## Death Benefit payout options

You buy a term plan with an objective that your loved ones lead their lives comfortably without any financial worries, even in your absence. ICICI Pru iProtect Smart Plus works as a “Life Continuity plan” for your loved ones by providing the flexibility to take the Death Benefit in a way that meets your family’s financial requirement. The Death Benefit payout option has to be selected by you at Policy inception and it cannot be changed during the Policy Term.

Under the Life and Life Plus variant, there are four payout options for the Death Benefit payable in the event of death or diagnosis of Terminal Illness of the Life Assured:

**1. Lump Sum Option** – Entire Death Benefit amount is payable as lump sum.

**2. Income Option** – 10% of the death benefit amount is payable every year for 10 years. This will be paid in equal monthly instalments in advance at the rate of 0.83333% of Death Benefit amount. Sum of total monthly benefits payable over 10 years is equal to the death benefit amount.

The Claimant can also advance the first year's income as lump sum. The monthly income will start from the subsequent month for 9 years at the rate of 0.80% of the Death Benefit amount.

**3. Lump sum and Income Option** – If this option is chosen then, the death benefit will be paid as a combination of income and lump sum payout options, where the percentage of death benefit paid out as lump sum will have to be chosen at the policy inception. The remaining death benefit amount will be paid out in equal monthly instalments in advance at the rate 0.83333% per month over 10 years.

**4. Increasing Income Option** – The Death Benefit amount is payable in monthly instalments for 10 years starting with 10% of the benefit amount per annum in the first year. The income amount will increase at 10% p.a. simple interest every year thereafter. The sum of total monthly benefits payable over 10 years is equal to 145% of the Sum Assured on Death.

At the time intimation of death or Terminal Illness (if applicable) claim and at any time after the start of monthly income, the Claimant will have the option to convert the outstanding monthly income into lump sum pay out and the Policy will terminate after the lump sum payout. The lump sum amount will be the present value of future payouts calculated at a discount rate as given below:

- At the time of intimation of death or diagnosis of Terminal Illness (if applicable) claim approval: 6.50% p.a.
  - At any time after the payment of first monthly income: Higher of 6.50% and 10-year Government Securities yield, rounded to nearest 0.25%. The yield on 10-year Government Securities will be sourced from [www.bloomberg.com](http://www.bloomberg.com). This discount rate will be reviewed twice every year on 1st of June and 1st of December.
