*\*ARR stands for Assumed rate of return. If the policy offers guaranteed returns, then these will be clearly marked "guaranteed" in the Benefit Illustration. Since the policy offers variable returns, the given illustration shows two different rates of assumed future investment returns. The returns shown above are not guaranteed and they are not the upper or lower limits of what you might get back, as the maturity value of policy depends on a number of factors including future investment performance.*

# What happens if you discontinue your premiums?

If you discontinue premium payment before you have paid one full years' premium then your policy will lapse and no benefits will be paid. However, you can revive the policy within five consecutive years from the due date of the first unpaid premium.

If premium payment is discontinued after paying one full years' premium the policy has acquired a surrender value, the policy would continue as a 'paid-up' policy with reduced benefits. Please refer to policy terms and conditions for more details on paid-up benefits.
