We shall guarantee the NAV only at the termination of each tranche. Units may be withdrawn or switched from a tranche before its termination at the then prevailing NAV by redemption of Units. Subsequent premiums are allocated to the other Funds in a proportion specified by you at the time of inception. If you wish to invest subsequent premiums in the RGF, you may do so by switching monies into the RGF. Please refer to Clause 5.3 for details. It does not in any way confer any right whatsoever on you or on the Life Assured to otherwise share in the profits or surplus of the business of the Company in any manner whatsoever or make any claim in relation to the assets of the Company. All assets relating to the Funds shall be and shall remain in the absolute beneficial ownership and control of the Company. 5.3 Switches: You have an option to switch Units from one Fund to another by redeeming Units in the first Fund and allocation of Units in the second Fund, based on the NAV of the relevant Funds. This feature will be available only with Fixed Portfolio Strategy. **i.** You are allowed four free switches in each Policy year starting from the date of commencement of the Policy. Any unutilized free switch cannot be carried forward. **ii.** Currently, for any non-free switch, a Switching charge of Rs.100 shall be applicable except in case of complete or partial closure of the Funds. This charge is subject to change, as per the rules of the Company from time to time subject to IRDA approval. **iii.** Currently, the minimum amount per switch is Rs. 2,000 and shall be subject to change as per the rules of the Company from time to time. **iv.** During the first three Policy years, switches shall not be allowed unless all due premiums till date have been paid. **v.** You can switch any amount, subject to the minimum amount, from the RGF to another Fund at any point of time. The guaranteed NAV will continue to apply on the remaining units, if any, in the RGF. The option to switch into the RGF will be available only if a tranche of RGF is open at the time of switch request and the Maturity Date is on or after the termination date of the RGF tranche open for subscription at that time.

5.4. Premium Redirection: **i.** This is the facility allowing you to modify the allocation of amount of renewal premium into a different investment pattern from the option exercised at the inception of the Policy. This feature will be available only with Fixed Portfolio Strategy. **ii.** You will have an option to specify the Funds and the proportion in which the premiums are to be invested in the Funds at the inception of the Policy. At the time of subsequent premiums, you may change the proportion in which the said premiums are to be invested. Once chosen, this Fund allocation will apply for all subsequent premiums. This option is available without any charge and it will not be counted as a switch. **iii.** However, RGF is not available as one of the funds for premium redirection. Money can be invested in RGF by means of a switch at a time that a tranche is open for subscription. Please refer to Clause 5.3 for details

5.5 Increase of Sum Assured: **i.** Increase in Sum Assured will be allowed only on the Policy anniversary and provided all due premiums till date have been paid. **ii.** This shall be subject to underwriting. 5.7. Loans: No Loans are allowed under this plan.

5.8. Portfolio Strategies: You have the option to choose from the following Portfolio strategies. **i. Trigger Portfolio Strategy:** Under this strategy, your investments will initially be distributed between two Funds - Multi Cap Growth Fund, an equity oriented Fund, and Income Fund, a debt oriented Fund - in a 75:25 proportion. This

allocation may subsequently change on account of market movements. We will re-balance the Funds in the portfolio on the occurrence of the trigger event. Working of the strategy: **a.** A trigger event is defined as a 15% upward or downward movement in NAV of Multi Cap Growth Fund, since the previous rebalancing. For determining the first trigger event, the movement of 15% in NAV of Multi Cap Growth Fund will be measured vis-à-vis the NAV at the inception of your Policy. **b.** On the occurrence of the trigger event, any value of units in Multi Cap Growth Fund which is in excess of three times the value of units in Income Fund is considered as gains and is transferred to the Liquid Fund – Money Market Fund – by redemption of appropriate units from Multi Cap Growth Fund. This ensures that such gains are capitalized and protected from future equity market fluctuations, while maintaining the asset allocation between Multi Cap Growth Fund and Income Fund in the proportion of 75:25. **c.** In case there are no such gains, Units in Multi Cap Growth Fund and Income Fund are redistributed in the proportion of 75:25 without any transfer to or from Money Market Fund. **b. Fixed Portfolio Strategy:** Under this option, you have the option to choose among the Funds as outlined in Clause 4. You shall specify the Fund(s) and the proportion in which the premiums and any existing Fund Value are to be invested in the chosen Fund(s) at the inception of the Policy or at the time of change to the Fixed Portfolio Strategy from the Trigger Portfolio Strategy, as the case may be.

5.9. Change in Portfolio Strategy (CIPS): You have the flexibility to change your portfolio between the Trigger Portfolio Strategy and Fixed Portfolio Strategy. This option to change between Fixed and Trigger Portfolio Strategy can be exercised only once every policy year. This facility will be provided free of cost. On moving from the Fixed Portfolio Strategy to the Trigger Portfolio Strategy, the existing Policyholder's funds as well as all future premiums will be allocated between Multi Cap Growth Fund and Income Fund as per the Trigger schedule mentioned earlier. On moving from Trigger Portfolio Strategy to Fixed Portfolio Strategy, you must specify the proportions among the choice of eight funds available in which your existing funds and future premium should be invested. At any point of time, the entire investment under the Policy can be only in invested only in one portfolio strategy.

5.10 Automatic Transfer: **a.** This option is available only with Fixed Portfolio Strategy. **b.** You may opt for an automatic monthly transfer of a pre-defined amount from your investments in the Money Market Fund, into any one of the equity Funds available under the plan (namely Bluechip Fund, Multi Cap Growth Fund, and Opportunities Fund). You may opt for a transfer date of either 1st or 15th of every month. If the 1st or 15th of the month is a non-valuation date then the next working day's NAV will be applicable. If you have not specified the transfer date, then the transfer will occur on the 1st of every month. **c.** At the time of transfer, the required number of units will be redeemed from Money Market Fund, at the applicable unit Value and new units will be created in the chosen destination Fund. The minimum transfer amount is Rs. 2,000. This value is subject to change from time to time as per rules of the Company and subject to prior approval of the Authority. **d.** The Automatic Transfer Strategy will be regularly processed till you notify us to discontinue the same through a written communication. The Automatic Transfer Strategy will not be applicable if the source Fund Value is less than the amount nominated for transfer.

5.11 Settlement Option: This means an option available to you to receive the maturity benefit as a structured payout over a period of up to 5 years after maturity, subject to the following conditions: **i.** During this period the investment risk in investment portfolio is borne by you. **ii.** You must inform us of this option at least 3 months prior to the Maturity date. **iii.** The Life Insurance Cover and the rider benefit, if any, shall cease on the Date of Maturity. **iv.** The Fund Management charges shall be applicable during this period. **v.** You can choose to receive the payments in the form of monthly (only through electronic transfer), quarterly, half yearly or annual instalments spread over a period of up to five years from the date of the maturity. The payment of instalments will be made in advance. **vi.** The available number of units under the Policy shall be divided by the residual number of instalments to arrive at number of units for each instalment. Further, in case of investment in more than one Fund, the number of units to be withdrawn shall be in the same proportion of the investment held at the time of payment of each instalment. **vii.** No Premium payment, Partial withdrawal, Switch and CIPS will be allowed during this period. **viii.** The remaining Fund Value shall become payable at once in the event of death of the Life Assured before receiving last instalment. The Policy shall terminate on the said payment. **ix.** You have the option to discontinue the periodical payments by withdrawing all the Units under the Policy. The Policy shall terminate on this payment.

5.12 Riders: The riders mentioned below are available under this Policy. However the benefit under the Riders shall become payable only if the same are opted for and premiums for the same are duly paid. These will be recovered by redemption of units. The Riders can be chosen at the inception of the Policy or at any Policy anniversary during the Policy term, subject to underwriting. • Accident and Disability Benefit Rider (ADBR) • Critical Illness Benefit Rider (CIBR) The maximum amount of Rider cover will be restricted to the Sum Assured of the base plan. If the Life Assured is found insurable the revised mortality charges as per the correct age will be charged from the next Policy anniversary date. Where the Life Assured is not found insurable, we would pay the Surrender Value and terminate the Policy. For the purpose of a, b and c clauses, the Surrender Value shall be calculated by using the NAV of the date of cancellation or termination of the Policy.
