

ICICI Prudential Life Insurance Company Limited

Corporate Social Responsibility Policy

A. Introduction

Corporate Social Responsibility (CSR) is the commitment of companies to provide resources and support activities focused on enhancing economic and social development. It is the effort made by companies to improve the living conditions of the local area in which they operate and the society at large. The activities taken up as part of corporate social responsibility reflect the intent to create a positive impact on society without seeking any commensurate monetary benefits.

CSR has been a long-standing commitment at the ICICI Group and forms an integral part of our activities. The Group's contribution to social sector development includes several pioneering interventions, and is implemented through the involvement of stakeholders within the Company, the Group and the broader community. ICICI Foundation for Inclusive Growth (ICICI Foundation) was established in 2008 by ICICI Bank with a view to significantly expand the ICICI Group's activities in the area of CSR. Over the last few years ICICI Foundation has developed significant projects in specific areas, and has built capabilities for direct project implementation as opposed to extending financial support to other organisations.

The Company's objective is to pro-actively support meaningful socio-economic development in India and enable a larger number of people to participate in and benefit from India's economic progress. This is based on the belief that growth and development are effective only when they result in wider access to opportunities and benefit a broader section of society. As a life insurance company, ICICI Prudential Life's core proposition is to meet the savings, investment and protection needs of its customers. The product portfolio addresses needs across all life stages, thereby helping customers build a better future for themselves and protect their families from financial distress in the event of a personal tragedy. A strong life insurance sector also plays a role in the nation's economic development by facilitating mobilisation of savings for investment. Given this context, the Company aims to identify critical areas of development that require investments and intervention, which can help to protect communities and realise India's potential for growth and prosperity.

The Corporate Social Responsibility Policy (CSR Policy) of ICICI Prudential Life sets out the framework guiding the Company's CSR activities. The Policy also sets out the rules that need to be adhered to while taking up and implementing CSR activities.

The above information shall also be displayed on the Company's website.

G. Corporate Social Responsibility Activities

The CSR Committee of the Company would consider and approve the projects or programs that the Company should undertake as CSR in India. Any project or programme that is exclusively for the benefit of the Company's employees would not be considered as CSR.

The Company's primary focus areas for CSR activities are:

1. Education

(Schedule VII (ii) promoting education, including special education and employment enhancing vocation skills especially among children, women, elderly and the differently abled and livelihood enhancement projects).

Education represents a critical area of action to realise India's growth potential as also make it inclusive, by enabling children from all sections of society to have access to quality basic education that equips them for taking up higher education or job-oriented skill training. At the same time India's institutions of higher learning also require investment in capacity building to support India's growing and evolving needs and become global centers of excellence. The Company, both directly and through ICICI Foundation, will continue to work with state governments and other not-for-profit organisations to improve the quality of education in government and municipal schools, which account for the vast majority of school-going children in the country. The Company will continue to work with institutes of higher education for focused capacity-building in specified disciplines, particularly life insurance, finance & management.

With the growth and rising complexity of financial needs and available products & services, financial education and counselling along with life insurance and retirement planning is a key area requiring attention. The Company will continue to work on initiatives that guide individuals in understanding financial products including increasing awareness of life insurance, health insurance and pension products as a long term tool for protection and wealth creation.

2. Health care

(Schedule VII (i) Eradicating hunger, poverty and malnutrition, promoting preventive healthcare and sanitation and making available safe drinking water; (iii) Promoting gender equality, empowering women, setting up homes and hostels for women and orphans, setting up old age homes, day care centers and such other facilities for senior citizens and measures for reducing inequalities faced by socially and economically backward groups; (x) Rural development projects)

The healthcare challenge in India spans a number of dimensions, including access to affordable healthcare for the poor; awareness of health issues & available facilities/ benefits among the less privileged segments of society and specific vulnerable sections of the population; and child malnutrition, which impairs the capacity of a child to lead a healthy and productive life. Addressing this challenge is essential to achieve the objective of inclusive growth.

The Company and ICICI Foundation will continue to focus on developing innovative models with the potential to scale up and bring about improvements in the delivery of healthcare to the marginalised

segments of society. These will seek to enhance the availability of affordable healthcare to low income households, improve health seeking behavior among low-income and vulnerable groups through higher awareness and improve child nutrition. Initiatives to promote access to healthcare backed by insurance will continue to be a focus area. The Company and ICICI Foundation will support initiatives to make available clean and safe drinking water.

Sanitation and hygiene being a key enabler for public health, the Company will extend support for advocacy as well as for projects that improve and enhance overall sanitation and cleanliness.

3. Skill development and sustainable livelihoods

(Schedule VII (ii) promoting education, including special education and employment enhancing vocation skills especially among children, women, elderly and the differently abled and livelihood enhancement projects; (iii) Promoting gender equality, empowering women, setting up homes and hostels for women and orphans, setting up old age homes, day care centers and such other facilities for senior citizens and measures for reducing inequalities faced by socially and economically backward groups)

Enabling India's youth to gain skills that can provide employment is key to realising the potential of India's demographic dividend and driving inclusive growth. Improving employability of the youth from lower-income sections of society is hence an important focus area.

The ICICI Academy for Skills has been set up across the country to provide job-oriented skill training to youth. Several centers have been set up across the country. In this initiative, ICICI Foundation is also leveraging the skills and training capabilities of large corporates in developing training modules in their respective domains. ICICI Foundation is also liaising with corporates and businesses to get the trained youth employed, through a job portal.

4. Financial inclusion

(Schedule VII (iii) Promoting gender equality, empowering women, setting up homes and hostels for women and orphans, setting up old age homes, day care centers and such other facilities for senior citizens and measures for reducing inequalities faced by socially and economically backward groups (x) Rural development projects)

The Company strongly believes that to improve the overall economic condition of the low income population and to empower them with means to overcome adversities or inequalities, access to financial services is an important factor. Increasing the participation of the rural population as well as the urban poor and migrant workers in the economic mainstream and the formal financial system is imperative for India to leverage its growth potential. The Company recognises the need for critical interventions in promoting rural development and will initiate programs that would empower the rural people.

The Company will continue to provide micro-insurance to India's low-income population, as part of its commitment to make life insurance accessible to low income groups and rural population, including the urban poor and migrant workers. The Company will focus on further expanding its reach using distribution channels, branches and leveraging technology to make life insurance available to rural and under penetrated segments of society.

5. Support employee engagement in CSR activities

The Company supports the involvement of its employees in CSR activities. The Company will encourage employees to participate in CSR activities of the Company and ICICI Foundation.

The ongoing initiatives by the Company for its employees are

- Payroll giving program;
- Employee volunteering program, including Teach for India program and Marathon.

6. Capacity building for corporate social responsibility

The Company and ICICI Foundation will continue to promote incubation of expertise for implementing corporate social responsibility initiatives. It will also work towards providing a platform for organisations engaged in social initiatives, and discussion & thought leadership on critical challenges to inclusive growth. The Company and ICICI Foundation will continue to support initiatives that promote individual and corporate philanthropy.

7. Other areas

The Company will continue to provide support to specific needs such as during natural disasters, through financial as well as logistical support.

Apart from the activities undertaken in areas or subjects of primary focus, the CSR Committee may choose to select activities in areas or subjects, as prescribed in Schedule VII of the Companies Act, 2013.
