^ ARR stands for Assumed Rate of Return. This illustration is for a male life. The above are illustrative values, net of all charges, Goods & Services Tax and Cess (if any). Since your policy offers variable returns, the given illustration shows two different rates (8% & 4% p.a. as per the IRDAI circular, Ref: IRDAI/ACT/GDL/LIF/248/11/2011) of assumed future investment returns. The returns shown in the illustration are not guaranteed and they are not the upper or lower limits of what you might get back, as the value of your policy depends on a number of factors including future investment performance.
