**Four simple steps to safeguard your family’s financial future**

**Step 1:** Choose the level of life cover as per your goals, income and life-stage.

**Step 2:** Choose for how long you would like to pay the premiums (premium payment term) and for how long you would like to stay covered under the policy (policy term).

**Step 3:** Select how you want to save your money and the funds in which you want to save your money.

**Step 4:** Start paying your premiums and stay covered in the policy to achieve your protection and wealth creation goals.
This plan provides you with an adequate life insurance cover for financial protection of your loved ones, along with the potential to grow your savings with market linked returns.

1. **Death Benefit:**

   If the person whose life is covered by this policy (known as the Life Assured) passes away during the policy term, the insurance cover amount will be paid out as a lump sum to the Claimant, provided the policy is in-force and the monies are not in the Discontinued Policy Fund (DP Fund).

   Death Benefit will be highest of:
   - Sum Assured, including Top-up Sum Assured, if any
   - Fund Value including the Top-up Fund Value, if any
   - Minimum Death Benefit

   Minimum Death Benefit will be 105% of the total premiums paid, including top-up premiums, if any, received up to the date of death.

   As you avail the facility of Top-up, your Sum Assured correspondingly increases by a Top-up Sum Assured.

   Annualized Premium is the premium amount payable in a policy year excluding the taxes, rider premiums and underwriting extra premium on riders, if any.

   On death of the life assured, during the policy term, while the monies are in Discontinued Policy Fund, Death Benefit will be the proceeds of the Discontinued Policy Fund applicable to your policy.

   On payment of Death Benefit, the policy will terminate and all rights, benefits and interests under the policy will be extinguished.

2. **Maturity Benefit:**

   As you pay your due premiums, the premiums grow at a rate (based on the performance of the fund(s)) when allocated in your choice of fund(s).

   At the end of the policy term i.e. at policy maturity, provided the policy has not already terminated, you will receive the following:

   Fund Value, including top-up Fund Value, if any.

   On payment of Maturity Benefit, the policy will terminate and all rights, benefits and interests under the policy will be extinguished.
**Illustrative example:** Mr. Animesh, a 30-year-old male is looking for a plan that can provide a sufficient life insurance cover to safeguard the financial needs of his family in case he is not around. He is also looking at growing his wealth through market-linked returns.

ICICI Pru Protect N Gain provides the perfect solution for his needs.

<td>Premium payment frequency: Annual</td>
</tr>
<tr>
<td>Premium payment term: 10 years</td>
<td>Total premiums paid: ₹ 10,00,000 (₹ 10 Lacs)</td>
</tr>
</tbody>
</table>

In case of Animesh’s unfortunate death during the policy term, a guaranteed amount of ₹ 1,00,00,000 will be paid to his nominee as Death Benefit. In case if the fund value is higher than ₹ 1,00,00,000 at the time of his death, the fund value will be paid to the nominee as Death Benefit.

On Animesh’s survival till policy maturity, provided he has paid all due premiums, he will get a lump sum corpus as the Maturity Benefit (i.e. Fund Value), as given in the table below:

Since the fund value depends on the performance of the fund, we have assumed that 100% of the premiums are paid in Maximiser V.

The returns shown above i.e. at 4% p.a. and 8% p.a. are not guaranteed and they are not the upper or lower limits of what Mr. Animesh might get back, as the fund value depends on a number of factors including future investment performance. The above-mentioned returns are for illustrative purposes.

Mr. Animesh also has the option to receive the maturity benefit i.e. the Fund Value in the form of regular income for a period of one to five years instead of a one-time lump sum. Please refer to Clause 3, Settlement Option under Additional flexibilities for more details.

2. **Choice of portfolio strategies**

You can choose from four portfolio strategies to save your money in as per your risk appetite. These are given below:

**a) Fixed Portfolio Strategy**

This strategy enables you to manage your savings actively. Under this strategy, you may choose to save your monies in any of the fund options in proportions of your choice. You can switch monies amongst these funds using the switch option.

**Automatic Transfer Strategy**

Within the Fixed Portfolio Strategy, you also have the option to select Automatic Transfer Strategy (ATS).

To protect your savings against market uncertainties, you can save all or part of your savings in one or more debt/equity fund(s) and transfer a fixed amount regularly to one or more equity/debt fund(s).

**Unlimited free switches between funds for Fixed Portfolio Strategy:**

Under this strategy, you can switch units from one fund to another depending on your financial priorities and savings outlook as many times as you want. This benefit is available to you without any charge. The minimum switch amount is ₹ 2,000. Switches are not available under other portfolio strategies.

**Premium Redirection:**

At policy inception you specify the funds and the proportion in which the premiums are to be saved in the funds. At the time of payment of subsequent premiums, depending on your market outlook, you may change the split in which the premiums are to be saved in the funds, without any charge. This will not count as a switch. This feature is applicable only if you have opted for the Fixed Portfolio Strategy, provided monies are not in Discontinued Policy Fund.

**b) Target Asset Allocation Strategy**

This strategy enables you to choose an asset allocation that is best suited to your risk appetite and maintains it throughout the policy term.

You can allocate your premiums between any two funds available with this policy, in the proportion of your choice. Your portfolio will be rebalanced every quarter to ensure that this asset allocation is maintained.
c) **Trigger Portfolio Strategy 2**

This strategy enables you to take advantage of substantial equity market swings.

Under this strategy, your savings will initially be distributed between two funds Multi Cap Growth Fund, an equity oriented fund, and Income Fund, a debt oriented fund in a 75%: 25% proportion. The fund allocation may subsequently get altered due to market movements. We will re-balance funds in the portfolio based on a trigger event.

**d) Lifecycle based Portfolio Strategy 2**

Your financial needs are not static and keep changing with your life stage. It is, therefore, necessary that your policy adapts to your changing needs. This need is fulfilled by the Lifecycle based Portfolio Strategy 2.

At Policy inception, your savings are distributed between two funds, Multi Cap Growth Fund and Income Fund, based on your age. As you move from one age band to another, your funds are re-distributed based on your age.

**Change in Portfolio Strategy (CIPS)**

You can change your portfolio strategy up to four times in a policy year provided the monies are not in Discontinued Policy Fund. This facility is provided free of cost. Any unutilized Change in Portfolio Strategy cannot be carried forward to the next policy year.

On moving to the Life Cycle based Portfolio Strategy 2 or Trigger Portfolio Strategy 2, the existing funds as well as all future premiums will be allocated between Multi Cap Growth Fund and Income Fund as per the Strategy details mentioned earlier.

On moving to the Target Asset Allocation Strategy or Fixed Portfolio Strategy, you must specify the proportions amongst the choice of funds available in which the existing funds and future premium should be saved.

### 3. Settlement Option

The value of the payments will depend on the number of units and the respective fund NAVs on the date of each payment.

• The maximum number of top-ups allowed during the policy term is 99.

5. Partial Withdrawals

This facility is designed to help you provide liquidity so that any immediate financial needs can be met. You can avail this any time after the completion of lock-in-period, provided the monies are not in the Discontinued Policy (DP) fund. You can make partial withdrawals as long as the total amount of partial withdrawals in a year does not exceed 20% of the Fund Value in a policy year. The partial withdrawals are free of cost.

You can make partial withdrawals upon completion of the first five policy years if you have paid all due premiums till date of the withdrawal.

You can withdraw a minimum amount of ₹ 2,000 on each withdrawal.

You can continue with partial withdrawals till the Fund Value reaches the total of all premiums paid, including top-up premiums, received up to date of partial withdrawal. The partial withdrawals shall not be allowed which would result in termination of the Policy.

Please refer Clause 6 under Terms and Conditions for more information.

6. Systematic Withdrawal Plan (SWP)

Under Partial Withdrawal facility, you may opt for Systematic Withdrawal Plan for your supplementary income needs. Under this, you get the facility to withdraw a pre-determined percentage of your fund value regularly. This can help you to meet specific needs such as child’s education or money for monthly health related expenses.

For example, if you choose 6% of the fund value to be withdrawn yearly, then an amount equal to 6% of the fund value would be paid on the chosen date every year.

The following conditions are applicable for Systematic Withdrawal Plan:

• Systematic Withdrawal Plan is allowed only after the first five policy years.

• The payouts may be taken monthly, quarterly, half-yearly or yearly, on a specified date and are payable in advance.
• The first payout is made on the withdrawal start date specified by you.
• Withdrawals will be made first from Top-up Fund Value, if any, which has completed the lock in period and then from the Fund Value built up from the base premium(s).
• This facility can be opted at policy inception or anytime during the policy term. You may modify or opt-out of the facility by notifying us.
• All conditions applicable for partial withdrawals such as minimum and maximum withdrawal amount, age, etc. will be applicable for Systematic Withdrawal Plan as well.

Both SWP and partial withdrawal can be availed simultaneously.

For you to get the best value on your savings, we will contribute to your savings by allocating extra units as mentioned below:

1. **Return of charges:**

To provide you life insurance cover, mortality charge is deducted from the premiums that you pay by redemption of units before allocating them to the funds. Similarly, other charges known as policy administration charge (for administration of your policy), premium allocation charges and fund management charges (for management of funds) are also deducted, as detailed above.

**A. Return of 2X premium allocation charge:**

If no premium allocation charge (excluding taxes and top-up premium allocation charges) was deducted from the policy in the 120th month prior, then no return will be done. Units equivalent to the amount of charges to be returned will be allocated between the funds in the same proportion as the value of total units held in each fund at the time of allocation.

These will be added in the form of units to the Fund Value.

**B. Return of 2X – 3X mortality charges:**

Starting from the 11th policy year, at the beginning of each policy month, 2 times the mortality charges (excluding underwriting extra premium, extra mortality charges and taxes) deducted from the policy in the 120th month prior to the policy month, will be added back to fund value in the form of addition of units, in a corresponding manner, till the end of 25th policy year. From 26th policy year onwards, 3 times the mortality charges (excluding underwriting extra premium, extra mortality charges and taxes) deducted from the policy in the 120th month prior to the policy month, will be added back to fund value in the form of addition of units, in a corresponding manner.

Such additions shall continue till the policy is in force and all due premiums till date have been paid. The additions shall not continue during the settlement period. Maturity Booster will be allocated among the funds in the same proportion as the value of total units held in each fund at the time of allocation.

**Benefits of staying in the policy for a long term**

By staying in the policy for a long term, you can expect lower reduction in yield, ensuring better returns.

Reduction in yield is the difference between gross yield and net yield, where gross yield is the investment return generated by your fund. Net yield is calculated after deduction of charges (excluding mortality charges and taxes). The lower the reduction in yield, the better it is for the growth of your fund.

The table below shows the Reduction in Yield (RIY) at 8% investment return (gross yield) for premium paying term of 40 years, Sum Assured 50 lacs, with 100% of investment in Maximiser V fund.

2. Portfolio strategies

a) Fixed Portfolio Strategy

This strategy enables you to manage your savings actively. Under this strategy, you may choose to save your monies in any of the fund options (as detailed in “Choice of Funds” above) in proportions of your choice. You can switch monies amongst these funds using the switch option.

Automatic Transfer Strategy

Within the Fixed Portfolio Strategy, you also have the option to select Automatic Transfer Strategy (ATS).

It is not compulsory for the policyholder to select the Automatic Transfer Strategy. If this is chosen you can save all or part of your savings in Secure Opportunities Fund, Money Market Fund, Income Fund and/or Constant Maturity Fund and transfer a fixed amount in regular instalments into one or more of the following funds: Bluechip Fund, Maximiser V, Multi Cap Growth Fund, Maximise India Fund, Value Enhancer Fund, Opportunities Fund, Focus 50 Fund, India Growth Fund, Balanced Advantage Fund, Sustainable Equity Fund, Mid Cap Fund or Mid Cap Hybrid Growth Fund.

Similarly, you can choose to save all or part of your savings in one or more of the following funds: Bluechip Fund, Maximiser V, Multi Cap Growth Fund, Maximise India Fund, Value Enhancer Fund, Opportunities Fund, Focus 50 Fund, India Growth Fund, Balanced Advantage Fund, Sustainable Equity Fund, Mid Cap Fund or Mid Cap Hybrid Growth Fund and transfer a fixed amount in regular instalments into one or more of Secure Opportunities Fund, Money Market Fund, Income Fund and Constant Maturity Fund.

There would be no additional charges for Automatic Transfer Strategy (ATS). It is not compulsory for the policyholder to select the Automatic Transfer Strategy. The following conditions apply to Automatic Transfer Strategy (ATS).
• This automatic transfer will be done in either weekly, fortnightly or monthly equal instalments, as per chosen frequency.

• Automatic Transfer Strategy (ATS) would be executed by redeeming the required number of units from fund chosen at the applicable unit value and allocating new units in the destination fund at the applicable unit value.

Once selected, Automatic Transfer Strategy (ATS) will be renewed and would be regularly processed for the entire term of the policy or until the Company is notified, through a written communication, to discontinue the same. The Automatic Transfer Strategy will not be applicable if the source Fund Value is less than the amount nominated for transfer.

b. Target Asset Allocation Strategy

This strategy enables you to choose an asset allocation that is best suited to your risk appetite and maintains it throughout the policy term.

You can allocate your premiums between any two funds available with this policy, in the proportion of your choice. Your portfolio will be rebalanced every quarter to ensure that this asset allocation is maintained.

The re-balancing of units shall be done on the last day of each Policy quarter. If the last day of the quarter is a non-working day, then the next working day’s NAV (i.e. the price per unit of the Fund) will be applicable.

c. Trigger Portfolio Strategy 2

Under this strategy, your savings will initially be distributed between two funds Multi Cap Growth Fund, an equity oriented fund, and Income Fund, a debt oriented fund in a 75%: 25% proportion. The fund allocation may subsequently get altered due to market movements. We will re-balance funds in the portfolio based on a trigger event.

Working of the strategy:

• The trigger event is defined as a 10% upward or downward movement in NAV of Multi Cap Growth Fund, since the previous rebalancing. For determining the first trigger event, the movement of 10% in NAV of Multi Cap Growth Fund (details on fund options available under the product are available in the “Choice of Funds” above) will be measured vis-à-vis the NAV at the inception of your strategy.

• On the occurrence of the trigger event, any fund value in Multi Cap Growth Fund which is in excess of three times the Income Fund, fund value is considered as gains and is transferred to the liquid fund - Money Market Fund by cancellation of appropriate units from the Multi Cap Growth Fund. This ensures that gains are capitalized, while maintaining the asset allocation between Multi Cap Growth Fund and Income Fund at 75%:25%
• In case there are no gains to be capitalized, funds in Multi Cap Growth Fund, Income Fund and Money Market Fund are redistributed in Multi Cap Growth Fund and Income Fund in 75:25 proportion.

d. Lifecycle based Portfolio Strategy 2

Key features of this strategy

• Age based portfolio management

At Policy inception, your savings are distributed between two funds, Multi Cap Growth Fund and Income Fund, based on your age. As you move from one age band to another, your funds are re-distributed based on your age. The age wise portfolio distribution is shown in the table.

• Quarterly rebalancing

On a quarterly basis, units shall be rebalanced as necessary to achieve the above proportions of the Fund Value in the Multi Cap Growth Fund and Income Fund. The re-balancing of units shall be done on the last day of each Policy quarter. The above proportions shall apply until the last ten quarters of the Policy are remaining.

• Safety as you approach maturity

As your Policy nears its maturity date, you need to ensure that short-term market volatility does not affect your accumulated savings. In order to achieve this, your savings in Multi Cap Growth Fund will be systematically transferred to Income Fund in ten instalments in the last ten quarters of your Policy.
**Non-Forfeiture:**

**Surrender:**

It is recommended that you continue with your policy to avail all benefits. During the first five policy years, on receipt of intimation that you wish to surrender the policy, the Fund Value including Top-up Fund Value, if any, after deduction of applicable Discontinuance Charge, shall be transferred to the Discontinued Policy Fund (DP Fund).

You or the Claimant, as the case may be, will be entitled to receive the Discontinued Policy Fund Value applicable to your policy, on the earlier of death of the Life Assured or the expiry of the lock-in period. Currently the lock-in period is five years from policy inception.

On surrender after completion of the fifth policy year, you will be entitled to the Fund Value including Top-up Fund Value, if any.

**Premium Discontinuance:**

It is recommended that you pay all premiums for the period selected to be able to enjoy all policy benefits. However, at any stage if you stop paying premiums the following shall be applicable:

i. **Premium discontinuance during the first five policy years:**

   Upon expiry of the grace period, in case of discontinuance of policy due to non-payment of premiums during the first five policy years, the Fund Value including Top-up Fund Value, if any, shall be credited to the DP Fund after deduction of applicable discontinuance charges and the risk cover and rider cover, if any, shall cease.

   We will communicate the status of the policy to you within three months of first unpaid premium providing you the option to revive the policy within the revival period. The revival period is three years from date of first unpaid premium.

   i. If you opt to revive but do not revive the policy during the revival period, the proceeds of the DP fund applicable to your policy shall be paid to You at the end of the revival period or lock in period, whichever is later, and the policy shall terminate. In respect of revival period ending after lock-in period, the policy will remain in DP fund till the end of revival period. The Fund management charges of discontinued fund will be applicable during this period and no other charges will be applied.

   ii. If you do not exercise the option to revive the policy, the policy shall continue without any risk cover and rider cover, if any, and the policy fund shall remain invested in the discontinuance fund. At the end of lock-in period, the proceeds of the DP fund applicable to your policy shall be paid to the policyholder and thereafter the policy shall terminate and all rights, benefits and interests will stand extinguished.
iii. However, you have an option to surrender the policy anytime and monies in the DP fund applicable to your policy will be paid out at the end of lock-in period or date of surrender whichever is later.

ii. **Premium discontinuance after the first five policy years:**

Upon expiry of the grace period, in case of discontinuance of policy due to non-payment of premium after the first five policy years, the policy will be converted into a reduced paid-up policy with paid-up sum assured. The policy shall continue to be in reduced paid-up status without rider cover, if any.

Reduced paid-up Sum Assured = Original Sum Assured \times \frac{\text{Total number of premiums paid till the date of discontinuance}}{\text{Original number of premiums payable as per applicable terms and conditions of the policy}}

All charges as per terms and conditions of the policy shall be deducted during the revival period. However, the mortality charges shall be deducted based on the reduced paid up sum assured only.

We will communicate the status of the policy to you within three months of first unpaid premium providing you the following options to exercise:

1. Revive the policy within the revival period of three years
2. Complete withdrawal of the policy

If you choose option 1 and do not revive the policy during the revival period or maturity, whichever is earlier, the Fund Value, including the Top-up Fund Value, if any, will be paid to you at the end of the revival period or maturity, whichever is earlier, and the policy shall terminate and all rights, benefits and interests will stand extinguished.

If you choose option 2, the policy will be surrendered and the Fund Value, including the Top-up Fund Value, if any, will be paid to you. On payment of surrender value, the policy shall terminate and all rights, benefits and interests will stand extinguished.

If you do not choose any of these options, the policy shall continue to be in reduced paid up status. At the end of the revival period or maturity, whichever is earlier, the Fund Value, including the Top-up Fund Value, if any, shall be paid to you and the policy shall terminate and all rights, benefits and interests will stand extinguished.

You will have an option to surrender the policy anytime. On surrender, the Fund Value, including the Top-up Fund Value, if any, shall be paid to you and the policy shall terminate and all rights, benefits and interests will stand extinguished.
On death of the Life Assured during this period, Reduced paid-up Sum Assured (as detailed above), shall be paid to the Claimant and thereafter the policy shall terminate and all rights, benefits and interests will stand extinguished.

- A Fund Management Charge of 0.50% p.a. of the DP Fund will be made. No other charges will apply.
- From the date monies enter the DP Fund till the date they leave the DP Fund, a minimum guaranteed interest rate declared by IRDAI from time to time will apply. The current minimum guaranteed interest rate applicable to the DP Fund is 4% p.a.

The Date of Discontinuance of the policy is the date on which we receive an intimation from you about discontinuance of the policy or surrender of the policy, or the expiry of the grace period, whichever is earlier. The policy remains in force till the date of discontinuance of the policy.

**Policy revival**
