- i) i) If any premium remains unpaid after the expiry of the grace period and before the policyholder has paid at least one full year's premium, then the policy will lapse. If you do not revive the lapsed policy by the end of revival period, it will terminate, and no benefits will be payable.
- ii) ii) If any premium remains unpaid after the expiry of the grace period and after the policyholder has paid at least one full year's then the policy is said to have become "paid-up". A Paid-up policy is one where you are entitled to get benefits, but the benefits will be lower than full benefits, since you would have paid lesser than the total premiums supposed to be paid.

Please read the section on Policy Revival mentioned below, which specifies how one can pay due premiums and revive the benefits of the policy.

- iii) Paid-up benefits are as explained below:

In the event of death of the Life Assured on the Vesting Date while the policy is in paid up-status, only the Vesting Benefit (if applicable) is payable, and the paid up Death Benefit shall not be payable.

You can revive your policy benefits for their full value within five years from the due date of the first unpaid premium by paying all due premiums together with interest before the termination date of the policy subject to underwriting and the following conditions:

The revival interest rate for August 2024 is 8.36% p.a. compounded half-yearly.
- The revival interest rate will be reviewed on the 15th day of every month by the company based on the 10-year G-Sec yield of one day prior to such review.

The revival of the policy may be on terms different from those applicable to the policy before premiums were discontinued; for example, extra mortality premiums or charges may be applicable. The revival will take effect only if it is specifically communicated by the Company to you. The Company reserves the right to refuse to revive the policy.

On revival of a lapsed or a paid-up policy, all benefits under the policy will be restored. All past Regular Bonuses (if declared) that would have otherwise vested to a premium paying policy during the period the policy was either lapsed or paid-up, will vest based on the policy anniversaries elapsed and will be accumulated at the past respective applicable accumulation rates. The Contingent Terminal Bonus (if any) attached to the policy will be reversed.

Any change in revival conditions will be subject to prior approval from IRDAI and will be disclosed to policyholders.

However, for limited and regular pay policies you can surrender the policy any time after payment of at least one full policy year's premium(s). Prior to receipt of one full year's premium, no surrender value is payable.

Policy Term less 1 to Policy Term	90%

GSV factors for Single Pay shall be as follows:

Policy Year of Surrender	GSV Factor
1	75%
2	75%
3	75%
4 to Policy Term	90%

Special Surrender Value

SSV will be calculated as follows:

$SSV = SSV \text{ Factor} \times 105\% \times \text{Total Premiums Paid, plus Accumulating Cash Bonus(if any)}, \text{ less total amount of partial encashment done using the Special Withdrawal feature, plus Terminal Bonus (applicable for premium paying or fully paid-up policies) or Contingent Terminal Bonus (applicable for paid-up policies), if declared.}$

- (iii) To commute/ withdraw up to 60% of the entire Vesting Benefit and utilize the balance amount to purchase an immediate annuity or deferred annuity from us at the then prevailing annuity rate. The Policyholder shall have an option to purchase immediate annuity or deferred annuity from another insurer at the then prevailing rate by utilizing not more than 50% of the proceeds of the policy net of commutation.
- b) In case any Special Withdrawals have been done during the Policy Term, then the maximum permissible amount that can be commuted from Vesting Benefit will be arrived by the formula $[60\% * V - 40\% * S]$, subject to minimum of zero.

Here V = total policy proceeds as on the Vesting Date; and S = total amount of Special Withdrawals done during the Policy Term.

The remaining amount of the Vesting Benefit will have to be annuitized as per the provisions outlined above.

Let's understand this through an example. Let's assume that due to a condition listed above under "Special Withdrawals", the policyholder has withdrawn ₹ 20,000 and on date of vesting, gets a Vesting Benefit of ₹ 1,00,000. He wishes to commute 60% of Vesting Benefit as a lump sum and annuitize the remaining 40% corpus.

Vesting benefit (V)	₹ 1,00,000
Special withdrawal (S) during the policy term	₹ 20,000
Commuted lump sum % chosen	60%
Annuitization %	40%
Commutable lump sum as per % chosen	₹ 60,000
Annuitization corpus	₹ 40,000
Lump sum commutation allowed after Special Withdrawal $(60\%*V - 40\%*S)$	₹ 52,000

- c) If no mandate is chosen by you before Vesting Date, the Company shall exercise the default payout option as outlined below, assuming "V" is the total policy proceeds as on the Vesting Date and "S" is the total amount of Special Withdrawals done over the policy term:

At the Vesting Date of the policy:

- (i) You shall receive an amount $60\%*V - 40\%*S$ commuted as lumpsum; and
- (ii) We shall invest the balance amount in "Single Life annuity with Return of Purchase Price" option of an Immediate Annuity plan of ICICI Prudential Life Insurance Company Limited with level annuity being paid annually in arrears. Here, Purchase Price will mean the net amount (before any applicable taxes) used to purchase the immediate annuity plan.

C. On policy surrender:

- a) On Surrender, the Policyholder can exercise any one of the following options:

- (i) To utilize the entire Surrender Benefit to purchase an immediate annuity or deferred annuity policy from us at the then prevailing annuity rate. The Policyholder shall have an option to purchase an immediate annuity or deferred annuity from another insurer at the then prevailing rate to the extent of percentage by utilizing not more than 50% of the proceeds of the policy net of commutation; OR
- (ii) To commute/ withdraw up to 60% of the entire Surrender Benefit and utilize the balance amount to purchase an immediate annuity or deferred annuity from us at the then prevailing annuity rate. The Policyholder shall have an option to purchase immediate annuity or deferred annuity from another insurer at the then prevailing rate by utilizing not more than 50% of the proceeds of the policy net of commutation.

- b) In case any Special Withdrawals have been done during the Policy Term, then the maximum permissible amount that can be commuted from the Surrender Benefit will be arrived by the formula $[60\% * V - 40\% * S]$, subject to minimum of zero.

Here V = total policy proceeds as at the time of Surrender; and S = total amount of Special Withdrawals done during the Policy Term.

The remaining amount of the Surrender Benefit will have to be annuitized as per provisions outlined above.

- c) If no mandate is chosen by You at the time of submission of surrender request, the Company shall exercise the default payout option as outlined below, assuming "V" is the total policy proceeds as at the time of surrender and "S" is the total amount of Special Withdrawals done over the policy term:

Upon Surrender of the policy:

- (i) You shall receive $60\%*V - 40\%*S$ as a commuted lumpsum; and
- (ii) Balance amount shall be invested in "Single Life annuity with Return of Purchase Price" option of an Immediate Annuity plan of ICICI Prudential Life Insurance Company Limited with level annuity being paid annually in arrears. Here, Purchase Price will mean the net amount (before any applicable taxes) used to purchase the immediate annuity plan.

In case the proceeds of the policy either on death, surrender or vesting, are not sufficient to purchase minimum annuity as defined in clause 5 of Schedule I of IRDAI (Insurance Product) Regulations, 2024, as amended from time to time, such proceeds of the policy may be paid to the claimant as lump sum.

12. Postponement of vesting date: You may opt for this feature by sending a request any time before the last 2 policy months of the policy term. This facility will be given only once during the policy term. No premiums will be payable during such postponement period.

The Reverse Repo Rate used for enhancing the Vesting Benefit during the postponement period will be reviewed twice every year and will be aligned with the latest reverse-repo rate published on RBI's website as on 1st of June or 1st of December, whichever is the latest date. The current Reverse Repo Rate as of 1st of June 2024 is 3.35% p.a. Any change in the reference rate used will be subject to prior approval from IRDAI and will be disclosed to you.
