The Policyholder has the option to switch into RGF in case a tranche is open for subscription at that time. In case the remaining term of the policy is less than the term of the RGF tranche open for subscription at that time, the Policyholder cannot invest in the RGF. On termination of a tranche of RGF, the Fund proceeds will be allocated to the remaining Funds, in the proportion of Units held therein, as on the date of termination. 4.7 Riders: No riders are allowed under this plan.

4.8 Portfolio Strategies: A choice of two asset allocation strategies is available to you viz; Trigger Portfolio Strategy and Fixed Portfolio Strategy. **a. Trigger Portfolio Strategy:** Under this strategy, your investments will initially be distributed between two Funds - Multi Cap Growth Fund, an equity oriented Fund, and Income Fund, a debt oriented Fund - in a 75%:25% proportion. This allocation may subsequently change on account of market movements. We will re-balance the Funds in the portfolio on the occurrence of the trigger event. **Working of the Strategy:** **i.** A trigger event is defined as a 15% upward or downward movement in the NAV of the Multi Cap Growth Fund, since the previous rebalancing. For determining the first trigger event, the movement of 15% in NAV of the Multi Cap Growth Fund will be measured vis-à-vis the NAV on the date of allocation of units at the inception of your policy. **ii.** On the occurrence of the trigger event, any value of units in the Multi Cap Growth Fund which is in excess of three times the value of Units in the Income Fund is considered as gains and is transferred to Money Market Fund, our liquid Fund, by redemption of appropriate Units from the Multi Cap Growth Fund. This ensures that such gains are capitalized and protected from future equity market fluctuations, while maintaining the asset allocation between Multi Cap Growth Fund and Income Fund in the proportion of 75%:25%. **iii.** In case there are no such gains to be capitalized, Units in Multi Cap Growth Fund and Income Fund are redistributed in the proportion of 75%:25% without any transfer to or from Money Market Fund. **b. Fixed Portfolio Strategy:** Under this option, you will have the option to choose among the Funds as outlined in Clause 3. You shall specify the Fund(s) and the proportion in which the premiums and any existing Fund Value are to be invested in the chosen Fund(s) at the inception of the policy or at any other time of change to the Fixed Portfolio Strategy from the Trigger Portfolio Strategy, as the case may be.

4.9 Change in Portfolio Strategy (CIPS): You have the flexibility to change your portfolio between the Trigger Portfolio Strategy and the Fixed Portfolio Strategy. This option can be exercised only once every policy year and it shall be free of charge. On moving from the Fixed Portfolio Strategy to the Trigger Portfolio Strategy, the existing Policyholder's funds will be allocated between Multi Cap Growth Fund and Income Fund as per the trigger event mentioned earlier in clause 4.8 (a). On moving from the Trigger Portfolio Strategy to the Fixed Portfolio Strategy, you must specify the proportions among the choice of eight Funds available in which your existing funds should be invested as mentioned in clause 4.8 (b) At any point in time, the entire investment under the policy can be invested only in one portfolio strategy.

4.10 Automatic Transfer Strategy: **i.** This option is available only with the Fixed Portfolio Strategy. **ii.** You may opt for an automatic monthly transfer of a pre-defined amount from your investments in the Money Market Fund, into any one of the equity Funds available under the plan (namely Bluechip Fund, Multi Cap Growth Fund, and Opportunities Fund). **iii.** You may opt for a transfer date of either the 1st or the 15th of every month. **iv.** If the 1st or the 15th of the month is a non-valuation date, then the next working day's NAV will be applicable. **v.** If you have not specified the transfer date, then the transfer will occur on the 1st of every month. **vi.** At the time of transfer, the required number of Units will be redeemed from the Money Market Fund, at the applicable NAV and new Units will be created in the chosen destination Fund. The minimum transfer amount is Rs. 2,000. This value is subject to change from time to time as per the rules of the Company and subject to prior approval of the Regulator (from time to time). **vii.** The Automatic transfer strategy request will be regularly processed till you notify us to discontinue it through a written communication. The Automatic transfer strategy will not be applicable if the source Fund Value is less than the amount nominated for transfer.

4.11 Settlement Option: This means an option available to you to receive the maturity benefit as a structured payout over a period of up to five years after maturity, subject to the following conditions: **i.** During this period, the investment risk in the investment portfolio is borne by you. **ii.** You must inform us of this option at least one month prior to the maturity date. **iii.** The Life Insurance Cover and all other benefits, if any, shall cease on the date of maturity. No other options/transactions shall be allowed during this period. **iv.** Only the fund management charges shall be levied during the Settlement period. **v.** You can choose to receive the payments in the form of monthly (only through electronic transfer), quarterly, half yearly or annual instalments spread over a period of up to five years from the maturity date. The payment of instalments will be made in advance. **vi.** The available number of Units under the policy shall be divided by the residual number of instalments to arrive at number of Units for each instalment. Further, in case of investment in more than one Fund, the number of Units to be withdrawn shall be in the same proportion as the Units held at the time of payment of each instalment. The value of payments will depend on the

number of Units and the respective Fund NAV as on the date of each payment. **vii.** Partial withdrawals, switches and CIPS will not be allowed during this period. **viii.** The remaining Fund Value shall become payable at once in the event of death of the Life Assured before receiving last instalment. The policy shall terminate on this payment. **ix.** You have the option to take the remaining Fund Value as a lumpsum payment any time during the settlement period. The policy shall terminate upon this payment.

The cut-off time shall not be applicable for such transactions. **vi.** The Units allocated shall be reversed in case of non realization of the premium amount. **vii.** We shall follow the norms stated above for any transactions, which are not specifically mentioned herein but involve allocation and redemption of Units.
