Since your policy offers variable returns, the given illustration shows two different rates (4% & 8% p.a.) of assumed future investment returns. The returns shown in the illustration are not guaranteed and they are not the upper or lower limits of what you might get back, as the value of your policy depends on a number of factors including future investment performance.

*The annuity amounts have been calculated for a Life Annuity with Return of Purchase Price annuity option, using illustrative annuity rates. The illustrative annuity rates used for these calculations are based on rates of interest of 4% and 8% p.a. Annuity rates are subject to change from time to time.
