2.55 billion at March 31, 2018 to ₹ 2.87 billion at March 31, 2019 is primarily on account of an increase in maturity claims payable.

### Management Discussion and Analysis (Continued)

#### 8. Contingent liability

The contingent liability increased from ₹ 1.98 billion at March 31, 2018 to ₹ 4.03 billion at March 31, 2019. The increase in Contingent liability is primarily attributable to the investment made in partly paid secured non-convertible debentures during the year. At March 31. 2019 the uncalled portion of the debentures amounted to ₹ 2.00

#### Cash flow statement

The following table sets forth, for the periods indicated, a summary of the

Net cash generated from/(used in) investing activities	(53.92)	(75.63)
Net cash generated from/(used in) financing activities	(11.88)	(8.43)

#### Cash flows from operating activities:

Net cash flows generated from operating activities increased from ₹ 56.93 billion in FY2018 to ₹ 113.81 billion in FY2019 primarily on account of an increase in premium and other receipts and lower policy benefits paid.

#### **Cash flows from investing activities:**

Net cash flows used in investing activities increased from ₹ 53.92 billion in FY2018 to ₹ 75.63 billion in FY2019 primarily on account of lower sale of investments in FY2019 as compared to FY2018

#### **Cash flows from financing activities:**

Net cash flows used in financing activities decreased from ₹ 11.88 billion in FY2018 to ₹ 8.43 billion in FY2019 primarily due to a decrease in dividends paid (including dividend distribution tax) from ₹ 11.92 billion in FY2018 to ₹ 8.48 billion in FY2019

#### d. Key financial ratios

The following table sets forth, for the periods indicated, the key financial

**Expense ratio:** The cost to total weighted received premium (TWRP) ratio stood at 15.0% in FY2019 compared to 13.7% in FY2018. The increase is primarily attributable to increase in expense for protection &

**Solvency ratio:** The Company had a solvency ratio of 214.9% at March 31, 2019, compared to the regulatory minimum required level of 150%.

### C. Consolidated financial results and subsidiary

The Company's wholly owned unlisted subsidiary, ICICI Prudential Pension Funds Management Company Limited (PFM) acts as a pension fund manager under the National Pension System (NPS) with the objective of providing a strategic platform to leverage the substantial pension opportunity in India due to the lack of formal retirement provisions for a large segment of the population.

One of the major developments for the PFM this year is that the pension fund regulator, Pension Fund Regulatory and Development Authority (PFRDA), has granted the PFM, on its application, the license to act as Point of Presence (PoP) entity for distributing products under NPS with effect from February 13, 2019. The PFM is working towards setting up all necessary processes and systems to operationalise its activities as a PoP

#### Industry

The total assets under management of the industry has grown from ₹ 2,345.79 billion at March 31, 2018 to ₹ 3,182.14 billion at March 31, 2019

The subscribers' funds managed by the PFM increased from ₹ 23.26 billion at March 31, 2018 to ₹ 34.76 billion at March 31, 2019, an increase of 49.5% during the year.

The PFM has market share of 17.9% in the private sector AUM at March 31, 2019 as against 19.4% at March 31, 2018.

The net worth of PFM increased from ₹ 0.26 billion at March 31, 2018 to ₹ 0.35 billion at March 31, 2019 primarily due to capital of ₹ 0.10 billion infused by the Company during the year.

#### III. INTERNAL CONTROL SYSTEMS AND THEIR **ADEQUACY**

The internal controls of the Company are commensurate with the business requirements, its scale of operation and applicable statutes to ensure orderly and efficient conduct of business. These controls have been designed to provide a reasonable assurance with regard to maintaining proper accounting controls, safeguarding of resources, prevention and detection of frauds and errors, ensuring operating effectiveness, reliability of financial reporting and compliance with applicable regulations.

In most aspects of operations and processes, the Company has deployed automation for control and efficiency. The Company operates in a robust IT control environment with adequate controls focused on reconciliation between systems, auto checks to avoid any duplicate data upload, reconciliation of all jobs run at the beginning and end of day, matching of trial balance and ensuring no unposted entries in the system monthly. The database update in system is conducted only through an activity monitoring tool and the logs reviewed & signed off by application owners on a predefined frequency. Further, the entire IT change management work flow is tracked in an application and changes moved to production only after user acceptance testing sign off by business teams. The Company has an automated control over access management with addition/deletion/ modification of access to IT environment as per defined authorisation matrix. The reconciliation of user rights in applications is conducted every quarter as part of access management. In conjunction with the IT controls, all financial transactions also have a compensating detective controls (system exception reports, maker checker etc.) at process level. These controls are covered under the COSO framework and tested every quarter.

Mission Insure India - Life Insurance For All - More Than Just Peace Of Mind

In addition, internal audits are undertaken to reviews significant operational areas regularly. The Audit Reports, submitted by the Internal Auditors, are reviewed by the Audit committee and corrective action is initiated to strengthen the controls and enhance the effectiveness of the existing systems. Statutory and Internal Auditors are also invited to the Audit Committee meetings to ascertain their views on the adequacy of internal control systems. The management believes that strengthening internal controls is a continuous process and it will therefore continue its effort to keep pace with changing business needs and environment.

### **Enterprise Risk Management**

The Company recognises that risk is an integral element of the business and managed acceptance of risk is essential for generation of shareholder value. The Company's acceptance of risk is dependent on the return on risk-adjusted capital and consistency with its strategic objectives. Having accepted a risk, the Company may cede or hedge it where this is costeffective. In general therefore, the Company's control procedures and systems are designed to manage risk, rather than eliminate it. However, at certain times, there may also exist some risks for which the Company has no tolerance and which are actively avoided.

The Company has in place a risk management framework with the following aims:

- Determining the risk profile of the Company i.e. the aggregate level of risks that the Company has undertaken in pursuit of profitable business.
- Identification, measurement, monitoring and control of risk for the purpose of protecting the interests of key stakeholders.
- Enhancing the Company's ability to identify and pursue opportunities that offer attractive risk-adjusted returns by providing transparent, accurate and timely risk information.
- Embedding risk-based decision making in key management processes and fostering a culture of risk awareness.
- Limiting the Company's exposure to adverse outcomes through risk
- Ensuring compliance with regulatory requirements.
- Focusing on ensuring that it possesses the appropriate capabilities and experience in managing and transferring risks.
- Minimising reputational risk.

#### **RISK GOVERNANCE FRAMEWORK**

The risk governance structure of the Company consists of the Board, the Board Risk Management Committee (BRMC), the Executive Risk Committee (ERC) and its supporting committees.

The risks faced by the Company are classified into market, credit, liquidity, insurance and operational risks. The risk management model of the Company comprises a four-stage continuous cycle, namely the identification and assessment, measurement, monitoring and control of

The Board approved risk policy ('the Policy') details identification, measurement, monitoring and control standards relating to the various individual risks. The Policy covers aspects related to:

- Financial Risk Management or Asset Liability Management ('ALM'): covering market risk, credit risk, liquidity risk and insurance risk
- ii) Operational Risk Management

In addition to the above, the Board has approved the following policies that assist in managing some of the above risks:

- Reinsurance Policy
- Underwriting Policy
- Outsourcing Policy
- Fraud Risk Management Policy
- Information & Cyber Security Policy

This framework in conjunction with the three lines of defence helps the Company manage risk. The key responsibilities of each line are laid out below:

#### **First line of Defence**

- Business functions that manage risk
- · Responsible for identifying risks and maintaining effective internal controls
- Executing risk and control procedures on a day-to-day basis

**126** | Annual Report 2018-19

#### **Second line of Defence**

- · Risk management function that facilitates and monitors the implementation of effective risk management practices by business teams
- Defining target risk exposure, reporting adequate risk-related information throughout the organisation

#### Third line of Defence

- · Internal and external audit provides the Board with comprehensive assurance based on independence and objectivity
- To ensure adequacy of risk controls and appropriate risk governance

#### 1. Risk Identification

The Company identifies its risk exposure through a variety of techniques and processes, including:

- 1. Stress testing of the current financial condition of the Company. Risk may be identified by reference to the Embedded Value<sup>1</sup> (EV) or to the solvency position of the Company.
- 2. Product development process by way of analysis of the sensitivity of profit margins and of profit patterns to market and insurance risks. Any liquidity or operational risk arising out of the new product or modification of an existing product is assessed prior to product launch.
- Business planning process by way of analysis of the sensitivity of the projected solvency and emergence of profit to market and insurance risks.
- Tracking of key liquidity risk indicators.
- Risk and Control Self-Assessment (RCSA) to identify and assess operational risks in terms of their likelihood and impact by each business unit within the Company. The RCSA should be done with due cognisance to any loss events or audit
- 6. The Company evaluates legal and regulatory risk by monitoring the implementation of relevant requirements and monitoring for any deviations.
- 7. Reputation risk is monitored based on trends in regulatory orders (if any), media mentions, customer complaints and legal cases.

#### 2. Risk Measurement

The Company uses the following approaches to measure its risk

- 1. Risk to the EV: Value at Risk (VaR) of the EV is an appropriate measure of risk exposure for market, credit and insurance risks. The VaR is measured by calculating the reduction in the EV under extreme economic and non-economic scenarios. The stresses are benchmarked to European Insurance and Occupational Pensions Authority (EIOPA) standards as they develop, subject to appropriate adjustments for local conditions and the Company's stage of development.
- 2. Risk to the growth of the EV: In addition to the risk to the current EV, the Company also considers risks that impede future growth of the EV like insufficient new business profit growth and over-run in acquisition or renewal expenses, caused by adverse deviation of actual unit costs from planned unit costs.

- 3. Risk to the statutory position: The Company considers the impact of market risk on its statutory position and assesses the quality of its ALM by performing a resilience test periodically on the quasi-regulatory balance sheet. The quasiregulatory balance sheet is obtained by marking to market the assets on the regulatory balance sheet. The liabilities are determined with reference to the market value of assets and by preserving the margins for adverse deviation in accordance with applicable regulation and professional guidance. The quasi-regulatory balance sheet is subjected to economic shocks and the solvency ratios and free assets under the stress scenarios monitored.
- 4. Liquidity ratio of highly liquid assets to near-term liabilities is tracked in order to assess the liquidity position.
- 5. Operational and fraud losses are measured as a proportion of profit before tax to identify the extent of deviation from the agreed tolerance limit. In addition, key operational risk indicators are tracked.

#### 3. Risk Monitoring

The ERC reviews all the risks and presents a risk report to the BRMC on a quarterly basis. The BRMC informs the Board of the key findings.

#### **Risk Control**

Identified risks are managed by one or more of the following

- Retention (acceptance);
- Avoidance:
- Transfer or:
- Reduction (mitigation).

The nature of the controls implemented and the level of control exercised are based upon the:

- Potential severity of the risk;
- Frequency of the risk occurring:
- Cost of implementing controls relative to the significance of the risk:
- Risk appetite.

#### (a) Market risk:

1. Launching new products can significantly alter the risk profile of the Company's balance sheet. Market risks inherent in the new products or significant modifications to existing products are identified at the product design stage and a risk report placed before the ERC. The products are launched only after approval by the ERC.

The Embedded Value of the Company is the present value of shareholders' interests in the earnings distributable from assets allocated to the covered business after sufficient allowance for the aggregate risks in the covered business

Asset Liability Management (ALM): Asset-liability management involves minimising the risk due to mismatches in assets and liabilities. Mismatches could arise either due to asymmetric changes in the value of assets and liabilities as a consequence of changes in macroeconomic factors such as interest rates, or due to asynchronous cash inflows and outflows. The Company has developed detailed investment specifications that govern the investment strategy and limits for each fund depending on the profile of the liability backed by those assets. For each category of products, the Investment Specifications specify limits to permissible exposures to various asset classes along with duration guidelines for fixed income instruments. The Investment Specifications are designed to achieve the risk versus return objectives and policyholders' reasonable expectations while maintaining the risk within the Company's risk appetite and with due consideration of regulatory requirements. The mitigation strategies for different portfolios are as follows:

#### i. Category 1: Non-linked business where the benefits to policyholders are based on performance of the underlying investments

For these funds the Company's asset allocation strategy, which includes investments in equities, is designed to achieve the twin objectives of managing risks arising from guarantees and optimising policyholder returns, subject to regulatory constraints. Asset Liability Management (ALM) is done through regular monitoring of the equity backing ratio and debt duration against limits as applicable. The bonus declaration mechanism for participating products also helps in the smoothing of the volatility of the investment returns.

#### Category 2: Non-linked business where the benefits and premiums are fixed at the start of the contract

The liabilities for these lines of business are obligations to policyholders or to meet expenses and have to be met either at a fixed time or on the occurrence of a contingency. The Company manages the risk on such products by investing only in fixed income instruments. Further, a combination of duration matching and cash flow matching approaches is used to mitigate asset liability mismatches.

#### iii. Category 3: Linked products with quarantees

The Company uses a mix of stochastic and deterministic approaches to calculate the cost for providing the quarantee and holds a reserve on this account. The

Company manages the investment risk arising from these products by setting limits on the equity backing ratio and debt duration.

#### iv. Category 4: Linked products without guarantees

The linked portfolio without guarantees has minimal investment risk to the solvency of the Company. These funds are managed with respect to an appropriate benchmark index and do not require any active ALM.

- **(b) Credit risk:** The Company manages the credit risk of its investments through the following measures:
  - Exposure limits for companies, groups and industries in accordance with IRDAI norms and limits as per its own Investment Policy;
  - Restricting investments primarily to securities rated AA
  - iii. Engagement with select and financially sound reinsurers as per internal guidelines for reinsurance. The credit risk on reinsurance contracts are reviewed when the Company plans to enter into a relationship with a new reinsurer, or in case of significant events like credit rating downgrades of existing reinsurers:
  - iv. Approved counter-parties are used to minimise settlement risk
- (c) Liquidity risk: The Company faces limited liquidity risk due to the nature of its liabilities. The Company has put the following mitigants in place:
  - i. The Investment Specifications as a part of the assetliability management framework provide guidelines to manage liquidity risk by specifying the minimum investment in highly liquid assets, taking account of constraints on the fungibility of assets among funds. and by specifying cash flow matching for certain funds.
  - The Company has a liquidity contingency plan, which addresses the following
  - Identifying mitigants to liquidity stress arising out of contingencies;
  - b. Communication and action protocol;
  - Restoring normality in the event of any
  - iii. New products are launched only after approval by the ERC.

- (d) Morbidity and Mortality risk: The Company uses the following approaches to manage its mortality and morbidity
  - **Product approval process:** Launching new products can significantly alter the risk profile of the Company's balance sheet. Insurance risks inherent in the new products or significant modifications to existing products are identified at the product design stage and products are launched only after approval by the ERC.
  - **Reinsurance:** The Company uses appropriate reinsurances arrangements, including catastrophe reinsurance, to manage insurance risk. The Company's reinsurance exposures are considered and approved by the ERC periodically.
  - **Repricing:** The Company also reserves the right to reprice future new business, in case of adverse experience, with IRDAI approval.
  - iv. Underwriting and claims controls: Underwriting and claims policies and procedures are in place to assess and manage the risks. The Company conducts periodic reviews of both underwriting and claims procedures.
  - **Experience analysis:** The Company conducts its experience analysis regularly to ensure that corrective action can be initiated at the earliest opportunity and that assumptions are in line with experience.
- (e) Persistency risk: The Company uses the following approaches to manage the risk:
  - **Experience analysis:** The Company conducts its experience analysis regularly to ensure that corrective action can be initiated at the earliest opportunity and that assumptions used in product pricing and embedded value reporting are in line with experience.
  - Product features: The Company uses features like loyalty bonuses and additional allocation of units to encourage policyholders to continue with the policy.
  - iii. **Service initiatives:** The Company uses a combination of proactive and reactive interventions to manage

persistency. The interventions could include attaching direct debit or ECS mandates at new business stage. sending communication via different media such as emails to customers and distributors and reminders and telephonic interviews with customers.

- iv. Aligning key performance indicators: The Company uses different key performance indicators for different levels of hierarchy in sales and operations to align interests and ensure adequate focus on persistency.
- **(f) Expense risk:** The Company uses the following approaches to manage the risk:
  - **Experience analysis:** The Company actively monitors its expense levels, which are then fed back into new product pricing, calculation of reserves and management reporting. In case of any adverse deviations between actual unit costs and planned unit costs, mitigation measures are taken.
  - uses different key performance indicators to align interests and ensure adequate focus on expense.
- (g) Operational risk: The Company uses the following approaches to manage the risk:
  - i. Mitigation plans are developed for high risk items identified and monitored by the risk committees.
  - by improving understanding through communication and education among management, employees, contractors and vendors. Appropriate training material is developed and cascaded to improve knowledge and promote a strong operational risk practice. Further, risk champions have been nominated across various functions who support the risk management teams to identify risks and create an awareness culture within such functions.
  - iii. The Company also has in place policies to manage operational risk like Whistle-blower policy, Code of Business Conduct and Ethics for directors / employees, Code of Conduct for Prevention of Insider trading, Anti Money Laundering and Counter financing of Terrorism policy and Anti-Bribery Policy.

- Aligning key performance indicators: The Company
- The Company actively promotes a risk awareness culture

its sub-committees. The Board approved risk policy details identification, measurement, monitoring and control standards relating to the various individual risks, namely investment (market, credit and liquidity), insurance and operational risks.

#### 8.1. Investment risk

Investment risk is the risk arising out of variations in the level or volatility of market prices of assets and financial instruments. including the risk arising from any mismatch between assets and liabilities, due to external market and economic factors. The Company faces limited liquidity risk due to the nature of its liabilities. The key mitigation approaches for this risk are as follows:

- (a) Product approval process: Launching new products can significantly alter the risk profile of the Company's Balance Sheet. Investment risks inherent in the new products or significant modifications to existing products are identified at the product design stage and products are launched only after approval by the ERC.
- Asset Liability Management (ALM): The Company has detailed Investment Specifications that govern the investment strategy and limits for each fund depending on the profile of the liability backed by those assets. For each category of products, the Investment Specifications specify limits to permissible exposures to various asset classes, duration guidelines for fixed income instruments and minimum investment in liquid assets.
- (c) Exposure limits have been defined for Companies, groups and industries in accordance with IRDAI guidelines and the Company's internal Investment Policy. The Company restricts investments primarily to securities rated AA and above.
- (d) The Company has a liquidity contingency plan in place.

#### 8.2. Insurance Risk

Insurance risk is the risk arising because of mis-estimation of the best estimate or because of random fluctuations in the frequency. size and timing of insurance liabilities. Insurance risk is composed of the following components: mortality, morbidity, persistency and expense risk. These risks are mitigated through:

- (a) Product approval process: Insurance risks inherent in the new products or significant modifications to existing products are identified at the product design stage and products are launched only after approval by the ERC. The Company in its product design incorporates product features and uses appropriate policy wordings to mitigate insurance risk.
- Reinsurance: The Company uses appropriate reinsurances arrangements, including catastrophe reinsurance, to manage insurance risk. The arrangements are with select and financially

- sound reinsurers. The Company's reinsurance exposures are considered and approved by the ERC periodically.
- (c) Underwriting and claims controls: Underwriting and claims policies and procedures are in place to assess and manage mortality and morbidity risks. The Company seeks to minimise these risks by diversifying its business portfolio and adhering to appropriate and segmented underwriting norms. The Company conducts periodic reviews of both underwriting and claims procedures.
- (d) Experience analysis: The Company conducts its experience analysis regularly to ensure that corrective action can be initiated at the earliest opportunity and that assumptions used in product pricing, reserving and embedded value reporting are in line with experience. The Company actively monitors its claims experience, persistency levels and expense ratios.
- (e) Aligning key performance indicators: The Company uses appropriate key performance indicators for different levels of hierarchy in sales and operations to align interests and ensure adequate focus on insurance risk specially, persistency and expense.

#### 8.3. Operational risk:

Operational risk is the risk of loss, resulting from inadequate or failed internal processes, people and systems, or from external events.

The Company uses the following approaches to manage the risk:

- (a) The Company develops and monitors mitigation plans for high risk items identified through the Risk Control Self-Assessment (RCSA) done by each business function, loss events and/or audit findings.
- (b) The Company continuously monitors the internal loss events and ensures adequate mitigation for high impact events to avoid repeat instances
- (c) The Company actively promotes a risk awareness culture by improving understanding through communication and education amongst management, employees, contractors and vendors. It further engages with the law enforcement agencies to create awareness on various insurance frauds and emerging issues
- (d) Fraud Management: The Company follows both a proactive and reactive approach to manage fraud. Proactive management is done by using triggers to identify suspected frauds and through random sample checks. Reactive management is done through incident management. Investigation is done for identification of process/system failures and/or identification of responsible internal/external parties. The Company ensures implementation of controls to prevent repeat incidents,

#### 11. VALUATION OF INVESTMENTS

#### 11.1.Non-linked investments

We hereby certify that as prescribed under the IRDA (Preparation of Financial Statements and Auditor's Report of Insurance Companies) Regulations 2002, all debt securities including government securities and redeemable preference shares made from Policyholders' nonlinked funds and Shareholders' funds are considered as 'held to maturity' and accordingly measured at historical cost, subject to amortisation of premium or accretion of discount over the remaining period of maturity/holding based on Yield to Maturity (effective interest rate method).

Money market instruments are valued at historical cost, subject to accretion of discount over the remaining period till maturity based on effective interest rate method.

Listed equity shares and equity exchange traded funds (ETF) at the Balance Sheet date are stated at fair value being the last quoted closing price on the National Stock Exchange of India Limited ('NSE') (in case the securities are not listed on NSE, the last quoted closing price on the BSE Limited ('BSE') is used). Unlisted equity shares are stated at historical cost. Equity shares lent under the Securities Lending and Borrowing scheme (SLB) continue to be recognised in the Balance Sheet as the Company retains all the associated risks and rewards of these securities.

Mutual fund units are valued based on previous days' net asset values. Unrealised gains/losses arising due to changes in the fair value of listed equity shares, equity exchange traded funds and mutual fund units are taken to the "Fair Value Change Account" in the Balance Sheet.

Investment property is held to earn rental income or for capital appreciation and is not occupied by the Company. Investment property is initially valued at cost including any directly attributable transaction costs. Investment property is revalued at least once in every three years. The change in carrying amount of investment property is taken to "Revaluation reserve" in the Balance Sheet.

Investments in venture fund units are valued at historical cost.

Mission Insure India - Life Insurance For All - More Than Just Peace Of Mind

Investments in reverse repo and tri-party repo are valued at cost plus interest accrued.

Fixed deposits with banks are valued at cost.

#### 11.2.Linked investments

We certify that the investments in linked business are valued on mark-to-market basis.

Central and State government securities are valued as per the valuation price provided by CRISIL.

Debt securities other than government securities with a residual maturity over 182 days are valued on a yield to maturity basis, by using spreads over the benchmark rate (based on the matrix released by the 'CRISIL' on daily basis) to arrive at the yield for pricing the security.

Debt securities with a residual maturity upto 182 days are valued at last valuation price plus the difference between the redemption value and last valuation price, based on effective interest rate method over the remaining term of the instrument.

Money market instruments are valued at historical cost, subject to accretion of discount over the period of maturity/holding based on effective interest rate method.

Listed equity shares, preference shares and equity ETFs are valued at market value, being the last guoted closing price on the NSE (in case of securities not listed on NSE, the last quoted closing price on the BSE is used). Equity shares lent under the Securities Lending and Borrowing scheme (SLB) continue to be recognised in the Balance Sheet as the Company retains all the associated risks and rewards of these securities.

**136** | Annual Report 2018-19

for the year ended March 31, 2019 (Continued)

Mutual fund units are valued based on previous days' net asset value. Venture fund units are valued at the latest available net asset value of the respective fund.

Securities with call option are valued at the lower of the value as obtained by valuing the security upto final maturity date or the call option date. In case there are multiple call options, the security is valued at the lowest value obtained by valuing the security at various call dates or upto the final maturity date.

Securities with put option are valued at the higher of the value as obtained by valuing the security upto final maturity date or the put option date. In case there are multiple put options, the security is valued at the highest value obtained by valuing the security at various put dates or upto the final maturity date.

The securities with both put and call option on the same day would be deemed to mature on the put/call date and would be valued on a yield to maturity basis, by using spreads over the benchmark rate based on the matrix released by CRISIL

Investments in reverse repo and tri-party repo are valued at cost plus interest accrued.

Unrealised gains and losses are recognised in the Revenue account as prescribed by IRDA (Preparation of Financial Statements and Auditors' Report of Insurance Companies) Regulations 2002.

Fixed deposits with banks are valued at cost

# REPORT ON THE AUDIT OF THE STANDALONE FINANCIAL STATEMENTS

### **OPINION**

We have audited the standalone financial statements of ICICI Prudential Life Insurance Company Limited (the "Company"), which comprise the Balance Sheet as at March 31, 2019, the Revenue Account (also called the "Policyholders' Account" or the "Technical Account"), the Profit and Loss Account (also called the "Shareholders' Account" or the "Non-Technical Account") and the Receipts and Payments Account for the year then ended and a summary of significant accounting policies and other explanatory information.

In our opinion, and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required in accordance with the Insurance Act, 1938 (the "Insurance Act"), the Insurance Regulatory and Development Authority Act, 1999 (the "IRDA Act"), the Insurance Regulatory and Development Authority (Preparation of Financial Statements and Auditors' Report of Insurance Companies) Regulations, 2002 (the "IRDA Financial Statements Regulations") and the Companies Act, 2013 (the "Act"), to the extent applicable, in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India including the Accounting Standards prescribed under section 133 of the Act, to the extent applicable:

- (a) in the case of the Balance Sheet, of the state of affairs of the Company as at March 31, 2019;
- in the case of Revenue Account, of the net surplus for the year
- in the case of Profit and Loss Account, of the profit for the year ended on that date: and
- in the case of the Receipts and Payments Account, of the receipts and payments for the year ended on that date.

#### **BASIS FOR OPINION**

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### **KEY AUDIT MATTERS**

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current year. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

We have determined the matters below to be the key audit matters to be communicated in our report.

# Information technology systems

(Refer Internal control systems and their adequacy under "Management Discussion and Analysis")

The Company's key financial accounting and reporting processes are We involved our IT Specialist to: highly dependent on information systems including automated controls in systems, such that there exists a risk that gaps in the IT control environment could result in the financial accounting and reporting records being misstated. The Company uses several systems for it overall financial reporting.

How our audit has addressed the key audit matter

- Understand General IT Control (GITC) i.e. Access Controls, Program/ System Change, Program Development, Computer Operations (i.e. Job Processing, Data/System Backup Incident Management) over key financial accounting and reporting systems, and supporting control systems (referred to as in-scope systems);
- Test the General IT Controls for design and operating effectiveness for the audit period over the in-scope systems;
- Understand IT application controls covering:
  - o user access and roles, segregation of duties; and
- o key interfaces, reports, reconciliations and system processing;
- Test the IT application controls for design and operating effectiveness for the audit period;

# Independent Auditor's Report (Continued)

### Kev Audit Matter

We have identified 'Information Technology systems' as key audit matter because of the high level automation, significant number of systems being used by the management and the complexity of the IT architecture.

## How our audit has addressed the key audit matter

- Test the controls to determine whether these controls remained unchanged during the audit period or were changed following the standard change management process:
- Understand IT infrastructure i.e. operating systems and databases supporting the in-scope systems; and
- Test the controls over the IT infrastructure covering user access (including privilege users), data center and system change (e.g. patches).

Valuation of Investments (March 31, 2019: 1,590,085,424, March 31, 2018: 1,385,401,098) (INR in Thousands) Refer note 2.11 (Investments) and note 3.25 (Impairment of investment assets)

The Company's investment portfolio represents substantial portion of the Company's total assets as at March 31, 2019 which are valued in following: accordance with accounting policy framed as per the extent of the regulatory guidelines.

Investment in Non-linked and shareholders' portfolio:

All debt securities are valued at amortised cost and investment property is valued in accordance with Company's valuation policy. The listed equity shares, preference shares, liquid mutual fund and Equity Exchange Traded Funds (ETF) investments are valued using quoted prices as per stock exchanges. These investments are tested for impairment in accordance with the Company's impairment policy.

Investment in unit linked portfolio:

Government securities are valued at prices provided by CRISIL. Other debt securities are valued on a vield to maturity basis, by using spread over the benchmark rate. The listed equity shares, preference shares, liquid mutual fund and ETF investments are valued using quoted prices as per stock exchanges.

The valuation of these investments was considered to be one of the areas which required significant auditor attention and was one of the matter of most significance in the standalone financial statements due to the materiality of total value of investments to the financial statements.

# How our audit has addressed the key audit matter

Our audit procedures for this area included but were not limited to the

- Tested the design, implementation and operating effectiveness of key controls over the valuation process, including the Company's review and approval of the estimates and assumptions used for the valuation including key authorisation and data input controls;
- Assessed appropriateness of the valuation methodologies with reference to Investment Regulations issued by Insurance Regulatory and Development Authority of India ("IRDAI"/ "Authority") and Company's own valuation policy;
- For listed equity shares, preference shares, liquid mutual fund and ETF investments, performed independent price checks using external quoted prices and by agreeing the observable inputs that were used in the Company's valuation techniques to external data; and
- For other investments, critically evaluated the valuation assessment and resulting conclusions by the Company in order to determine the reasonableness of the valuations recorded. This included an evaluation of the methodology and assumptions used in the valuation with reference to the Company's valuation policy.

#### INFORMATION OTHER THAN THE STANDALONE FINANCIAL STATEMENTS AND AUDITOR'S REPORT THEREON

The Company's management and Board of Directors are responsible for the other information. The other information comprises the information included in the Company's Annual Report, but does not include the standalone financial statements and our auditor's report thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

# RESPONSIBILITIES OF MANAGEMENT AND THOSE CHARGED WITH GOVERNANCE FOR THE STANDALONE FINANCIAL STATEMENTS

The Company's management and Board of Directors are responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the state of affairs, net surplus/deficit, profit/loss and receipts and payments of the Company in accordance with the accounting principles generally accepted in India, including the provisions of the Insurance Act, the IRDA Act, the IRDA Financial Statements Regulations and orders/directions/circulars issued by the IRDAI in this regard, and Accounting Standards specified under section 133 of the Act, to the extent applicable. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statement that give a true and fair view and are free from material misstatement. whether due to fraud or error

In preparing the standalone financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

# AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE STANDALONE FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to the financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current year and are therefore, the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be

communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication

### **OTHER MATTER - SCOPE OF AUDIT**

The actuarial valuation of liabilities for life policies in force and policies in respect of which premium has been discontinued but liability exists as at March 31, 2019 is the responsibility of the Company's Appointed Actuary (the "Appointed Actuary"). The actuarial valuation of these liabilities for life policies in force and for policies in respect of which premium has been discontinued but liability exists as at March 31, 2019 has been duly certified by the Appointed Actuary and in her opinion, the assumptions for such valuation are in accordance with the guidelines and norms issued by the IRDAI and the Institute of Actuaries of India in concurrence with the Authority. Accordingly, we have relied upon the Appointed Actuary's certificate in this regard for forming our opinion on the valuation of liabilities for life policies in force and for policies in respect of which premium has been discontinued but liability exists in the standalone financial statements of the Company. Our opinion is not modified in this respect of this matter.

(Referred to in paragraph 2(i) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

We have audited the internal financial controls with reference to the standalone financial statements of ICICI Prudential Life Insurance Company Limited (the "Company") as of March 31, 2019 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

## MANAGEMENT'S RESPONSIBILITY FOR INTERNAL **FINANCIAL CONTROLS**

The Company's management and the Board of Directors are responsible for establishing and maintaining internal financial controls based on the internal financial controls with reference to standalone financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (the "Guidance Note"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013 (hereinafter referred to as the

# **AUDITOR'S RESPONSIBILITY**

Our responsibility is to express an opinion on the Company's internal financial controls with reference to the standalone financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to standalone financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to standalone financial statements were established and maintained and whether such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to standalone financial statements and their operating effectiveness. Our audit of internal financial controls with reference to the standalone financial statements included obtaining an understanding of such internal financial controls, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error.

Mission Insure India - Life Insurance For All - More Than Just Peace Of Mind

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to the standalone financial statements

# MEANING OF INTERNAL FINANCIAL CONTROLS WITH REFERENCE TO STANDALONE FINANCIAL **STATEMENTS**

A Company's internal financial controls with reference to standalone financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles.

A Company's internal financial controls with reference to standalone financial statements include those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements

# INHERENT LIMITATIONS OF INTERNAL FINANCIAL **CONTROLS WITH REFERENCE TO STANDALONE FINANCIAL STATEMENTS**

Because of the inherent limitations of internal financial controls with reference to standalone financial statements, including the possibility of collusion or improper management override of controls, material

misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to standalone financial statements to future periods are subject to the risk that the internal financial controls with reference to standalone financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

### **OPINION**

In our opinion, the Company has, in all material respects, an adequate internal financial controls system with reference to the standalone financial statements and such internal financial controls were operating effectively as at March 31, 2019, based on the internal controls with reference to standalone financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note

**Gratuity:** The gratuity benefit payable to the employees of the Company is as per the provisions of the Payment of Gratuity Act, 1972 or the Company's gratuity plan, whichever is higher. The gratuity liability of the Company is actuarially determined at each Balance Sheet date using projected unit credit method.

Mission Insure India - Life Insurance For All - More Than Just Peace Of Mind

The Company contributes towards net liabilities to ICICI Prudential Life Insurance Company Limited Employees' Group Gratuity Cum Life Insurance

The Company recognises the net obligation of the Scheme in Balance Sheet as an asset or liability, respectively in accordance with Accounting Standard (AS) 15 (revised 2005), 'Employee benefits'. The discount rate used for estimation of liability is based on Government securities yield. Gain or loss arising from change in actuarial assumptions/experience adjustments is recognised in the Revenue account and Profit or Loss account for the period in which they emerge. Estimated rate of return on plan assets is based on the expected average long-term rate of return on investments of the Fund during the estimated term of the obligations.

**Provident fund:** The Company's defined benefit obligation towards interest rate guarantee on the exempt provident fund is actuarially determined and measured in accordance with the Guidance Note (GN 29) on Valuation of Interest Rate Guarantees on Exempt Provident Funds under AS 15 (Revised) issued by The Institute of Actuaries of India.

### 2.5.3. Other long term employee benefits

Other long term employee benefits includes accumulated compensated absences that are entitled to be carried forward for future encashment or availment, at the option of the employee subject to the rules framed by the Company and includes long term retention incentive payable to employees on fulfilment of criteria prescribed by the Company. The Company's liability towards accumulated compensated absences entitlement outstanding at the close of the year and long term retention incentive are determined actuarially and are recognised as a liability at the discounted present value of the obligation as at the Balance Sheet date.

### 2.5.4.Employee share based payments

The Employee Stock Option Scheme ('the Scheme') provides that eligible employees are granted options to subscribe to equity shares of the Company which vest in a graded manner. The vested options may be exercised within a specified period.

The Company follows the intrinsic value method to account for its sharebased employee compensation plans. Compensation cost is measured as the excess, if any, of the fair market price of the underlying stock over the exercise price on the grant date and amortised over the vesting period. The fair market price is the latest closing price, immediately prior to the grant date, on the stock exchange on which the shares of the company are listed. If the shares are listed on more than one stock exchange, then, the stock exchange where there is highest trading volume on the said date is considered.

### 2.6 Operating lease expenses

Leases where the lessor effectively retains substantially all the risks and rewards of ownership are classified as operating leases. Payments made under operating lease including escalations are recognised as an expense, on a straight line basis, over the lease term.

#### 2.7. Provision for doubtful debts

The Company regularly evaluates the probability of recovery and provides for doubtful deposits, advances and others receivables.

#### 2.8. Benefits paid

Benefits paid comprise of policy benefits and claim settlement costs, if anv.

Death and rider claims are accounted for on receipt of intimation. Survival, maturity and annuity benefits are accounted when due. Withdrawals and surrenders under non linked policies are accounted on the receipt of intimation. Withdrawals and surrenders under unit linked policies are accounted in the respective schemes when the associated units are cancelled. Claim settlement cost, legal & other fees shall also form part of claim cost wherever applicable.

Reinsurance claims are accounted for in the period in which the claim is intimated.

Repudiated claims and other claims disputed before the judicial authorities are provided for on prudent basis as considered appropriate by the management.

# 2.9. Actuarial liability valuation

The actuarial liabilities are calculated in accordance with accepted actuarial practice, requirements of Insurance Act, 1938, regulations notified by the Insurance Regulatory and Development Authority of India and Actuarial Practice Standards of the Institute of Actuaries of India.

# 2.10. Funds for Future Appropriations (FFA) FFA (Unit linked)

Amounts estimated by Appointed Actuary as FFA in respect of lapsed unit linked policies, are set aside in the Balance Sheet and are not available for distribution to Shareholders until the expiry of the maximum revival period.

### FFA (Participating)

Based on the recommendation of Appointed Actuary unappropriated surplus is held in the Balance Sheet as Funds for Future Appropriations.

#### 2.11. Investments

Investments are made and accounted for in accordance with the Insurance Act, 1938, Insurance Regulatory and Development Authority of India (Investment) Regulations, 2016, Insurance Regulatory and Development Authority (Preparation of Financial Statements and Auditor's Report of Insurance Companies) Regulations, 2002, Investments - Master circular,

Investment Policy of the Company and various other circulars/notifications issued by the IRDAI in this context from time to time.

Investments are recorded at cost on the date of purchase, which includes brokerage and taxes, if any, but excludes interest accrued as on the date

Broken period interest paid/received is debited/credited to interest

Bonus entitlements are recognised as investments on the 'ex-bonus date'.

Rights entitlements are recognised as investments on the 'ex-rights date'.

Any front end discount on investments is reduced from the cost of such investments

#### 2.11.1. Classification

Investments maturing within twelve months from the Balance Sheet date and investments made with the specific intention to dispose them off within twelve months from the Balance Sheet date are classified as shortterm investments.

Investments other than short-term investments are classified as long-term investments.

#### 2.11.2. Valuation - Other than Unit Linked business

All debt securities including government securities and redeemable preference shares are considered as 'held to maturity' and stated at historical cost, subject to amortisation of premium or accretion of discount over the remaining period to maturity on effective interest rate method.

Money market instruments are valued at historical cost, subject to accretion of discount over the remaining period to maturity based on effective interest rate method.

Listed equity shares and equity exchange traded funds (ETF) at the Balance Sheet date are stated at fair value being the last quoted closing price on the National Stock Exchange of India Limited ('NSE') (in case the securities are not listed on NSE, the last quoted closing price on BSE Limited ('BSE') is used). Unlisted equity shares are stated at historical cost. Equity shares lent under the Securities Lending and Borrowing scheme (SLB) continue to be recognised in the Balance Sheet as the Company retains all the associated risks and rewards of these securities.

Mutual fund units are valued based on the previous days' net asset values.

Unrealised gains/losses arising due to changes in the fair value of listed equity shares and mutual fund units are taken to the "Fair Value Change Account" in the Balance Sheet.

Investment property is held to earn rental income or for capital appreciation and is not occupied by the Company. Investment property is initially valued at cost including any directly attributable transaction costs. Investment property is revalued at least once in every three years. The change in carrying amount of investment property is taken to "Revaluation reserve" in the Balance Sheet.

# **Schedules**

forming part of financial statements (continued)

Investments in venture fund units are valued at historical cost.

Investments in reverse repo and tri-party repo are valued at cost plus interest accrued.

Fixed deposits with banks are valued at cost.

The Company assesses at each Balance Sheet date whether there is any evidence of impairment of any investments. In case of impairment, the carrying value of such investment is reduced to its fair value and the impairment loss is recognised in the Revenue/Profit and Loss account after adjusting it with previously recognised revaluation reserve/Fair value change account. However, at the Balance Sheet date if there is any indication that a previously recognised impairment loss no longer exists, then such loss is reversed and the investment is restated to that extent.

#### 2.11.3. Valuation - Unit Linked business

Central and State government securities are valued as per the valuation price provided by Credit Rating Information Services of India Limited

Debt securities other than government securities with a residual maturity over 182 days are valued on a yield to maturity basis, by using spreads over the benchmark rate (based on the matrix released by the CRISIL on daily basis) to arrive at the yield for pricing the security.

Debt securities with a residual maturity upto 182 days are valued at last valuation price plus the difference between the redemption value and last valuation price, based on effective interest rate method over the remaining period to maturity of instrument.

Money market instruments are valued at historical cost, subject to accretion of discount over the period of maturity/holding based on effective interest rate method.

Listed equity shares, redeemable preference shares and equity ETF are valued at market value, being the last quoted closing price on NSE (in case of securities not listed on NSE, the last quoted closing price on BSE is used). Equity shares lent under the Securities Lending and Borrowing scheme (SLB) continue to be recognised in the Balance Sheet as the Company retains all the associated risks and rewards of these securities.

Mutual fund units are valued based on previous day's Net Asset Value.

Venture fund units are valued at the latest available net asset value of the respective fund.

Securities with call option are valued at the lower of the value as obtained by valuing the security upto final maturity date or the call option date. In case there are multiple call options, the security is valued at the lowest value obtained by valuing the security at various call dates or upto the final

Securities with put option are valued at the higher of the value as obtained by valuing the security upto final maturity date or the put option date. In case there are multiple put options, the security is valued at the highest value obtained by valuing the security at various put dates or upto the final

The securities with both put and call option on the same day would be deemed to mature on the put/call date and would be valued on a yield to maturity basis, by using spreads over the benchmark rate based on the matrix released by CRISIL

Investments in reverse repo and tri-party repo are valued at cost plus interest accrued.

Unrealised gains and losses are recognised in the Revenue account as prescribed by IRDA (Preparation of Financial Statements and Auditors' Report of Insurance Companies) Regulations 2002.

Fixed deposits with banks are valued at cost.

### 2.11.4. Transfer of investments

Transfer of investments from Shareholders' fund to the Policyholders' fund to meet the deficit in the Policyholders' account is made at amortised/book cost or market price, whichever is lower.

The transfer of investments between unit liked funds is done at the price as specified below.

- a. In case of equity, preference shares, ETFs and Government Securities market price of the latest trade.
- b. In case of securities mentioned in (a) if the trade has not taken place on the day of transfer and for all other securities not part of (a) previous day valuation price.

No transfer of investments is carried out between non-linked policyholders'

Loans are stated at historical cost, subject to provision for impairment, if

Loans are classified as short term in case the maturity is less than 12 months. Loans other than short term are classified as long term.

# 2.13. Fixed assets and Impairment

#### 2.13.1. Tangible assets and depreciation

Tangible assets are stated at acquisition cost less accumulated depreciation and impairment loss, if any. Cost includes the purchase price net of any trade discounts and rebates, any import duties and other taxes (other than those subsequently recoverable from the tax authorities) and any cost directly attributable to bring the asset to its working condition for its intended use and other incidental expenses incurred upto that date. Subsequent expenditure incurred on tangible assets is expensed out except where such expenditure results in an increase in future benefits from the existing assets beyond it's previously assessed standard of performance.

forming part of financial statements (continued)

The useful life of various category of assets is as below:

Asset	Useful life (years)
Office buildings on freehold land	60
Improvement to leasehold properties	Lease period, subject to
	maximum of 9 years
Furniture and fixtures	10
Office equipment	5
Information technology equipment	3
Communication networks and servers	6
Motor vehicles	5

Schedule II of the Companies Act 2013 specifies the useful life of eight years for motor vehicle. As per Company policy, the motor vehicle is transferred to employee on completion of five years or at written down value (WDV) in case of separation of employee before five years. Accordingly, the Company has depreciated the motor vehicle over five years. Assets costing upto ₹ 5,000 are considered to be immaterial in value and hence fully depreciated in the month of acquisition.

Depreciation is provided using straight-line method ('SLM') prorated from the date of being ready to use, upto the date of sale, based on estimated useful life for each class of asset.

#### 2.13.2. Intangibles

Intangible assets comprising software are stated at cost less amortisation. Significant expenditure on improvements to software are capitalised when it is probable that such expenditure will enable the asset to generate future economic benefits in excess of its originally assessed standards of performance and such expenditure can be measured and attributed to the asset reliably. Subsequent capital expenditures are amortised over the remaining useful life of original software. Software expenses are amortised using SLM over a period of 4 years from the date of being ready to use.

### 2.13.3. Capital work in progress

Assets not ready for their intended use and other capital work-in-progress are carried at cost, comprising direct cost and related incidental expenses.

#### 2.13.4. Impairment of assets

Management periodically assesses, using external and internal sources, whether there is any indication that an asset may be impaired. If any such indication exists, an estimate of the recoverable amount of the asset unit is made. Impairment occurs where the carrying value of the asset exceeds the recoverable amount. Recoverable amount is higher of an asset's net selling price and its value in use. Value in use is the present value of estimated future cash flows expected to arise from the continuing use of the asset and its ultimate disposal. If at the Balance Sheet date there is an indication that a previously assessed impairment loss no longer exists, the recoverable amount is reassessed and the asset is reflected at the recoverable amount, subject to a maximum of depreciable historical cost.

#### 2.14. Taxation

#### 2.14.1. Direct taxes

Income tax expense comprises of current tax (i.e. amount of tax for the year determined in accordance with the Income Tax Act, 1961) and deferred tax charge or credit (reflecting the tax effects of timing differences between accounting income and taxable income for the year).

Current tax is the amount expected to be paid to the tax authorities after taking credit for allowances and exemptions in accordance with the Income Tax Act. 1961.

The Company calculates tax for the participating lines of business in order to ensure that the expenses pertaining to and identifiable with a particular line of business are represented as such to enable a more appropriate presentation of the financial statements. Accordingly, tax charge/credit on surplus/deficit arising from the participating line of business is disclosed separately in the Revenue account.

The deferred tax asset and liabilities are recognised using the tax rates that have been enacted or substantively enacted by the Balance Sheet date. Deferred tax assets are recognised and carried forward only to the extent there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realised. However, deferred tax asset in respect of unabsorbed depreciation or carried forward loss are recognised only if there is a virtual certainty of realisation of such assets. Deferred tax assets are reviewed at each Balance Sheet date and written down or written up to reflect the amount that is reasonable / virtually certain (as the case may be) to be realised.

### 2.14.2. Indirect taxes

Service tax or Goods and Services tax liability on life insurance service is set-off against the respective service tax and goods and services tax credits available from tax paid on input services. Unutilised credits, if any, are carried forward for future set-off, where there is reasonable certainty of utilisation

#### 2.15. Provisions and contingencies

Provision is recognised when the company has a present obligation as a result of past event and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Provisions are determined based on the management estimate of amount required to settle the obligation at the reporting date. These estimates are reviewed at each reporting date and adjusted to reflect the current best estimates. A disclosure of a contingent liability is made when there is a possible obligation or present obligations that may, but probably will not, require an outflow of resources or it cannot be reliably estimated. When there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made.

Contingent assets are neither recognised nor disclosed.

# **Schedules**

forming part of financial statements (continued)

#### 2.16. Segmental reporting

Based on the primary segments identified under IRDA (Preparation of Financial Statements and Auditors' Report of Insurance Companies) Regulations 2002 ('the Regulations') read with AS 17 on "Segmental Reporting" notified under section 133 of the Companies Act 2013 and rules thereunder, the Company has classified and disclosed segmental information separately for Shareholders' and Policyholders'. Within Policyholders', the businesses are further segmented into Participating (Life and Pension), Non-Participating, Non-Participating variable (Life and Pension), Annuity, Health and Linked (Life, Pension, Health and Group).

There are no reportable geographical segments, since all business is written in India.

The allocation and apportionment of revenue, expenses, assets and liabilities to specific segments is done in the following manner, which is applied on a consistent basis.

- Revenue, expenses, assets and liabilities that are directly identifiable to the segment are allocated on actual basis;
- Other revenue, expenses (including depreciation and amortisation). assets and liabilities that are not directly identifiable to a segment are apportioned based on the relevant drivers which includes:
  - Number of policies
  - Weighted annualised first year premium income
  - Annualised premium since inception
  - Sum assured
  - Total premium income
  - Medical cases
  - Funds under management
  - Commission

Next

- Total operating expenses (for assets and liabilities)
- Use of asset (for depreciation expense)

### 2.17. Foreign exchange transactions

Initial recognition: Foreign currency transactions are recorded in Indian Rupees, by applying to the foreign currency amount the exchange rate between the Indian Rupee and the foreign currency at the date of the transaction.

**Conversion:** Foreign currency monetary items are translated using the exchange rate prevailing at the reporting date. Non-monetary items, which are measured in terms of historical cost denominated in a foreign currency, are reported using the exchange rate at the date of the transaction. Nonmonetary items, which are measured at fair value or other similar valuation denominated in a foreign currency, are translated using the exchange rate at the date when such value was determined.

**Exchange differences:** Exchange differences are recognised as income or as expenses in the period in which they arise.

## 2.18. Earnings per share

Basic earnings per share are calculated by dividing the profit or loss after tax for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year. For the purpose of calculating diluted earnings per share, the profit or loss after tax for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares which could have been issued on the conversion of all dilutive potential equity shares.

Potential equity shares are deemed to be dilutive only if their conversion to equity shares would decrease the net profit per share from continuing ordinary operations. Potential dilutive equity shares are deemed to be converted as at the beginning of the period, unless they have been issued at a later date. The dilutive potential equity shares are adjusted for the proceeds receivable had the shares been actually issued at fair value. Dilutive potential equity shares are determined independently for each period presented.

#### 2.19. Cash and Cash Equivalents

Cash and cash equivalents for the purpose of Receipts and Payments account include cash and cheques in hand, bank balances, liquid mutual funds and other investments with original maturity of three months or less which are subject to insignificant risk of changes in value.

#### 2.20. Unclaimed amount of policyholders

Pursuant to IRDAl circular no IRDA/F&A/CIR/CLD/114/05/2015 dated May 28, 2015 and IRDA/F&A/CIR/CPM/134/07/2015 dated July 24, 2015 on "Handling of unclaimed amounts pertaining to policyholders" ("the Regulations"), the Company has created a single segregated fund to manage all unclaimed monies.

Unclaimed amount of policyholders' liability is determined on the basis of NAV of the units outstanding as at the valuation date.

Assets held for unclaimed amount of policyholders and unclaimed amount of policyholders' liability are considered as Current Assets & Current Liabilities, and disclosed in Schedule 12 "Advances and Other Assets" and Schedule 13 "Current Liabilities" respectively.

Income on unclaimed amount of policyholders is accreted to the unclaimed fund and is accounted for on an accrual basis, net of fund management

Amounts remaining unclaimed for a period of 10 years together with all respective accretions to the fund as per the above mentioned Regulations are deposited into the Senior Citizen Welfare Fund (SCWF).

- 1) As per IRDAI circular IRDA/F&A/CIR/Misc/173/07/2017 dated July 25, 2017, unclaimed amount of policyholders with ageing more than 120 months transferred to Senior Citizens' Welfare Fund (SCWF), amounting to ₹ 48,166 thousand, was shown as "Contingent Liability" at March 31, 2018, However, IRDAI via circular IRDA/F&A/CIR/Misc/105/07/2018 dated July 11, 2018 has withdrawn this disclosure requirement, with immediate effect. Hence amount transferred to SCWF is not reported in the above disclosure.
- 2) There has been a Supreme Court (SC) judgement dated February 28, 2019, relating to components of salary structure that need to be taken into account while computing the contribution to provident fund under the Employment Provident Fund Act. There are interpretative aspects related to the judgement including the effective date of application. The Company will continue to assess any further developments in this matter for their implications on financial statements, if any.

#### 3.2 Actuarial method and assumptions

**180** | Annual Report 2018-19

The actuarial liability in respect of both participating and non-participating policies is calculated using the gross premium method, using assumptions for interest, mortality, morbidity, expense and inflation and, in the case

of participating policies, future bonuses together with allowance for taxation and allocation of profits to shareholders. These assumptions are determined as prudent estimates at the date of valuation with allowances for adverse deviations.

The liability for the unexpired portion of the risk for the non-unit liabilities of linked business and attached riders is the higher of liability calculated using discounted cash flows and unearned premium reserves.

An unexpired risk reserve and a reserve in respect of claims incurred but not reported is held for contracts wherein there is a possibility of lag of intimation of claims

The unit liability in respect of linked business is the value of the units standing to the credit of policyholders, using the Net Asset Value ('NAV') prevailing at the valuation date.

A brief of the assumptions used in actuarial valuation is as below:

- a) The interest rates used for valuing the liabilities are in the range of 4.44% to 6.48% per annum. The interest rates used at March 31, 2018 were in the range of 4.66% to 6.13% per annum.

#### (ii) Provident fund

Provident fund benefits are aimed at providing security to staff members and their dependents on retirement, disability or death. Both employee and the company contribute an equal percentage of the basic salary, a part of which is towards government administered pension fund and balance portion is contributed to the fund administered by trustees. The provident fund is managed by ICICI Prudential Life Insurance Company Employees' Provident Fund Trust.

The minimum rate at which the annual interest is payable by the trust to members is prescribed by the government. The Company has an obligation to make good the shortfall, if any, between the government prescribed rate and actual return earned by the provident fund.

### 3.17. Employee Stock Option Scheme ("ESOS")

Next

The Company Employees Stock Option Scheme (2005) ("ESOS 2005") has six tranches namely Founder, 2004-05, 2005-06, 2006-07, Founder II and 2007-08. ESOS 2005 permits the grant of share options up to 3% of the issued capital of Company. The Board of Directors have approved the amendment of ESOS 2005 (ESOS 2005 (Revised)). As per the ESOS 2005 (Revised), the aggregate number of shares issued or issuable since March 31, 2016 pursuant to the exercise of any options granted to the eligible employees issued pursuant to the scheme or any other stock option scheme of the Company, shall not exceed a figure equal to 2.64% of the number of shares issued as on March 31, 2016. The maximum number of options that can be granted to any eligible employee is restricted to 0.1% of the issued shares of the Company at the time of grant of options. The exercise price shall be determined by the Board Nomination & Remuneration Committee in concurrence with the Board of Directors of the Company on the date the options are granted and shall be reflected in the award confirmation. These changes (ESOS 2005 (Revised)) were approved by the shareholders of the Company in the Annual General Meeting held on July 17, 2017. Further the company granted options in four more tranches FY2018 and FY2019 under ESOS 2005 (Revised), namely 2017-18, 2018-19 Special Options, 2018-19 Joining Options.

The Company follows intrinsic value method and hence there was no charge in the Revenue Account and Profit and Loss account on account of new grants during the year.

All employees of the Company are governed by the compensation policy. The total number of permanent employees governed by the compensation policy of the Company at March 31, 2019 was 14,099.

### B) Information relating to the design and structure of remuneration process.

### Key features and objectives of remuneration policy:

The Company has under the guidance of the Board and the BNRC, followed compensation practices intended to drive meritocracy within the framework of prudent risk management. This approach has been incorporated in the Compensation Policy, the key elements of which are aiven below:

#### Effective governance of compensation:

The BNRC has oversight over compensation. The Committee defines Key Performance Indicators (KPIs) for the Organisation and the performance threshold for the bonus based on the financial and strategic plan approved by the Board. The KPIs include both quantitative and qualitative aspects. The BNRC assesses organisational performance as well as the individual performance of WTDs and equivalent positions. Based on its assessment, it makes recommendations to the Board regarding compensation for WTDs and equivalent positions and bonus for employees, including senior management and key management personnel.

### Alignment of compensation philosophy with prudent risk taking:

The Company seeks to achieve a prudent mix of fixed and variable pay, with a higher proportion of variable pay at senior levels. Compensation is sought to be aligned to both financial and non-financial indicators of performance including aspects like risk management and customer service. In addition, the Company has an employee stock option scheme aimed at aligning compensation to long term performance through stock option grants that vest over a period of time.

# Whether the Remuneration Committee reviewed the firm's remuneration policy during the past year, and if so, an overview of any changes that were made:

The Compensation & Benefits Policy on remuneration of Non-executive Directors and Managing Director/Chief Executive Officer/Whole Time Directors of Insurers was reviewed, amended and approved by the Board of Directors held April 25, 2017. No amendment was made to this policy

# C) Description of the ways in which current and future risks are taken into account in the remuneration processes.

To ensure effective alignment of compensation with prudent risk taking, the Company shall take into account adherence to the risk framework to ensure remuneration is adjusted for all types of risks in conjunction with other pre-defined performance objectives. Remuneration payout shall be sensitive to the time horizon of the risks involved and symmetric to risk

- Compensation is aligned to both financial and non-financial indicators of performance including controls like risk management, process perspective, customer perspective and others.
- Prudent behavior is assessed through a Good Order Index for senior management level employees.

• These business objectives are balanced in nature, and comprise a holistic mix of financial, customer, people, and process/quality and compliance objectives.

Mission Insure India - Life Insurance For All - More Than Just Peace Of Mind

- Acts of gross negligence and integrity breach are covered under the purview of the compensation policy.
- The deferred part of the variable pay (performance bonus) will be subject to malus, under which, the Company will prevent vesting of all or part of the variable pay in the event of an enquiry determining gross negligence or integrity breach.
- The quantum of bonus does not exceed a certain percentage (as stipulated in Compensation policy) of total fixed pay in a year, for Whole time Directors if the quantum of bonus exceeds a pre-defined threshold percentage of the total fixed pay, a part of the bonus is deferred and paid over a period.

# D) Description of the ways in which the Company seeks to link performance during a performance measurement period with levels of

The Company follows a philosophy of meritocracy, which is the relative differentiation of employees based on performance delivered. The design of the variable pay is linked to the individual employee's performance rating which is arrived at basis assessment of performance delivered against a set of predefined performance objectives. These objectives are balanced in nature, and comprise a holistic mix of financial, customer, people, and process/quality and compliance objectives. To ensure effective alignment of compensation with prudent risk parameters, the Company will take into account various risk parameters along with other pre-defined performance objectives of the Company. Prudent behavior is assessed through a Good Order Index for middle and senior management level employees.

# **Independent Auditor's Report**

To the Members of **ICICI Prudential Life Insurance Company Limited** 

### REPORT ON THE AUDIT OF CONSOLIDATED FINANCIAL STATEMENTS

#### **OPINION**

We have audited the consolidated financial statements of ICICI Prudential Life Insurance Company Limited (hereinafter referred to as the "Holding Company") and its subsidiary "ICICI Prudential Pension Funds Management Company Limited" (Holding Company and its subsidiary together referred to as the "Group"), which comprise the Consolidated Balance Sheet as at March 31, 2019, the Consolidated Revenue Account (also called the "Policyholders' Account" or the "Technical Account"), the Consolidated Profit and Loss Account (also called the "Shareholders' Account" or the "Non-Technical Account") and Consolidated Receipts and Payments Account for the year then ended, including a summary of significant accounting policies and other explanatory information (hereinafter referred to as the "consolidated financial statements").

In our opinion and to the best of our information and according to the explanations given to us, and based on the consideration of report of other auditor on separate financial statements of such subsidiary as were audited

by the other auditor, the aforesaid consolidated financial statements give the information required by the Insurance Act, 1938 (the "Insurance Act"), the Insurance Regulatory and Development Authority Act, 1999 (the "IRDA Act"), the Insurance Regulatory and Development Authority (Preparation of Financial Statements and Auditors' Report of Insurance Companies) Regulations, 2002 (the "IRDA Financial Statements Regulations") and the Companies Act,2013 (the "Act"), to the extent applicable, in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the consolidated state of affairs of the Group as at March 31, 2019, of its consolidated net surplus, of its consolidated profit and consolidated receipts and payments for the year then ended.

Mission Insure India - Life Insurance For All - More Than Just Peace Of Mind

#### **BASIS FOR OPINION**

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those SAs are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India, and we have fulfilled our other ethical responsibilities in accordance with the provisions of the Act. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### **KEY AUDIT MATTERS**

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Information Technology (IT) systems

(Refer Internal control systems and their adequacy under "Management Discussion and Analysis")

#### Key audit matter

The Group's key financial accounting and reporting We involved our IT Specialist to: processes are highly dependent on information systems • including automated controls in systems, such that there exists a risk that gaps in the IT control environment could result in the financial accounting and reporting records being misstated. The Group uses several systems for it overall financial reporting.

We have identified 'Information Technology systems' as key audit matter because of the high level automation, significant number of systems being used by the management and the complexity of the IT architecture.

#### How our audit has addressed the key audit matter

- Understand General IT Control (GITC) i.e. Access Controls, Program/ System Change, Program Development, Computer Operations (i.e. Job Processing, Data/System Backup Incident Management) over key financial accounting and reporting systems, and supporting control systems (referred to as in-scope systems);
- Test General IT Controls for design and operating effectiveness for the audit period over the in-scope systems;
- Understand IT application controls covering:
- o user access and roles, segregation of duties; and
- key interfaces, reports, reconciliations and system processing;
- Test the IT application controls for design and operating effectiveness for the audit
- Test the controls to determine whether these controls remained unchanged during the audit period or were changed following the standard change management process;
- Understand IT infrastructure i.e. operating systems and databases supporting the inscope systems; and
- Test the controls over the IT infrastructure covering user access (including privilege users), data center and system change (e.g. patches).

Valuation of Investments (March 31, 2019: 1,590,031,375, March 31, 2018: 1,385,374,143) (INR in Thousands) Refer note 2.11 (Investments) and note 3.16 (Impairment of investment assets)

#### Key audit matter

The Group's investment portfolio represents substantial portion of the Group's total assets as at March 31, 2019 which are valued in accordance with accounting policy framed as per the extent of the regulatory .

Investment in non-linked and shareholders' portfolio:

All debt securities are valued at amortised cost and investment property is valued in accordance with Group's valuation policy. The listed equity • shares, preference shares, liquid mutual fund and Equity Exchange Traded Funds (ETF) investments are valued using quoted prices as per stock exchanges. These investments are tested for impairment in accordance with the Group's impairment policy.

Investment in unit linked portfolio:

Government securities are valued at prices provided by CRISIL. Other debt securities are valued on a yield to maturity basis, by using spread over the benchmark rate. The listed equity shares, preference shares, liquid • mutual fund and ETF investments are valued using quoted prices as per stock exchanges.

The valuation of these investments was considered to be one of the areas which required significant auditor attention and was one of the matter of most significance in the financial statements due to the materiality of total value of investments to the financial statements.

### How our audit has addressed the key audit matter

Our audit procedures for this area included but were not limited to the

- Tested the design, implementation and operating effectiveness of key controls over the valuation process, including the Group's review and approval of the estimates and assumptions used for the valuation including key authorisation and data input controls;
- Assessed appropriateness of the valuation methodologies with reference to Investment Regulations issued by Insurance Regulatory and Development Authority of India ("IRDAI"/ "Authority") and Group's
- For listed equity shares, preference shares, liquid mutual fund and ETF investments, performed independent price checks using external quoted prices and by agreeing the observable inputs that were used in the Group's valuation techniques to external data; and
- For other investments, critically evaluated the valuation assessment and resulting conclusions by the Group in order to determine the reasonableness of the valuations recorded. This included an evaluation of the methodology and assumptions used in the valuation with reference to the Group's valuation policy.

### INFORMATION OTHER THAN THE CONSOLIDATED FINANCIAL STATEMENTS AND AUDITOR'S REPORT **THEREON**

The Holding Company's management and Board of Directors are responsible for the other information. The other information comprises the information included in the Holding Company's annual report, but does not include the financial statements and our auditors' report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion

In connection with our audit of the consolidated financial statements. our responsibility is to read the other information and, in doing so. consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed and based on the work done/ audit report of other auditor, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

### RESPONSIBILITY OF MANAGEMENT AND THOSE CHARGED WITH GOVERNANCE FOR THE **CONSOLIDATED FINANCIAL STATEMENTS**

The Holding Company's management and Board of Directors are responsible for the preparation and presentation of these consolidated financial statements in term of the requirements of the Act that give a true and fair view of the consolidated state of affairs, consolidated net surplus/ deficit, consolidated profit/loss and the consolidated receipts and payments of the Group in accordance with the accounting principles generally accepted in India, including the provisions of the Insurance Act. the IRDA Act, the IRDA Financial Statements Regulations and orders/ directions/circulars issued by the IRDAI in this regard, and Accounting Standards specified under section 133 of the Act, to the extent applicable.

The respective Board of Directors of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making iudgments and estimates that are reasonable and prudent; and the design. implementation and maintenance of adequate internal financial controls,

# Independent Auditor's Report (Continued)

that were operating effectively for ensuring accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Directors of the Holding Company, as aforesaid.

In preparing the consolidated financial statements, the respective management of the companies included in the Group are responsible for assessing the ability of the Group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the Group is responsible for overseeing the financial reporting process of the Group.

### AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting in preparation of consolidated financial statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the appropriateness of this assumption. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group (Holding Company and subsidiary) to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of such entities or business activities within the Group to express an opinion on the consolidated financial statements, of which we are the independent auditors. We are responsible for the direction, supervision and performance of the audit of financial information of such entities. For the other entity included in the consolidated financial statements, which have been audited by other auditor, such other auditor remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion. Our responsibilities in this regard are further described in para (b) of the section titled "Other Matters" in this audit report.

We believe that the audit evidence obtained by us along with the consideration of audit report of the other auditor referred to in subparagraph (b) of the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

We communicate with those charged with governance of the Holding Company and such other entity included in the consolidated financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

# Independent Auditor's Report (Continued)

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence. and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current year and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication

#### **OTHER MATTERS**

- (a) The actuarial valuation of liabilities for life policies in force and policies in respect of which premium has been discontinued but liability exists as at March 31, 2019 is the responsibility of the Holding Company's Appointed Actuary (the "Appointed Actuary"). The actuarial valuation of these liabilities for life policies in force and for policies in respect of which premium has been discontinued but liability exists as at March 31, 2019 has been duly certified by the Appointed Actuary and in her opinion, the assumptions for such valuation are in accordance with the guidelines and norms issued by IRDAI and the Institute of Actuaries of India in concurrence with the Authority. We have relied upon the Appointed Actuary's certificate in this regard for forming our opinion on the valuation of liabilities for life policies in force and for policies in respect of which premium has been discontinued but liability exists for these financial statements.
- We did not audit the financial statements / financial information of a subsidiary company, whose financial statements/financial information reflect total assets of Rs. 357,471 thousands as at March 31, 2019, total revenues of Rs. 27,585 thousands and net cash outflows amounting to Rs. 475 thousands for the year ended on that date, as considered in the consolidated financial statements. These financial statements/financial information have been audited by other auditor whose report has been furnished to us by the Management and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of such subsidiary and our report in terms of sub-section (3) of Section 143 of the Act, in so far as it relates to the aforesaid subsidiary, is based solely on the audit report of the other auditor.

Our opinion on the consolidated financial statements, and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matters with respect to our reliance on the work done and the report of the other auditor

### REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

- As required by Section 143(3) of the Act, based on our audit and on the consideration of report of the other auditor on separate financial statements of the subsidiary as were audited by other auditor, as noted in the "Other Matters" paragraph, we report, to the extent applicable, that:
  - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid consolidated financial statements:
  - b) In our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidated financial statements have been kept so far as it appears from our examination of those books and the report of the other auditor;
  - The Consolidated Balance Sheet, the Consolidated Revenue Account, the Consolidated Profit and Loss Account and the Consolidated Receipts and Payments Account dealt with by this Report are in agreement with the relevant books of account maintained for the purpose of preparation of the consolidated financial statements:
  - In our opinion, the aforesaid consolidated financial statements comply with the Accounting Standards specified under Section 133 of the Act to the extent not inconsistent with the accounting principles prescribed in the IRDA Financial Statements Regulations and orders / directions / circulars issued by IRDAI in this regard;
  - e) On the basis of the written representations received from the directors of the Holding Company as on March 31, 2019 taken on record by the Board of Directors of the Holding Company and the report of the statutory auditor of its subsidiary company, none of the directors of the Group companies is disqualified as on March 31, 2019 from being appointed as a director in terms of Section 164(2) of the Act; and
  - With respect to the adequacy of the internal financial controls with reference to financial statements of the Holding Company and its subsidiary and the operating effectiveness of such controls, refer to our separate Report in "Annexure A".

# Independent Auditor's Report (Continued)

- 2. With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditor's) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us and based on the consideration of the report of the other auditor on separate financial statements of the subsidiary, as noted in the "Other Matters" paragraph:
  - i. The consolidated financial statements disclose the impact of pending litigations as at March 31, 2019 on the consolidated financial position of the Group - Refer schedule 16 Note 3.21 to the consolidated financial statements;
  - ii. Provision has been made in the consolidated financial statements, as required under the applicable law or accounting standards for material foreseeable losses, on longterm contracts including derivative contracts - Refer schedule 16 Note 3.22 to the consolidated financial statements in respect of such items as it relates to the Group:
  - There are no amounts which are required to be transferred to the Investor Education and Protection Fund by the Holding Company or its subsidiary company; and

TO THE INDEPENDENT AUDITOR'S REPORT OF THE CONSOLIDATED FINANCIAL STATEMENTS OF ICICI PRUDENTIAL LIFE INSURANCE COMPANY LIMITED FOR THE YEAR ENDED MARCH 31, 2019

## REPORT ON THE INTERNAL FINANCIAL CONTROLS WITH REFERENCE TO THE AFORESAID CONSOLIDATED FINANCIAL STATEMENTS UNDER CLAUSE (I) OF **SUB-SECTION 3 OF SECTION 143 OF THE COMPANIES ACT. 2013**

(Referred to in paragraph 1(f) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

In conjunction with our audit of the consolidated financial statements of ICICI Prudential Life Insurance Company Limited as of and for the year ended March 31, 2019, we have audited the internal financial controls with reference to consolidated financial statements of ICICI Prudential Life Insurance Company Limited (hereinafter referred to as "the Holding Company") and its subsidiary company "ICICI Prudential Pension Funds Management Company Limited" incorporated in India under the Companies Act, 2013 (hereinafter referred to as the "Act") as of that date.

### MANAGEMENT'S RESPONSIBILITY FOR INTERNAL FINANCIAL CONTROLS

The respective Company's management and Board of Directors are responsible for establishing and maintaining internal financial controls with reference to consolidated financial statements based on the criteria established by the respective Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (the "Guidance Note"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

#### **AUDITOR'S RESPONSIBILITY**

Our responsibility is to express an opinion on the internal financial controls with reference to consolidated financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to consolidated financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to consolidated financial statements were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to consolidated financial statements and their operating effectiveness. Our audit of internal

financial controls with reference to consolidated financial statements included obtaining an understanding of internal financial controls with reference to consolidated financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of the internal controls based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error

We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditor in terms of their report referred to in the Other Matters paragraph above, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls with reference to consolidated financial statements

## MEANING OF INTERNAL FINANCIAL CONTROLS WITH REFERENCE TO CONSOLIDATED FINANCIAL **STATEMENTS**

A Company's internal financial controls with reference to consolidated financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial controls with reference to consolidated financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

### **INHERENT LIMITATIONS OF INTERNAL FINANCIAL CONTROLS WITH REFERENCE TO CONSOLIDATED** FINANCIAL STATEMENTS

Because of the inherent limitations of internal financial controls with reference to consolidated financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to consolidated financial statements to future periods are subject to the risk that the internal financial controls with reference to consolidated financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

# **Annexure A**

ANNEXURE A TO THE INDEPENDENT AUDITOR'S REPORT - MARCH 31, 2019 (CONTINUED)

#### **OPINION**

In our opinion, the Holding Company and its subsidiary, have, in all material respects, adequate internal financial controls with reference to consolidated financial statements and such internal financial controls were operating effectively as at March 31, 2019, based on the internal financial controls with reference to consolidated financial statements criteria established by such companies considering the essential components of such internal controls stated in the Guidance Note.

#### 2. Summary of significant accounting policies

#### 2.1. Basis of preparation

The accompanying consolidated financial statements are prepared and presented under the historical cost convention, unless otherwise stated, and on the accrual basis of accounting, in accordance with accounting principles generally accepted in India ('Indian GAAP'). The Group has prepared the financial statements in compliance with the accounting standards notified under section 133 of the Companies Act 2013, to the extent applicable and in accordance with the provisions of the Insurance Act, 1938 Insurance Regulatory and Development Authority Act, 1999, the Insurance Regulatory and Development Authority (Preparation of Financial

Statements and Auditors' Report of Insurance Companies) Regulations. 2002 and various orders/directions/circulars issued by the IRDAI and the practices prevailing within the insurance industry in India. Accounting policies applied have been consistent with previous year except where differential treatment is required as per new pronouncements made by the regulatory authorities and except for changes in accounting policy mentioned below.

The management evaluates all recently issued or revised accounting pronouncements on an ongoing basis.

#### 2.2. Use of estimates

The Group's management makes estimates and assumptions that affect the reported amounts of income and expenses for the year, reported balances of assets and liabilities, and disclosures relating to contingent liabilities as on the date of the financial statements. The estimates and assumptions used in the accompanying financial statements are based upon management's evaluation of the relevant facts and circumstances as on the date of the financial statements. Actual results could differ from those estimates. Any revision to accounting estimates is recognised prospectively.

#### 2.3. Revenue recognition

#### 2.3.1. Premium income

Premium for non-linked policies is recognised as income when due from policyholders. For unit linked business, premium is recognised as income when the associated units are created. Premium on lapsed policies is recognised as income when such policies are reinstated.

Products having regular premium paving plans with limited premium payment term and/or pre-determined policy term are treated as regular business with due classification of premium into first year and renewal. Premium income on products other than aforesaid is classified as single

Top up premiums are considered as single premium.

#### 2.3.2. Reinsurance premium ceded

forming part of Consolidated financial statements (continued)

The holding company contributes towards net liabilities to ICICI Prudential Life Insurance Company Limited Employees' Group Gratuity Cum Life Insurance Scheme.

The holding company recognises the net obligation of the Scheme in Balance Sheet as an asset or liability, respectively in accordance with Accounting Standard (AS) 15 (revised 2005), 'Employee benefits'. The discount rate used for estimation of liability is based on Government securities yield. Gain or loss arising from change in actuarial assumptions/ experience adjustments is recognised in the Revenue account and Profit or Loss account for the period in which they emerge. Estimated rate of return on plan assets is based on the expected average long-term rate of return on investments of the Fund during the estimated term of the obligations.

Provident fund: The holding company's defined benefit obligation towards interest rate guarantee on the exempt provident fund is actuarially determined and measured in accordance with the Guidance Note (GN 29) on Valuation of Interest Rate Guarantees on Exempt Provident Funds under AS 15 (Revised) issued by The Institute of Actuaries of India.

#### 2.5.3. Other long term employee benefits

Other long term employee benefits includes accumulated compensated absences that are entitled to be carried forward for future encashment or availment, at the option of the employee subject to the rules framed by the holding company and includes long term retention incentive payable to employees on fulfilment of criteria prescribed by the holding company. The holding company's liability towards accumulated compensated absences entitlement outstanding at the close of the year and long term retention incentive are determined actuarially and are recognised as a liability at the discounted present value of the obligation as at the Balance Sheet date.

#### 2.5.4. Employee share based payments

The Employee Stock Option Scheme ('the Scheme') provides that eligible employees are granted options to subscribe to equity shares of the holding company which vest in a graded manner. The vested options may be exercised within a specified period.

The Company follows the intrinsic value method to account for its sharebased employee compensation plans. Compensation cost is measured as the excess, if any, of the fair market price of the underlying stock over the exercise price on the grant date and amortised over the vesting period. The fair market price is the latest closing price, immediately prior to the grant date, on the stock exchange on which the shares of the company are listed. If the shares are listed on more than one stock exchange, then, the stock exchange where there is highest trading volume on the said date is considered.

#### 2.6. Operating lease expenses

Leases where the lessor effectively retains substantially all the risks and rewards of ownership are classified as operating leases. Payments made

under operating lease including escalations are recognised as an expense, on a straight line basis, over the lease term.

#### 2.7. Provision for doubtful debts

The Group regularly evaluates the probability of recovery and provides for doubtful deposits, advances and others receivables.

#### 2.8. Benefits paid

Benefits paid comprise of policy benefits and claim settlement costs, if

Death and rider claims are accounted for on receipt of intimation. Survival, maturity and annuity benefits are accounted when due. Withdrawals and surrenders under non linked policies are accounted on the receipt of intimation. Withdrawals and surrenders under unit linked policies are accounted in the respective schemes when the associated units are cancelled. Claim settlement cost, legal & other fees shall also form part of claim cost wherever applicable.

Reinsurance claims are accounted for in the period in which the claim is

Repudiated claims and other claims disputed before the judicial authorities are provided for on prudent basis as considered appropriate by the management.

#### 2.9. Actuarial liability valuation

The actuarial liabilities are calculated in accordance with accepted actuarial practice, requirements of Insurance Act, 1938 regulations notified by the Insurance Regulatory and Development Authority of India and Actuarial Practice Standards of the Institute of Actuaries of India.

# 2.10. Funds for Future Appropriations (FFA)

# **Schedules**

forming part of Consolidated financial statements (continued)

Investments are recorded at cost on the date of purchase, which includes brokerage and taxes, if any, but excludes interest accrued as on the date of purchase.

Broken period interest paid/received is debited/credited to interest receivable account.

Bonus entitlements are recognised as investments on the 'ex-bonus date'.

Rights entitlements are recognised as investments on the 'ex-rights date'.

Any front end discount on investments is reduced from the cost of such investments

#### 2.11.1. Classification

Investments maturing within twelve months from the Balance Sheet date and investments made with the specific intention to dispose them off within twelve months from the Balance Sheet date are classified as shortterm investments.

Investments other than short-term investments are classified as long-term

#### 2.11.2. Valuation - Other than Unit Linked business

In case of Life Insurance business, all debt securities including government securities and redeemable preference shares are considered as 'held to maturity' and stated at historical cost, subject to amortisation of premium or accretion of discount over the remaining period to maturity on effective interest rate method.

Money market instruments are valued at historical cost, subject to accretion of discount over the remaining period to maturity based on effective interest rate method.

Listed equity shares and equity exchange traded funds (ETF) at the Balance Sheet date are stated at fair value being the last guoted closing price on the National Stock Exchange of India Limited ('NSE') (in case the securities are not listed on NSE, the last quoted closing price on the BSE Limited ('BSE') is used). Unlisted equity shares are stated at historical cost. Equity shares lent under the Securities Lending and Borrowing scheme (SLB) continue to be recognised in the Balance Sheet as the holding company retains all the associated risks and rewards of these securities.

Mutual fund units are valued based on the previous days' net asset values.

Unrealised gains/losses arising due to changes in the fair value of listed equity shares and mutual fund units are taken to the "Fair Value Change Account" in the Balance Sheet.

Investment property is held to earn rental income or for capital appreciation and is not occupied by the Group. Investment property is initially valued at cost including any directly attributable transaction costs. Investment property is revalued at least once in every three years. The change in carrying amount of investment property is taken to "Revaluation reserve" in the Balance Sheet

Investments in venture fund units are valued at historical cost.

Investments in reverse repo and tri-party repo are valued at cost plus interest accrued.

Fixed deposits with banks are valued at cost.

The Group assesses at each Balance Sheet date whether there is any evidence of impairment of any investments. In case of impairment, the carrying value of such investment is reduced to its fair value and the impairment loss is recognised in the Revenue/Profit and Loss account after adjusting it with previously recognised revaluation reserve/Fair value change account. However, at the Balance Sheet date if there is any indication that a previously recognised impairment loss no longer exists, then such loss is reversed and the investment is restated to that extent.

#### 2.11.3. Valuation - Unit Linked business

Central and State government securities are valued as per the valuation price provided by Credit Rating Information Services of India Limited (CRISIL).

Debt securities other than government securities with a residual maturity over 182 days are valued on a yield to maturity basis, by using spreads over the benchmark rate (based on the matrix released by the CRISIL on daily basis) to arrive at the yield for pricing the security.

Debt securities with a residual maturity upto 182 days are valued at last valuation price plus the difference between the redemption value and last valuation price, based on effective interest rate method over the remaining period to maturity of instrument.

Money market instruments are valued at historical cost, subject to accretion of discount over the period of maturity/holding based on effective interest rate method.

Listed equity shares, redeemable preference shares and equity ETF are valued at market value, being the last quoted closing price on NSE (in case of securities not listed on NSE, the last quoted closing price on BSE is used). Equity shares lent under the Securities Lending and Borrowing scheme (SLB) continue to be recognised in the Balance Sheet as the Company retains all the associated risks and rewards of these securities.

Mutual fund units are valued based on previous day's Net Asset Value.

Venture fund units are valued at the latest available net asset value of the respective fund.

Securities with call option are valued at the lower of the value as obtained by valuing the security upto final maturity date or the call option date. In case there are multiple call options, the security is valued at the lowest value obtained by valuing the security at various call dates or upto the final

case there are multiple put options, the security is valued at the highest value obtained by valuing the security at various put dates or upto the final maturity date.

The securities with both put and call option on the same day would be deemed to mature on the put/call date and would be valued on a yield to maturity basis, by using spreads over the benchmark rate based on the matrix released by CRISIL.

Investments in reverse repo and tri-party repo are valued at cost plus interest accrued.

Unrealised gains and losses are recognised in the Revenue account as prescribed by IRDA (Preparation of Financial Statements and Auditors' Report of Insurance Companies) Regulations 2002.

Fixed deposits with banks are valued at cost.

#### 2.11.4. Valuation - Pension fund management business

Short term investments are carried at lower of cost or fair value determined on an individual investment basis. Long term investments are carried at cost.

#### 2.11.5. Transfer of investments

In case of Life insurance business, transfer of investments from Shareholders' fund to the Policyholders' fund to meet the deficit in the Policyholders' account is made at amortised/book cost or market price, whichever is lower.

The transfer of investments between unit liked funds is done at the price

- a. In case of equity, preference shares, ETFs and Government Securities market price of the latest trade.
- b. In case of securities mentioned in (a) if the trade has not taken place on the day of transfer and for all other securities not part of (a) previous day valuation price.

No transfer of investments is carried out between non-linked policyholders' funds.

#### 2.12. Loans

Loans are stated at historical cost, subject to provision for impairment, if any.

Loans are classified as short term in case the maturity is less than 12 months. Loans other than short term are classified as long term.

### 2.13. Fixed assets and Impairment

#### 2.13.1. Tangible assets and depreciation

Tangible assets are stated at acquisition cost less accumulated depreciation and impairment loss, if any. Cost includes the purchase price

net of any trade discounts and rebates, any import duties and other taxes (other than those subsequently recoverable from the tax authorities) and any cost directly attributable to bring the asset to its working condition for its intended use and other incidental expenses incurred upto that date. Subsequent expenditure incurred on tangible assets is expensed out except where such expenditure results in an increase in future benefits from the existing assets beyond it's previously assessed standard of

The useful life of various category of assets is as below:

Asset	Useful life (years)
Office buildings on freehold land	60
Improvement to leasehold properties	Lease period, subject to maximum of 9 years
Furniture and fixtures	10
Office equipment	5
Information technology equipment	3
Communication networks and servers	6
Motor vehicles	5

Schedule II of the Companies Act 2013 specifies the useful life of eight years for motor vehicle. As per holding company policy, the motor vehicle is transferred to employee on completion of five years or at written down value (WDV) in case of separation of employee before five years. Accordingly, the holding company has depreciated the motor vehicle over five years. Assets costing upto ₹ 5,000 are considered to be immaterial in value and hence fully depreciated in the month of acquisition.

Depreciation is provided using straight-line method ('SLM') prorated from the date of being ready to use, upto the date of sale, based on estimated useful life for each class of asset

#### 2.13.2. Intangibles

Intangible assets comprising software are stated at cost less amortisation. Significant expenditure on improvements to software are capitalised when it is probable that such expenditure will enable the asset to generate future economic benefits in excess of its originally assessed standards of performance and such expenditure can be measured and attributed to the asset reliably. Subsequent capital expenditures are amortised over the remaining useful life of original software. Software expenses are amortised using SLM over a period of 4 years from the date of being ready to use.

#### 2.13.3. Capital work in progress

Assets not ready for their intended use and other capital work-in-progress are carried at cost, comprising direct cost and related incidental expenses.

### 2.13.4. Impairment of assets

Management periodically assesses, using external and internal sources, whether there is any indication that an asset may be impaired. If any such

# **Schedules**

forming part of Consolidated financial statements (continued)

indication exists, an estimate of the recoverable amount of the asset unit is made. Impairment occurs where the carrying value of the asset exceeds the recoverable amount. Recoverable amount is higher of an asset's net selling price and its value in use. Value in use is the present value of estimated future cash flows expected to arise from the continuing use of the asset and its ultimate disposal. If at the Balance Sheet date there is an indication that a previously assessed impairment loss no longer exists. the recoverable amount is reassessed and the asset is reflected at the recoverable amount, subject to a maximum of depreciable historical cost.

#### 2.14. Taxation

#### 2.14.1. Direct taxes

Income tax expense comprises of current tax (i.e. amount of tax for the year determined in accordance with the Income Tax Act, 1961) and deferred tax charge or credit (reflecting the tax effects of timing differences between accounting income and taxable income for the year).

Current tax is the amount expected to be paid to the tax authorities after taking credit for allowances and exemptions in accordance with the Income Tax Act, 1961.

The group calculates tax for the participating lines of business in order to ensure that the expenses pertaining to and identifiable with a particular line of business are represented as such to enable a more appropriate presentation of the consolidated financial statements. Accordingly, tax charge/credit on surplus/deficit arising from the participating line of business is disclosed separately in the Revenue account.

The deferred tax asset and liabilities are recognised using the tax rates that have been enacted or substantively enacted by the Balance Sheet date. Deferred tax assets are recognised and carried forward only to the extent there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realised. However, deferred tax asset in respect of unabsorbed depreciation or carried forward loss are recognised only if there is a virtual certainty of realisation of such assets. Deferred tax assets are reviewed at each Balance Sheet date and written down or written up to reflect the amount that is reasonable / virtually certain (as the case may be) to be realised.

#### 2.14.2. Indirect taxes

Service tax or Goods and Services tax liability on life insurance service is set-off against the respective service tax and goods and service tax credits available from tax paid on input services. Unutilised credits, if any, are carried forward for future set-off, where there is reasonable certainty of utilisation

#### 2.15. Provisions and contingencies

Provision is recognised when the group has a present obligation as a result of past event and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Provisions are determined based on the management estimate of amount required to settle the obligation at the reporting date. These estimates are reviewed at each reporting date and adjusted to reflect the current best estimates. A disclosure of a contingent liability is made when there is a possible obligation or present obligations that may, but probably will not, require an outflow of resources or it cannot be reliably estimated. When there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made.

Contingent assets are neither recognised nor disclosed.

#### 2.16. Segmental reporting

In case of Life Insurance business, based on the primary segments identified under IRDA (Preparation of Financial Statements and Auditors' Report of Insurance Companies) Regulations 2002 ('the Regulations') read with AS 17 on "Segmental Reporting" notified under section 133 of the Companies Act 2013 and rules thereunder, the Group has classified and disclosed segmental information separately for Shareholders' and Policyholders'. Within Policyholders', the businesses are further segmented into Participating (Life and Pension), Non-Participating, Non-Participating variable (Life and Pension), Annuity, Health and Linked (Life, Pension, Health and Group).

There are no reportable geographical segments, since all business is

The allocation and apportionment of revenue, expenses, assets and liabilities to specific segments is done in the following manner, which is applied on a consistent basis.

- Revenue, expenses, assets and liabilities that are directly identifiable to the segment are allocated on actual basis;
- Other revenue, expenses (including depreciation and amortisation), assets and liabilities that are not directly identifiable to a segment are apportioned based on the relevant drivers which includes:
  - Number of policies
  - Weighted annualised first year premium income
  - Annualised premium since inception
  - Sum assured
  - Total premium income
  - Medical cases
  - Funds under management
  - Commission
  - Total operating expenses (for assets and liabilities)
  - Use of asset (for depreciation expense)

forming part of Consolidated financial statements (continued)

#### 2.17. Foreign exchange transactions

**Initial recognition:** Foreign currency transactions are recorded in Indian Rupees, by applying to the foreign currency amount the exchange rate between the Indian Rupee and the foreign currency at the date of the transaction.

Conversion: Foreign currency monetary items are translated using the exchange rate prevailing at the reporting date. Non-monetary items, which are measured in terms of historical cost denominated in a foreign currency. are reported using the exchange rate at the date of the transaction. Nonmonetary items, which are measured at fair value or other similar valuation denominated in a foreign currency, are translated using the exchange rate at the date when such value was determined.

**Exchange differences:** Exchange differences are recognised as income or as expenses in the period in which they arise.

### 2.18. Earnings per share

Basic earnings per share are calculated by dividing the profit or loss after tax for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year. For the purpose of calculating diluted earnings per share, the profit or loss after tax for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares which could have been issued on the conversion of all dilutive potential equity shares.

Potential equity shares are deemed to be dilutive only if their conversion to equity shares would decrease the net profit per share from continuing ordinary operations. Potential dilutive equity shares are deemed to be converted as at the beginning of the period, unless they have been issued

at a later date. The dilutive potential equity shares are adjusted for the proceeds receivable had the shares been actually issued at fair value. Dilutive potential equity shares are determined independently for each

#### 2.19. Cash and Cash Equivalents

Cash and cash equivalents for the purpose of Receipts and Payments account include cash and cheques in hand, bank balances, liquid mutual funds and other investments with original maturity of three months or less which are subject to insignificant risk of changes in value.

#### 2.20. Unclaimed amount of policyholders

Pursuant to IRDAI circular no. IRDA/F&A/CIR/CLD/114/05/2015 dated May 28, 2015 and IRDA/F&A/CIR/CPM/134/07/2015 dated July 24, 2015 on "Handling of unclaimed amounts pertaining to policyholders" ("the Regulations"), the Company has created a single segregated fund to manage all unclaimed monies.

Unclaimed amount of policyholders' liability is determined on the basis of NAV of the units outstanding as at the valuation date.

Assets held for unclaimed amount of policyholders and unclaimed amount of policyholders' liability are considered as Current Assets & Current Liabilities and disclosed in Schedule 12 "Advances and Other Assets" and Schedule 13 "Current Liabilities" respectively.

Income on unclaimed amount of policyholders is accreted to the unclaimed fund and is accounted for on an accrual basis, net of fund management

Amounts remaining unclaimed for a period of 10 years together with all respective accretions to the fund as per the above mentioned Regulations are deposited into the Senior Citizen Welfare Fund (SCWF).

- 2) There has been a Supreme Court (SC) judgement dated February 28, 2019, relating to components of salary structure that need to be taken into account while computing the contribution to provident fund under the Employment Provident Fund Act. There are interpretative aspects related to the judgement including the effective date of application. The Company will continue to assess any further developments in this matter for their implications on financial statements, if any.

#### 3.2. Actuarial method and assumptions

The actuarial liability in respect of both participating and non-participating policies is calculated using the gross premium method, using assumptions for interest, mortality, morbidity, expense and inflation and, in the case of participating policies, future bonuses together with allowance for taxation and allocation of profits to shareholders. These assumptions are determined as prudent estimates at the date of valuation with allowances for adverse deviations.

The liability for the unexpired portion of the risk for the non-unit liabilities of linked business and attached riders is higher of liability calculated using discounted cash flows and unearned premium reserves.

An unexpired risk reserve and a reserve in respect of claims incurred but not reported is held for contracts wherein there is a possibility of lag of intimation of claims.

The unit liability in respect of linked business is the value of the units standing to the credit of policyholders, using the Net Asset Value ('NAV') prevailing at the valuation date.

A brief of the assumptions used in actuarial valuation is as below:

- The interest rates used for valuing the liabilities are in the range of 4.44% to 6.48% per annum. The interest rates used at March 31, 2018 were in the range of 4.66% to 6.13% per annum.
- b) Mortality rates used are based on the published "Indian Assured Lives Mortality (2006 – 2008) Ult." mortality table for assurances and LIC (a) 96-98 table for annuities adjusted to reflect expected

# (ii) Provident fund

Provident fund benefits are aimed at providing security to staff members and their dependents on retirement, disability or death. Both employee and the company contribute an equal percentage of the basic salary, a part of which is towards government administered pension fund and balance portion is contributed to the fund administered by trustees. The provident fund is managed by ICICI Prudential Life Insurance Company Employees' Provident Fund Trust.

The minimum rate at which the annual interest is payable by the trust to members is prescribed by the government. The Company has an obligation to make good the shortfall, if any, between the government prescribed rate and actual return earned by the provident fund.

# **Embedded Value Results**

This report on Embedded Value results as at March 31, 2019 has been prepared by the Company and the results presented in the report have been reviewed by Milliman Advisors LLP.

## **BASIS OF PREPARATION**

The Embedded Value (EV) is a measure of the consolidated value of the shareholders' interest in the life insurance business. The EV results have been prepared based on the Indian Embedded Value (IEV) methodology and principles as set out in Actuarial Practice Standard 101 (version 1.02) (APS10) issued by the Institute of Actuaries of India (IAI). As APS10 is applicable for the limited purpose of an Initial Public Offering (IPO), compliance with APS10 is limited to the methodology and principles used to develop the EV Results presented in this report. The EV methodology is broadly in line with the Market Consistent Embedded Value<sup>2</sup> (MCEV) principles used in Europe.

A detailed description of the EV methodology is provided in section 3.

#### 3 METHODOLOGY

The EV consists of the two following components:

- Adjusted net worth (ANW), consisting of:
  - Free surplus (FS) allocated to the covered business; and
  - Required capital (RC)
- Value of in-force covered business (VIF).

# 3.1 Covered business

The business covered under the EV results (covered business) includes all business that has been written by the Company including the life assurance and pensions business, accident and health-insurance business and group business.

The business written by ICICI Prudential Pension Funds Management Co. Ltd., a subsidiary of ICICI Prudential which writes pensions fund management business, is not included as covered business. The value of ICICI Prudential Pension Funds Management Co. Ltd is reflected in ANW based on the value at which it is carried in the audited financial statements of the Company, which is ₹ 346.07 mn at March 31, 2019.

# 3.2 RC

**584** | Annual Report 2018-19

RC is the value of assets attributed to the covered business over and above that which is required to back the liabilities for covered business, the distribution of which to shareholders is restricted.

The level of RC is set equal to the amount required to be held to meet supervisory requirements or otherwise encumbered by supervisory or legal restrictions that prevent its distribution. The amount of RC is presented from the shareholders' perspective and is net of the funds for future appropriation (FFAs).

The FS is the market value of any assets allocated to, but not required to support, the in-force covered business as at the valuation date.

The FS has been determined as the adjusted net worth of the Company, less the RC as defined above. The adjusted net worth of the Company is calculated as the net shareholders' funds as per the audited financial statements, adjusted so as to revalue to market value those assets and those liabilities that are dependent on asset values, which are not at market value in the audited financial statements.

The mark to market adjustment is net of tax applicable. The Company has no subordinated or contingent debt.

The FFAs, which comprise all funds which have not been explicitly allocated either to policyholders or to shareholders at the valuation date, are reported as policyholder funds. There are separate FFAs for unit-linked and for participating business. The shareholders have a 10% interest in the non-linked FFA accrued in respect of participating business. The unit-linked FFA represents amounts that will accrue to shareholders in respect of policies that have lapsed, unless the policyholder pays the missing premiums. The values of the shareholders' interests in the FFA are included in the VIF, at their market value, and therefore do not form part of the ANW.

**Prev** 

#### 3.4 VIF

The VIF represents the present value of the shareholders' interest in the earnings distributable from the assets allocated to the business after sufficient allowance for the aggregate risks in the business. The VIF consists of the following components:

- the present value of future profits (PVFP); adjusted for
- the time value of financial options and guarantees (TVFOG);
- the frictional costs of required capital (FC); and
- the cost of residual non-hedgeable risks (CRNHR).

#### **PVFP**

The PVFP is the present value of projected distributable profits to shareholders arising from the in-force covered business, determined by projecting the post taxation shareholder cash flows from the in-force covered business and the assets backing the associated liabilities. The distributable profits also include the release to shareholders of the amounts from the FFA. For one year renewable group term business, expected renewals from existing members are included in the PVFP.

For products with reviewable rates and charges, the projection of future cash flows assumes that the rates and charges as at the valuation date remain unchanged.

The projection of future distributable profits arising from the covered business is carried out using best estimate non-economic assumptions and market consistent economic assumptions.

Distributable profits are determined by reference to liabilities determined in accordance with the statutory requirements for life insurance companies.

The Company holds 'global reserves' calculated outside of its actuarial models as at the valuation date. Wherever appropriate, the shareholders' interest in the assets backing such global reserves is calculated by assuming a suitable release pattern of such reserves.

#### **TVFOG**

The TVFOG reflects the value of the additional cost to shareholders that may arise from the embedded financial options and guarantees attaching to the covered business. The intrinsic value of such options and guarantees is reflected in the PVFP.

A stochastic approach is used to determine the TVFOG using methods and assumptions consistent with the underlying embedded value. The economic assumptions used in determining the TVFOG ensure that the projected cash-flows are valued in line with the price of similar cash flows that are traded in the capital markets.

#### FC

The VIF includes an allowance for the FC of RC for the covered business. These FCs represent investment management expenses and taxation costs associated with holding the RC. The investment costs have been reflected as an explicit reduction from the gross investment return.

#### CRNHR

The CRNHR is an allowance for risks to shareholder value to the extent that these are not already allowed for in the TVFOG or the PVFP. In particular, the CRNHR makes allowance for:

- asymmetries in the impact of the risks on shareholder value; and
- risks that are not allowed for in the TVFOG or the PVFP (e.g. operational risk).

The CRNHR reflects operational risk, catastrophe mortality/morbidity risk and mass lapsation risk. The CRNHR has been determined using a cost of capital approach. The CRNHR is the present value of a notional cost of capital charge levied on the projected capital in respect of the residual non-hedgeable risks. Allowance has been made for diversification benefits among the non-hedgeable risks, other than the operational risk.

The cost of capital charge is assumed to be 4% per annum.

# 3.5 New business and renewals

The VIF includes the value of expected renewal premiums on the in-force business, including any foreseeable variations in the level of renewal premiums, but excludes any value relating to future new business (i.e. the new business that may be written after the applicable valuation date).

The VNB reflects the additional value to shareholders created through the activity of writing new business over the stated period ending on the valuation date, and includes the value of expected renewal premiums on that new business.

The new business comprises both individual and group policies sold during the reporting period, including the expected renewal premiums and expected future contractual alterations to those contracts. It also includes the non-contractual single premium payments received during the reporting period. New business for one year renewable group term business and group micro business is business from new members that have joined a scheme during the financial year and the VNB includes expected renewal premium. The VNB is calculated in the same way as the VIF, with appropriate allowance for changes in the ANW during the reporting period.

The VNB is determined as at March 31, 2019 and takes into account acquisition commissions and acquisition expenses at the unit cost level incurred in the full year to March 31, 2019.

# 3.6 Analysis of movement of EV

A brief description of the various components is provided below

Components	Description
Expected return on existing business	(1) Expected investment income at opening reference rate on VIF and ANW; and (2) Expected excess 'real world' investmen return over the opening reference rate on VIF and ANW.
Operating assumption changes	This is the impact of updating of non-economic assumptions both on best estimate and statutory bases to those adopted in the closing EV.
VNB added during the period	This is as described in section 3.5 above
Operating experience variance	The variance arising from discontinuance and mortality is analysed at a policy level, by considering the actual change in the policy status from the opening EV to the closing EV dates and captures the difference between the actual and expected experience and is calculated in the following order:  a. Discontinuance rates  b. Mortality / morbidity rates  c. Expenses
Economic assumption changes and Investment variance	Economic assumption changes reflect the update of the reference rate yield curve, inflation and valuation economic assumptions from opening EV to closing EV.  The investment variance is the difference between the actual investment return and the expected 'real world' rates for existing business as at March 31, 2018 and the closing

#### **ASSUMPTIONS**

**586** | Annual Report 2018-19

The projections of future shareholder cash flows expected to emerge from covered business and new business have been determined using best estimate assumptions. These assumptions (both economic and non-economic) are reviewed annually and have been updated as appropriate.

## 4.1 Economic assumptions

Investment returns and discount rates are based on reference rates at March 31 2018 and March 31 2019. The PVFP before TVFOG is calculated assuming that assets earn, before tax and investment management expenses, the reference rates assumed, and by discounting all cash flows using the reference rates assumed which are gross of tax and investment management expenses. The reference rates are derived using zero coupon yield curve as published on Clearing Corporation of India Limited<sup>3</sup> website. The reference rates assumed are set out below:

Tenor (years)	Reference rate (one year forward rates)		
Tellor (years)	March 31, 2018	March 31, 2019	
1	6.57%	6.66%	
5	8.21%	7.83%	
10	8.31%	8.35%	
15	8.11%	8.35%	
20	7.97%	8.22%	
25	7.91%	8.11%	
30	7.88%	8.05%	

#### 4.2 Non-economic assumptions

#### **Demographic assumptions**

The best estimate assumptions for persistency, mortality and morbidity have been derived based on the Company's own experience. An allowance for future improvements in respect of mortality has been considered for annuities.

#### **Commission and Expense assumptions**

The expense assumptions have been derived based on the Company's actual expenses during FY2019 with no anticipation of productivity gains or cost efficiencies. The fixed renewals are inflated from FY2020 onwards using the best estimate inflation rate.

The commission rates under different products are based on the actual commission payable (if any) to the distributors.

In determining the EV, allowance has been made for future taxation costs expected to be incurred by the Company. This includes both corporate taxes and service tax / Goods and services tax ("GST").

The taxation costs reflected in the Results make an allowance for the fact that the Company is allowed to reduce its taxable income by earned dividend income.

# Re: Milliman's opinion on the EV results as at 31 March 2019

Dear Members of the Board

# Introduction

ICICI Prudential Life Insurance Company Limited ('ICICI Prudential', 'the Company') has prepared embedded value calculations following the methodology and principles set out in the Actuarial Practice Standard 10 (version 1.02, "APS10") issued by the Institute of Actuaries of India. These calculations consist of the following (together referred to as the "Results"):

- Indian Embedded Value ("IEV") as at 31 March 2019;
- the value of one year of new business ("VNB") for new business sold during the year ending 31 March 2019;
- an analysis of the movement of IEV from 31 March 2018 to 31 March 2019:
- various sensitivity results on the IEV as at 31 March 2019 and sensitivity results on the VNB for business sold during the year ending 31 March 2019.

The Results, along with the methodology and assumptions that have been used to prepare the Results, have been summarized by the Company in this Annual Report.

### Scope of services

Milliman Advisors LLP ('Milliman', 'we', 'us', 'our') has been engaged by ICICI Prudential Life Insurance Company Limited ('ICICI Prudential', 'the Company') to carry out a review and certification of the Results. Our scope of work includes the following:

• a review of the methodology and assumptions used by the Company in developing the Results for compliance with the relevant EV principles

set out in APS10, including a review of process used to conduct the analysis of movement of EV and various sensitivity analyses;

- a review of the Company's actuarial models (covering the EV, VNB, analysis of movement and sensitivity models) used to develop the Results for a selection of model points covering the more material products comprising the VIF and VNB; and
- a detailed review of the aggregation templates used by the Company to develop the company level results.

# **Opinion**

Based on the work carried out and subject to the reliances and limitations mentioned below, I am of the opinion that the Results have been developed in all material respects in accordance with the methodology and principles set out in APS10. In particular:

- the methodology used to develop the Results is reasonable and in
- the assumptions (economic and non-economic) used to develop the Results have been developed substantially in line with the requirements of APS10, using the Company's operating experience (for non-economic assumptions) and are reasonable;
- the Results have been prepared materially in accordance with the methodology and assumptions described in the Annual Report and with the accounting information presented in the financial
- the Results have been prepared materially in accordance with the requirements of APS10.

#### **Reliances and Limitations**

This Opinion has been prepared solely for use by ICICI Prudential for inclusion in this Annual Report. It should not be relied upon for any other purpose. Milliman does not intend to create a legal duty to any third party recipient of its work.

We have relied on information supplied by the management and staff of ICICI Prudential. Reliance was placed on, but not limited to, the general accuracy of all the information provided to us.

We have obtained a management representation letter from ICICI Prudential, stating that, to the best of ICICI Prudential's knowledge, the data and information provided to us is accurate and complete and that there are no material inaccuracies or omissions therein.

An actuarial assessment of the components of value of a life insurance company will not necessarily be consistent with the value of a life insurance company or a portfolio in the open market and should not be interpreted in that manner.

The Results are based on a series of assumptions as to future operating experience. It should be recognised that actual experience will differ from these assumptions on account of changes in the operating and economic environment and natural variations in experience. To the extent that actual experience is different from the assumptions, the future projected profits from which the Results are derived will also differ. The Annual Report includes various sensitivity results to illustrate how vulnerable the Results are to changes in assumptions for the key risks. The Results shown are presented at the valuation dates stated in this Report and no warranty is given by Milliman that future experience after these valuation dates will be in line with the assumptions made.

The Results have been determined on a going concern basis, and assume a stable economic, legal and regulatory environment going forward. Any change in the general operating environment would add a high degree of uncertainty to the Results.

Unless explicitly stated, the Results do not consider any external (including regulatory) developments after the valuation date of 31 March 2019.

Yours faithfully.

# **Glossary of Terms**

## Accretion of discount/amortisation of premium

Discount / premium refers to the price paid for a bond as against the par value of the bond. This discount/ premium is spread over the remaining life of the bond and is called accretion/amortisation respectively

## **Acquisition Cost**

Costs that vary with and are primarily related to the acquisition of new insurance contracts

#### **Affiliated investments**

Investments made to parties related to insurers

## **Annuity business**

The business of effecting contracts to pay annuities on human life but does not include contracts under pension business. Annuities provide for a series of payments to be made at regular intervals in return for a certain sum paid up front. A deferred annuity is a contract to pay out regular amounts of benefit to the annuity holder at the end of the deferred period (the vesting date) when annuity payment commences for a specified period of time such as number of years or for life. An immediate annuity is a contract to pay out regular amounts of benefit wherein the contract commences payments, immediately after the contract is commenced

# **APE (Annualised Premium Equivalent)**

APE (Annualised Premium Equivalent) is the sum of annualised first year premiums on regular premium policies, and ten percent of single premiums, from both individual and group customers.

# **Asset – Liability Management**

It is an ongoing process of formulating, implementing, monitoring and revising strategies related to assets and liabilities to achieve an organization's financial objectives, given the organization's risk appetite, risk tolerances and business profile

The accumulation of premiums less actual expenses and mortality costs combined with actual investment returns

#### **Bancassurance**

An arrangement entered into by a bank and an insurance company, through which the insurance company sells or markets its products to the bank's client base

# Basic earnings per share

Net profit after tax divided by weighted average number of shares attributable to equity shareholders outstanding during the year/period

## **Bonus (participating policies)**

participating fund out of a valuation of the assets and liabilities. This share of surplus is typically distributed as bonus to eligible policyholders

#### **Credit Risk**

Risk arising out of partial default, full default or delayed payments from counterparties

#### **CRNHR**

Cost of Residual Non Hedgeable Risks is an allowance for risks to shareholder value to the extent that these are not already allowed for in the TVFOG or the present value of future profits

A segregated fund of the insurer that is set aside and is constituted by the fund value of all discontinued policies determined in accordance with the IRDA (Linked Insurance Products) Regulations, 2013

The measure of the consolidated value of shareholders' interest in the life insurance business. It represents the present value of shareholders' interests in the earnings distributable from the assets allocated to the business after sufficient allowance for the aggregate risks in the business

# **Embedded Value Operating Profit (EVOP) and Return on Embedded Value (RoEV)**

Embedded Value Operating Profit ("EVOP") is a measure of the increase in the EV during any given period due to matters that can be influenced by management. It excludes changes in the EV due to external factors like changes in economic variables and shareholder-related actions like capital injection or dividend pay-outs. Return on Embedded Value ("RoEV") is the ratio of EVOP for any given period to the EV at the beginning of that period

Number of grievances per 10,000 new business policies issued (retail). A low grievance ratio indicates higher customer satisfaction.

#### In-force

An insurance policy or contract, reflected on records, that has not expired, matured or otherwise been surrendered or terminated

#### **Insurance penetration**

Insurance premium as % of GDP

# **Insurance underwriting**

The process by which an insurance company determines whether or not and on what basis it will accept an application for insurance

#### **Investment assets**

All investments made out of shareholders funds representing solvency margin, non-unit reserves of unit linked insurance business, participating and non-participating funds of policyholders; policyholders' funds of pension and general annuity fund at their carrying value; and policyholders unit reserves of unit linked insurance business at their market value

### **Investment yield**

The income earned/received from an investment based on the price paid for the investment. Investment yield is disclosed as a percentage.

## Lapse

A life insurance contract lapses if the policyholder does not pay the premiums within the grace period as prescribed under the Insurance Regulatory and Development Authority (Non-Linked Insurance Products) Regulations, 2013 and the Insurance Regulatory and Development Authority (Linked Insurance Products) Regulations, 2013, as applicable

## **Linked liabilities (fund reserves)**

This represents the liability for units held under the contracts under unitlinked business

# **Mathematical reserves**

The provision made by an insurer to cover liabilities arising under or in connection with policies or contracts for life insurance business. Mathematical reserves also include specific provision for adverse deviations of the bases, such as mortality and morbidity rates, interest rates, and expense rates, and any explicit provisions made, in the valuation of liabilities, in accordance with the regulations made by the IRDAI for this purpose. Please also see "Policy Liabilities"

## **Maturity benefit**

The amount of benefit which is payable on maturity i.e. at the end of the

## **Maturity date**

The stipulated date on which benefit may become payable either absolutely or on the occurrence of a contingency

# **Morbidity rate**

It is a measure of the number of persons belonging to a particular group, categorised according to age or some other factor such as occupation, that are expected to suffer a disease, illness, injury, or sickness

## **Mortality charges**

The risk charges that are levied on the life cover part to provide the protection benefit to the policyholder

## Mortality rate

A measure of the number of deaths, varying by such parameters as age, gender and health, used in pricing and computing liabilities for future policyholders of life and annuity products, which contain mortality risks

### NAV / Net Asset Value

NAV in the context of the equity shares is computed as the closing net worth of a company, divided by the closing outstanding number of fully paid up equity share. In the context of the unit linked business of our company and the investments made in mutual funds by our company, it represents the value of one unit held by the policyholder/us and is computed as total assets of the fund/scheme divided by number of units outstanding

#### lot worth

Net worth represents the shareholders' funds and is computed as sum of share capital and reserves including share premium share application money and fair value change account net of debit balance in profit and loss account

#### **New business strain**

New business strain arises when the premium paid at the commencement of a contract is not sufficient to cover the initial expenses including acquisition costs and any mathematical reserve that our Company needs to set up at that point

### **Non-linked business**

Business other than unit linked business

# Glossary of Terms (Continued)

## **Non-participating product / policy**

Policies without participation in profits, means policies which are not entitled to any share in surplus (profits) during the term of the policy

#### Non-unit liabilities

Non-unit liabilities are liabilities held in addition to Linked liabilities (fund reserves) under unit-linked business and represents liabilities in respect of future expenses and benefits in excess of the unit fund. These form part of the mathematical reserves.

## Paid up value

It is one of the non–forfeiture options given to the policyholder in case of premium default. In this option, the sum assured is proportionately reduced to an amount which bears the same ratio to the full sum assured as the number of premiums actually paid bears to the total number originally payable in the policy

## Participating product / policy

A life insurance policy where the policyholder is entitled to at least a 90% share of the surplus emerging in participating fund and the remaining belongs to the shareholders

#### **Pension business**

Pension business includes business of effecting contracts to manage investments of pension funds or superannuation schemes or contracts to pay annuities that may be approved by the IRDAI

#### **Persistency ratio**

The percentage of premium received from life insurance policies remaining in force to the premiums of all policies issued. It is calculated with respect to policies issued in a fixed period prior to the period of measurement. In other words, it is the percentage of policies that have not lapsed and is expressed as 13th month 49th month persistency etc. depicting the persistency level at 13th month (2nd year) and 49th month (5th year) respectively, after issuance of contract

#### **Policy liabilities**

The policy liabilities under an insurance contract are the benefits an insurance company has contractually agreed to pay to the policyholders, plus its future expenses less future premiums. Please also see "Mathematical Reserves"

#### **Present Value of Future Profits or PVFP**

Present value of projected distributable profits to shareholders arising from the in-force covered business, determined by projecting the post taxation shareholder cash flows from the in-force covered business and the assets backing the associated liabilities

## **Protection gap**

As defined in the Swiss Re, Economic Research & Consulting "Mortality Protection Gap Asia-Pacific 2015", the protection gap is measured as the difference between the resources needed and the resources already available for dependents to maintain their living standards following the death of a working family member

# Regular premium product

Life insurance product which requires regular periodic payment of premium

## Reinsurance ceded/accepted

Reinsurance means an insurance contract between one insurance company (cedant) and another insurance company (reinsurer) to indemnify against losses on one or more contracts issued by the cedant in exchange for a consideration. The consideration paid/ received is termed as reinsurance ceded/accepted. The intent of reinsurance is for an insurance company to reduce the risks associated with underwritten policies by spreading risks across alternative institutions

# **Renewal premium**

Life insurance premiums falling due in the years subsequent to the first year of the policy

# Retail weighted received premium (RWRP)

Premiums actually received by the insurers under individual products (excluding accrued / due but not paid) and weighted at the rate of ten percent for single premiums

# Required Solvency Margin, Available Solvency Margin and Solvency Ratio

Every insurer is required to maintain an excess of the value of assets over the amount of liabilities of not less than an amount prescribed by the IRDAI, which is referred to as a Required Solvency Margin (RSM).

The actual excess of assets (furnished in IRDA Form AA as specified under the Insurance Regulatory and Development Authority of India (Assets, Liabilities, and Solvency Margin of Life Insurance Business) Regulations, 2016) over liabilities (furnished in Form H as specified in Regulation 4 of Insurance Regulatory and Development Authority of India (Actuarial Report and Abstract for Life Insurance Business) Regulations, 2016) and other liabilities of policyholders' funds and shareholders' funds maintained by the insurer is referred to as Available Solvency Margin (ASM).

Solvency ratio is calculated as ratio of ASM over RSM.
