What happens if you discontinue your premiums?

If you discontinue premium payment before your policy has acquired a surrender value, your policy will lapse and no benefits will be paid.

Your policy will acquire a Surrender Value after payment of 2 full years’ premiums.

You can surrender your policy after it has acquired surrender value and your surrender value will be equal to the higher of the following:
- Guaranteed Surrender Value (GSV) plus surrender value of accrued Guaranteed Additions
- Special Surrender Value (SSV)

GSV will be calculated as follows:
GSV = GSV Factor x total premiums paid date (excluding extra mortality premiums, Goods & Services Tax and Cess (if any))

Surrender value of accrued Guaranteed Additions will be calculated as follows:
(accrued Guaranteed Additions) x (Guaranteed Surrender Value factor for GAs)

Special Surrender Value
SSV will be calculated as follows:
SSV = (Paid-up GMB + accrued GAs) x Non-Guaranteed Surrender Value factor

If premium payment is discontinued after your policy has acquired a surrender value, your policy will continue as a ‘paid-up’ policy with reduced benefits. For more details on paid-up policies, please refer to the brochure.

For GSV factors, GSV factor for GAs, Non-Guaranteed Surrender Value factors, please go through the Policy document.

On payment of Surrender Value the policy will terminate and all rights, benefits and interests under the policy will stand extinguished.

If you have discontinued paying premiums, you can revive the policy within five years from the due date of the first unpaid premium and before the termination date of the policy, subject to policy terms and conditions.
