3. **Premium payment mode:** Unless your policy is a Single Premium policy, you have a choice to pay your premiums yearly, half-yearly or monthly. For half-yearly and yearly modes of premium payment, GMB will be enhanced as per factors given below.

- Monthly: Nil
- Half yearly: 2.5%
- Yearly: 4.5%

4. **Surrender value:** In case of Single Premium policies, the policy will acquire surrender value from policy inception. For other than Single Premium policies, a policy will acquire a Surrender Value on payment of one full policy year's premium.

On surrender, once your policy has acquired a surrender value, you will get higher of

- The Guaranteed Surrender Value plus guaranteed surrender value of subsisting bonuses, as applicable
- Special Surrender Value

Where,

Guaranteed Surrender value of subsisting bonuses = Subsisting reversionary bonuses already accrued to the policy × Guaranteed Surrender Value Factor for subsisting bonus

These Guaranteed Surrender Value Factors convert the face value of subsisting bonuses accrued to the policy, payable on maturity or earlier death, to their expected present value. These factors are guaranteed. The SSV is not guaranteed.

Please note, if you discontinue your premiums before your policy has acquired a surrender value, no benefits will be payable under the policy.

For more details on the surrender benefit, please refer to the policy document.

5. **Revival:** A policy which has discontinued payment of premiums may be revived subject to underwriting and the following conditions:

- The application for revival is made within 2 years from the due date of the first unpaid premium and before the termination date of the policy. Revival will be based on the prevailing Company policy.

- The policyholder furnishes, at his own expense, satisfactory evidence of health of the life assured as required by the Company.
- The arrears of premiums together with interest at such rate as the Company may charge for late payment of premiums are paid.

The revival of the policy may be on terms different from those applicable to the policy before premiums were discontinued; for example, extra mortality premiums or charges may be applicable. The Company reserves the right to refuse to re-instate the Policy. The revival will take effect only if it is specifically communicated by the Company to the policyholder.

On revival of a reduced paid-up policy, the reduced paid-up Sum Assured on death and reduced paid-up GMB will be restored to the Sum Assured on death and GMB applicable at the time of premium discontinuance. All applicable reversionary bonuses declared since premium discontinuance up to the date of revival, shall accrue to the policy.

## What happens if you discontinue your premiums?

If premium payment is discontinued, before the end of the premium payment term but after the policy has acquired a surrender value, the policy will continue as a 'Reduced paid-up' policy with reduced benefits as explained below:

- 1) On death of the policyholder during the policy term, the reduced paid-up Sum Assured on death along with subsisting reversionary bonuses<sup>T&C7</sup>, if any, shall become payable.

Reduced Paid-up Sum Assured on death = Maximum of (A, B)

Where:

A = Sum Assured on death X number of months for which premiums are paid / (12 X Premium Payment Term)

B = sum of annualized premiums paid plus loadings for modal premiums, if any

Additional lump sum on accidental death will not be payable for a reduced paid-up policy.

- 2) On survival till the end of the policy term, the reduced paid-up GMB, if any along with subsisting reversionary bonuses<sup>T&C7</sup>, if any, will be payable.

Reduced Paid-up Guaranteed Maturity Benefit = Maximum of (A, B)

Where:

A = GMB X number of months for which premiums are paid / (12 X Premium Payment Term)

B = sum of annualized premiums paid plus loadings for modal premiums, if any

A reduced paid-up policy will not be entitled to future reversionary bonuses or terminal bonus. On payment of reduced paid-up death benefit and reduced paid-up maturity benefit, the policy will terminate and all rights, benefits and interests under the policy will stand extinguished.

For more details on reduced paid-up policies, please refer to the policy document.

## What other benefits do you get?

### Loans

You can also avail of loans under this policy after the policy acquires surrender value. Loan amount of up to 80% of the Surrender Value can be availed. The Company shall be entitled to call for repayment of the loan with all due interest by giving three months' notice, if the amount outstanding is greater than the surrender value and if the policy is in paid-up state. In the event of failure to repay by the required date, the policy will be foreclosed, the policy will terminate, and all rights, benefits and interests under the policy will stand extinguished.
