How does ICICI Pru Cash Advantage work?

1. At policy inception, you choose your premium, premium payment option, premium payment mode, Sum Assured on Death and cash benefit mode.

2. Your GCB and GMB are calculated using the above mentioned parameters along with your age and gender.
   - For example: For a male life aged 35 years, with a PPT of 10 years, policy term of 20 years, premium of ₹50,000 paid annually the GMB is ₹2,64,760. An illustration of the total benefits that you can receive is shown in the benefit illustration.

3. GCB is payable in advance during the payout term T&C4. Payout term begins as soon as the premium payment term is over and terminates at the end of the policy term.

4. In the unfortunate event of death of the life assured during the policy term, death benefit is payable to the nominee.

5. On survival of the life assured till the end of the policy term, Guaranteed Maturity Benefit (GMB) is payable along with vested reversionary bonuses (RB) plus terminal bonus T&C5, if any.
Benefits in detail

Death Benefit
On death of the life assured during the policy term, for a premium paying or fully paid policy, irrespective of the Guaranteed Cash Benefits paid, the following benefits are payable to the nominee.

Death Benefit = Highest of (A, B, C)

Where:

- A = Sum Assured on Death plus Bonuses*
- B = GMB plus Bonuses*
- C = Minimum Death Benefit

Bonuses consist of vested reversionary bonuses, interim bonus and terminal bonus, if any.

Minimum Death Benefit is equal to 105% of total of premiums received up to the date of death.

All policy benefits cease on payment of the death benefit.

Cash Benefit
Throughout the payout term, Guaranteed Cash Benefit (GCB) is payable in advance, provided the life assured is alive and the policy is fully paid. GCB can be received in monthly or annual instalments. GCB is a percentage of the Guaranteed Maturity Benefit (GMB) and depends on cash benefit mode as per the table below.

<th>Guaranteed Cash Benefit</th>
</tr>
</thead>
<tbody>
<tr>
<td>Monthly</td>
<td>1% of GMB</td>
</tr>
<tr>
<td>Annual</td>
<td>11.5% of GMB</td>
</tr>
</tbody>
</table>

Maturity Benefit
On survival of the life assured till the end of the policy term for a fully paid policy, Maturity Benefit is payable.

Maturity Benefit = Maximum of (A, B)

Where, A = Guaranteed Maturity Benefit plus vested reversionary bonuses, if any plus terminal bonus, if any

B = 100.1% of total premiums paid (excluding any extra mortality premium, Goods & Services Tax and Cess, if any) less GCBs received

Please note, GMB is the Sum Assured on Maturity and will be calculated, at inception, based on your premium, premium payment option, premium payment mode, Sum Assured on Death, cash benefit mode, age and gender.

For example, if an annual premium of ₹50,000 is paid for a premium payment term of 10 years, the Maturity Benefit plus the sum of GCBs received during the policy term will be at least 100.1% of the total premiums paid (₹500,500 = ₹50,000 x 10 x 100.1%).

These illustrations are for a healthy male life assured. “If your policy offers guaranteed returns, then these will be clearly marked “guaranteed” in the Benefit Illustration on this page. Since your policy offers variable returns, the given illustration shows different rates of assumed future investment returns. The maturity benefit of your policy is dependent on a number of factors, including future performance. The above are illustrative maturity values, net of all charges, Goods & Services Tax and Cess, if any.

What happens if you discontinue your premiums?

Your policy will acquire a surrender value on payment of all premiums for at least two consecutive years.

Please note, if you discontinue your premiums before your policy has acquired a surrender value, no benefits will be payable under the policy.

If the policy has acquired a surrender value and no future premiums are paid, the policy may continue as a paid-up policy with reduced benefits as explained below:

On death of the life assured when the policy is paid-up, the nominee will receive the Paid-up Sum Assured on Death, vested reversionary bonuses and contingent reversionary bonus, if any.

On maturity of a paid-up policy, you will receive the Paid-up Guaranteed Maturity Benefit, vested reversionary bonuses and contingent reversionary bonus, if any.

A paid-up policy will not be entitled to future bonuses.

What happens if you discontinue your policy?

If your policy has acquired a guaranteed surrender value as described in the previous section and you choose to discontinue your policy, you will be entitled to the surrender value which is the higher of:

- Guaranteed Surrender Value (GSV) plus cash value of vested bonuses, if any
  - Cash value of vested bonuses = Guaranteed Cash Value Factors For Vested Bonuses X Vested bonuses
- Guaranteed Maturity Benefit, vested reversionary bonuses and contingent reversionary bonus, if any
- Non Guaranteed Surrender Value (NGSV)

Please note, if your policy has not acquired a surrender value and you choose to discontinue your policy, no benefits will be payable under the policy.

Revival of the policy

A policy which has discontinued payment of premiums may be revived subject to underwriting and the following conditions:

- The application for revival is made within 5 years from the due date of the first unpaid premium and before the termination date of policy. Revival will be based on the prevailing Board approved underwriting policy.
• The policyholder furnishes, at his own expense, satisfactory
evidence of health of the life assured as required by the Company.

• The arrears of premiums together with interest at such rate as the
Company may charge for late payment of premiums are paid. The interest
rate applicable in December 2019 is 7.97% p.a. compounded half yearly.

The revival of the policy may be on terms different from those applicable to the
policy before premiums were discontinued; for example, extra mortality
premiums or charges may be applicable. The revival will take effect only if it is
specifically communicated by the Company to the policyholder.

On revival of the policy, the paid-up benefits will be restored to the benefits
under the plan as if the policy had been premium paying. If reduced
Guaranteed Cash Benefits have been paid since premium discontinuance,
then the unpaid balance amount will be paid to the policyholder.
